effectiveness of one's ministry." Explaining his insistence on the ministerial training, Mather said arithmetic and geometry would develop reasoning power; a knowledge of astronomy would prevent "babbling in the pulpit"; geography would widen the minister's horizon and give opportunity for learning of

to Use Forks at Table Forks were not introduced into England until the early part of the 1600's. They were referred to even then as things which were "by some of our spruce gallants taken up of ord, however, that it was used at table in Roman history.

The first instance that history records the use of forks, states a writer in the Los Angeles Times, was at the table of John, the duke of Burgundy. It was a young English traveler, Tom Coryet, who wrote in 1611 with some scorn of how he had seen the Italians using a fork to help themselves from the dish. In all the countries that he visited, he did not observe the custom of using

So pleased was this young traveler with his discovery that he brought the fork home with him, only to be laughed at and abused for doing so. He was publicly rebuked from the pulpit, accused of impiety for assuming that God's good gifts were unfit to be touched by hands. In the end society acknowledged that he was right, the use of the fork was accepted, and a welcome change made in English table habits.

Before the French revolution it their unity, walked to the shack. It was customary, when a gentleman

Ray of Ray's Arithmetic

Joseph Ray, educator, was born Virginia in 1807. His early education was self-obtained, and he began to teach school at sixteen. Subsequently he studied at Washngton college, in Pennsylvania, and at the school which is now Ohio uni-D. was obtained at the Ohio Medical college, and he was for a time a surgeon in the Cincinnati hospital. From 1834 to 1851 Dr. Ray taught mathematics at Woodward college, ers waited-stunned. A wild shriek Cincinnati, and when it was conbroke out from under the roof and verted into a public high school he became its principal. During this time he published his series of school books on arithmetic and algebra. From about 1849 he was president of the board of directors of the Cincinnati House of Refuge. He died in Cincinnati in 1865.

Egg Uses Besides being used as human food, eggs are used in feeds for dogs, fish, birds, foxes, hogs and other animals. The poultry product is used also in leather and fur trade. in lithographing, photo-engraving, textile printing, paints for artistic work, printing ink, photography, gilding books, leather, cloth, fabrikoids, and in egg shampoo. It has been estimated that 12,000 dozens of slimy, coiling serpent fashioned eggs are laid every three minutes from coppers and held together with in the United States, 24 hours a
