

NOTE AND COMMENT

The light vote that has been polled in some municipalities recently provides disheartening proof of the slight value that many Canadian citizens attach to their democratic privileges.

It has been learned from reliable sources, there is a possibility that a new industry may locate in Milton. With industries springing up all over Ontario, we believe Milton should get a share. We wonder what inducements could be made to obtain more of them?

MUNICIPAL ELECTIONS.

Results of last Monday's Municipal Elections in Nassagaweya and Trafalgar Townships are as follows:

NASSAGAWAYA
Council—George E. Stokes, 215; J. H. Near, 209; Wm. Vansickle, 183; J. H. Simpson, 159; Wm. Dredge, 129; A. Service, 109; Frank Kinch, 76. The first four elected. George Finney is the reeve by acclamation. The electors voted down the two-year term of office 221 to 128.

TRAFALGAR
Reeve, W. N. Hall; (Ald.) deputy reeve, W. S. Hall, 611; P. D. Salter, 481. Council (first three elected), Alex. Phillips, 511; W. H. Biggar, 469; W. S. Beatty, 373; Emerson Ford, 349; J. H. Walker, 335; E. Featherstone, 331. The two-year term was defeated.

Requeuing Township voted 117 to 25 against the two-year term.

Export of Bacon
Govt. Controlled

There is an idea in some quarters that meat exporting packers ship bacon products in any manner and condition they see fit. This is not so. The meat packer is the manufacturer. The Government may be said to be the shipper. According to regulations under the provisions of Part II of the Live Stock and Live Stock Products Act, bacon is graded according to official standards and packaged as may from time to time be prescribed by the Dominion Minister of Agriculture, and bacon being exported must receive such care and handling in transit as may from time to time be prescribed by the Minister, to whom each exporter of bacon must file a signed statement in the form prescribed by the Minister respecting each shipment of bacon being exported. Such statement must be signed by a Government Inspector and one copy of the statement forwarded to the Marketing Service, Department of Agriculture, Ottawa.

Exporters of bacon must be licensed by the Minister and the license may be cancelled at any time if the holder violates any regulation of the Minister respecting the quality of bacon that may be exported within prescribed periods and the proportion of Wilshire sides to other cuts that are included in such shipment. All Grade "A" sides must bear the official brand "Canada" in the form of an arc, above the proprietary brand of the exporter only, such brand to be different from the proprietary brand included with the word "Canada" for branding "A" bacon. Grade "C" must not be branded. Proprietary brands must not contain the words "Canada" or "Canadian". The official brand "Canada" consists of block letters not less than five-eighths of an inch in height. Not only are the sides and cut inspected and graded by Government inspectors at the various plants but are again inspected at seaboard. Improved refrigeration cars, under controlled temperatures carry the product under Government supervision to seaboard. Export of bacon from Canada is carried out in accordance with the Government regulations and under Government supervision.

PREACHER AS PORTERS

The porters and others employed on sleeping cars and the Ontario University students or even graduates, as some of their patrons have discovered on engaging them in conversation. At least one Canadian sleeping car conductor is a Bachelor of Engineering, and a sleeping car porter on the Toronto Sudbury runs uses his spare moments to prepare sermons which he delivers on Sunday to a London, Ont., congregation, of which he is the pastor.—Brockville Recorder and Times.

THE BETTER WAY

A man was sentenced to three months in jail by a Western Ontario Magistrate the other day for neglecting to provide for his family. During those three months, while the husband and father is in jail, being housed and fed, who will provide for this family? A wiser plan, in our humble opinion, would be to have found the man employment, put him at it, and then see that he stuck to it, handing his pay envelope to his wife.—Guelph Mercury.

CAMPBELLVILLE

Andrew Allan, our popular mail carrier, is quite seriously ill at his home. His many friends trust he will soon be able to resume his duties. The next regular meeting of the Young People's Society will take the form of a skating party, weather permitting, on the Campbellville pond. Lunch will be served after.

