## 75 years of sound development

At the outset of its career in 1855, this Bank's policy of "sound and conservative banking methods" was

At the first annual meeting on July 15, 1857, the reserve fund was created with £4,800.

During more than three quarters of a century this Bank has consistently followed its sound policy. When bad financial weather darkened Canadian skies, this Bank weathered the storms and developed consistently by its own strength, and without mergers.

Today its Reserves are 50 per cent greater than its paid up capital.

The principles upon which this sound record was built are those by which we safeguard the welfare of our clients.
