other building materials. White Potato From America The white potato was introduced into Ireland from this country. The Irish, however, were the first to recognize potatoes as a staple food. Sir John Hawkins, a slave-trader, carried some potatoes from Virginia to Ireland, about the year 1565, and Sir Walter Raleigh, who had estates in Ireland, in the county of Cork, began growing them on a large scale. He popularized them as food to such an extent that they

became known as Irish potatoes.

susceptibility of the mass mind to superstition is typically illustrated by its attitude toward the Up to 1829 this gem stone was believed to bring luck to its owner. Ever since, says Collier's Weekly, it has been considered a magnet misfortune merely because a character in Sir Walter Scott's novel, "Anne of Geierstein," happened to express this belief.

You'll be surprised at the number of people who really want you to have a telephone. Many of them don't even know you but they're interested nevertheless because of what your telephone means to their service. Too few telephones curtails service and the value of each individual instrument as well. The more telephones in service, the greater the value to each user. From the viewpoints of both service cost and service scope, every farmer is interested in seeing that every other farmer has a telephone.