The School Area Board was returned by acclamation. The Rev. F. Lawson has received a call from St. Andrew's Church, Kitchener, and has tendered his resignation here.

Miss Evelyn Vansickle, of Toronto, Normal School, is having a week's practical experience at S.S. No. 1 school.

Mrs. John Campbell is in Galt General Hospital undergoing an operation for goitre. Her friends wish her a speedy recovery.

Pte. Joe Currie is home on leave from Sussex, N. B.

The Allison Herald is responsible for the statement that of an entrance class of thirty pupils, only two were able to write the Lord's Prayer correctly. Allison is a town of schools and churches and presumably of Christian families. The chief blame for such a condition must apply to the parents, but it is surprising that boys and girls of thirteen or fourteen years of age should be so ignorant of the most frequently quoted passages of scripture. Referring to this matter, the Orangeville Banner wonders if similar lack of knowledge exists among students of that town. There is also Milton. Surely here young people are not equally deficient.

ZIMMERMAN

Mr. H. Peacock, of Omagh, visited last week with Mr. and Mrs. J. C. Rogers. Mr. and Mrs. S. Bennett and family visited New Year's Day with Mr. and Mrs. F. Green, of Islington.

Mrs. B. Bridgman and Mr. and Mrs. A. Smith, of Palermo, visited New Year's Day with Mr. and Mrs. J. Galbraith. Mr. and Mrs. O. Sinclair and family, of St. George, visited relatives in the community last week.

ASH

A presentation and party was held in Ash school for Pte. Wm. Moore of this community on Friday evening. Presentation consisted of money belt and wrist watch given by the well wishers of the community. The address was read by T. Pelletier. A very enjoyable evening was had by all.

The neighbors of Mr. Meredith are sorry to hear that he is under the Dr.'s care and hope that he will soon be well again.

The neighbors of Mr. Harrison are glad to hear that he is able to be out again. Miss Marjorie Hadley has returned to Toronto to continue her studies at the U. of T., after spending the Christmas holidays at home.

Mr. and Mrs. R. Pelletier and son, Bobby, visited Mr. and Mrs. F. Pelletier on Sunday.

LOWVILLE

Mrs. Cain and son, Keith, and daughter, Beatrice, of Toronto, were Sunday visitors at the parsonage.

Deputy reeve and assistants, Mr. W. J. Robertson and Mr. and Mrs. Robert Thompson motored to Creemore last week to attend the funeral of Mr. Gordon Thompson.

Miss Jean Robertson spent last week with friends in Toronto. The monthly meeting of the W. M. S. of the United Church will be held on Thursday afternoon at the home of Mrs. Melford Collins.

At the annual meeting of Campbellville Lodge, A. F. and A. M., Campbellville, the following officers were installed by John Gilmore and assistants: Wm. McLeod, I. P. M.; Wm. Vansickle, W. M.; G. W. Colling, S. W.; Dr. H. R. McDonald, J. W.; Elmer Foster, S. D.; R. Carbet, J. D.; Chas. Norrish, S. S.; George Readhead, J. S.; E. M. Readhead, D. of C.; C. C. McPhail, assistant D. of C.; Rev. F. Lawson, chaplain; T. H. Snyder, secretary; C. Chisholm, I. G.; S. Robinson, tyler.

Mr. and Mrs. F. W. Harbottle spent New Year's with Rev. and Mrs. G. F. Kelly, Lakefield.

Mr. and Mrs. Fred Halteman spent Sunday with friends at Buffalo.

The sympathy of the community is extended to Mr. Gordon Thompson in the death of Mrs. Thompson, who passed away at Creemore on Dec. 29th. Mrs. Thompson had been a resident of this community for the past three years, was a member of St. George's church, and was highly esteemed.

The annual meeting of the W. M. S. of St. George's church met at the home of Mrs. Joseph Stokes on Tuesday afternoon of this week.

