So long."

Science Marches On

to man creed or dogma. Wars never hinder it, they help it to progress; it wins in peace, devastating plagues pestilences give it the secret of how to combat them, it gathers rich stores of information from the very people who are worried as to how new political theories will affect them. Science goes on-quietly-seeking the paths of human enlightenment, exerting its passive influence and increasing strength on a sometimes unbelieving and skeptical world which challenges everything put before it, until it finds the unaccepted theory has been subconsciously accepted and that what once was fancy has gradually become fact.
