Home Town Thoughts

Everybody seems to favor the causes of home town progress provided somebody else does the work. If you remove part of the foundation of a building, the structure may slump down out of shape. The business of the home stores is one of the chief foundations of a town's prosperity. If people spend money away from home, they remove a portion of

W/E all like to feel that we can it's always fun competing in local fairs to see how our baking measures up with that of our neighbours. However, for consistent prize-winning, it would be difficult to beat the record of Mrs. E. B. Dalziel who lives near Woodbridge, Ontario:

Asked for the secret of her success, Mrs. Dalziel said, "To begin with you must have exceptionally good flour. I use Robin Hood because it absorbs liquids so easily and has so much life and body to it. Cakes never fall in the centre when I use Robin Hood Flour. I often think anyone who had never baked before could start with Robin Hood and have excellent results the very first time she tried. I also like Robin Hood because it is so fine and white-

whip up a fine cake, and I've used it for all my baking and wouldn't think of changing -it goes so far and makes baking so easy:"

For prize-winning baking Mrs. Dalziel advises measuring ingredients carefully. She follows her recipes closely and cannot remember having had a baking failure since she began using Robin Hood Flour.

There is a reason for this: Robin Hood Flour is milled from the finest Canadian Spring wheat and every grain is washed before being ground. The millers are so sure of Robin Hood's quality that each bag contains a Guarantee Certificate offering your money back plus 10%, if you are not absolutely satisfied. Order Robin Hood, Canada's allpurpose flour today, and enjoy greater baking successes.

WHAT money? Why—the money in the banks! The money carefully put away by you and your neighbours in savings accounts. The money you could have spent today but wanted to keep safely against some future need. The businessman's money for use in his normal operations. There are more than 4,846,000 bank deposit accounts, savings and current. Within these two classes the great majority of deposits are small or of the rest of the deposits are owned by the few! Quite the contrary! The railways, for instance, have deposits in the chartered banks - and that indirectly includes the whole population of the Dominion. The trade unions have deposits. Millions of policy-holders share in the ownership of insurance companies' deposits. (And don't overlook the deposits of wheat pools; farm co-operatives; churches; municipalities and municipal hydro commissions, school districts; school children's penny bank savings deposited with the chartered banks; and commercial and mining corporations with very wide lists of shareholders, large and small, all over Canada. Truly, money on deposit in Canada's chartered banks is owned, in fact, by you and your fellow-Canadians.

In war, as in peace, Canada's Chartered Banks maintain, uninterrupted, their useful services — safeguarding depositors' funds; facilitating the nation's business — looking forward to peace with freedom as the only sure basis of enduring prosperity.