Misses Vivian, Grace and Margaret Thompson spent the holidays at their home here.

HORNBY

(Intended for last week.)

Surely no one will complain of lack of water after all the snow and rain we have had during the last month.

Last Sunday was one of the wettest days of all—a good day for most people to stay home from church and listen in on radio programs of various kinds.

Congregations were small in all Hornby churches.

The annual meeting of the ratepayers of Hornby public school was well attended last Thursday evening. Mr. George Galbraith was elected trustee, and the trustees were given instructions to have electric lighting installed in the school, which will be a decided improvement.

Miss Jardine is spending the holidays with her sister, at Concord, Ont., and Miss Eidel Sibbald, who teaches at Merrittton, is home with her father for the holidays.

We are glad to report that Mrs. McIntosh, who has been on the sick list, is around again. She had her niece and nephew, Doris and Colin Mathieson, of Toronto, with her for the Christmas vacation.

Congratulations extended to Miss Irene Neilson on her marriage to Jas. Gibber, of Milton, which took place in St. Stephen's Church last Saturday in the presence of a large number of guests and friends.

Edward Robertson and Stanley Iyre have gone to London, where they have secured employment.

Harold Robertson is working in Streetsville, and Allen Hall has secured a position in Toronto. There will soon be very few young people left in Hornby.

Mrs. (Rev.) Totton spent Christmas week with her mother, Mrs. Warriner in Stonyville.

Dr. and Mrs. Harold J. Totton, of Hamilton, spent New Year's Day with the former's parents at the parsonage. Many family gatherings were held in various homes in the community on Christmas and Tuesday evenings, of which are not known to your correspondent.

Christmas holidays are over and both teacher and pupils have settled down once more for the long hard grind until midsummer.

Heavy congratulations are extended to Mrs. Wm. McPhedran, nee Charlene Leslie, in the birth of a daughter, in Guelph Hospital last Sunday. We also congratulate Mr. and Mrs. Geo. Leslie on having become grandparents. The Hornby Women's Institute held its monthly meeting at the home of Mrs. Guy Bussell on Wednesday evening. There was a good attendance. Mr. L. J. Skuce, P.S.I., gave an interesting talk on "Hooks."

HOCKEY

GUELPH 4—MILTON 2.

At Guelph, on Tuesday night, the local intermediate team defeated the Milton sextette by 4 goals to 2.

BOLTON 5—MILTON 2

Milton Juniors went down to defeat in their initial game here last night. Although the locals played a bang up game against a team which showed more polish is no reason for the hockey fans not turning out to the next fixture. The locals stepping into Bolton, only had one practice previous to the game. They worked like Trojans. During the first stanza, Bolton had the best of the play but our lads were as good as they in the second and beginning of the third. Toward the latter part of the third the boys weakened through lack of confidence. "Stubby" Evans, the local goalie, should be given the three stars. Had it not been for him the score may have been greater. Robertson and Cox deserve honorable mention, each on one rush in the second had the Bolton goalie at their mercy but couldn't beat him. The visitors applied the pressure in the third when Groland spent time in the cooler. Adams and Fish were outstanding for the visitors, the former scoring twice and the latter scoring twice and assisting with two. All penalties were for minor infractions.

Bolton—Goal, W. Infuso; defense, R. Barnett, H. Storey; centre, S. Jones; wings, J. Adam, P. Scarrow; forwards, E. Miller, R. Fish, K. Kempton, G. Bridgeman, W. Patterson, W. Calhoun.

Milton—Goal, L. Evans; defense, D. Scott, D. Goulward; centre, "Mike" Cox; wings, P. Bowering, J. Robertson; forwards, H. Evans, J. Kennedy, A. Graham, F. Morley, K. Randall, A. McDufee.

Penalties—1st period, Scott Barnett, Patterson; 2nd period, Barnett; 3rd period, Goulward, D. Venter;—Eccleston, Toronto.

Makes Another Fortune

When First Is Destroyed

There is a story about Leadville Johnny which might repeat itself. Leadville Johnny, a charter member of the old West, struck pay dirt. He sold out for \$300,000 and made the odd request that he be paid off in one thousand dollar bills. The request was granted and Leadville Johnny took the money to his cabin and tossed it into the lap of his pretty wife, saying: "It's all yours, honey. Do as you please with it. Throw it away, hide it, spend it—do what you please." Then Leadville Johnny went out with his pals to celebrate. Returning early the next morning, he built a fire in the fireplace, only to be awakened by his wife's screaming. She had hidden the money in the fireplace and it had gone up in smoke.

Now this was a situation. What did Leadville Johnny do? Did he fly off the handle, rail, scold his wife, threaten to leave her? No. He said: "Don't you worry a bit, honey. I'll go right out and get a bigger and better claim." And he did, just that. The next day he located the famous "Little Johnny," one of the greatest producers in history. Twenty million dollars came from this hole in the ground.

It seems that the moral of the story of Leadville Johnny is obvious.

Synthetic Glass Fibers

Rival Actual Products

Organic plastics and resins gradually are replacing glass for a number of purposes, particularly in the manufacture of certain articles of a decorative nature. Recent developments indicate the possibility of a counterindustry of glass of a field hitherto occupied exclusively by organic materials, that of artificial fibers.

Glass fibers are not new. Molten glass can be drawn into fine strands. Most of us have seen the so-called glass wool, which is made by drawing a filament of glass of a field of a glass rod and attaching it to a revolving cylinder, which draws out more and more of the glass until the whole rod has been converted into a skein of glass fiber.

However, the uses of glass wool have been fairly limited in the past. Recent improvements in the method of manufacture, however, have made available a glass wool that is free from some previous defects.

This new material is made up of fibers less than .0001 inch in diameter. A pound of it could extend completely around the earth. It is soft and fluffy in appearance, and it can be handled easily, as the fibers are too flexible to work into the skin.

This new glass wool has been spun and knitted into fabrics which in appearance do not give the slightest hint of their mineral origin. Obviously such textiles cannot be dyed, but must be made from colored glass if color is desired. At the present time the manufacture of glass fabric is in a highly experimental state. There is room for doubt as to whether it will ever be used in clothing.

However, glass cloth will have a number of special uses. Things like curtains and rugs made from it certainly will cut down fire hazards. The well known dielectric properties of glass suggest that a tape woven from glass wool would be an excellent electric insulator. Filter cloths woven of glass should find considerable use in the chemical industry for the filtration of strongly acid solutions.

The unwoven material, which looks like cotton more than anything else, also can be used as a heat insulator. It is fireproof, and a hollow wall packed with it will conduct far less heat than will air itself.

Air Conditioning History

To those who imagine that the idea of air conditioning is new, it will be a surprise to learn that an effective system was in use 130 years ago. The Black Friars, Henri Christophe, cooled the rooms of his palace at Sans Souci back in 1808.

Condensed Advertisements

FOR SALE—Pair Ladies' Skates cheap; can be seen at this office.

WANTED—Young girl for house work. Apply Champion Office.

PULLETS FOR SALE—Barred Rocks, laying, \$1.00 each. Phone 236-5.

'Courtesy Clubs' Teach

Children Good Manners

A fippant answer by some boys to a stranger started a "Courtesy Club" in a little village in Missouri, back in 1937, and from this beginning by a humble farmer, "courtesy clubs" have sprung up in many localities in the Middle West and threaten to spread to every state in the Union.

The farmer who observed this impoliteness on the part of the boys was A. Harry Orr, 65, of near Mt. Leonard, Mo. Wondering what he could do to make the boys and girls of his town more courteous, he arrived at the idea of a courtesy club for rural boys and girls. He talked it over with others and arrangements were made to hold a contest for all between the ages of 10 and 18. No one could enter and no one could keep out of the contest, as the prizes of \$10 each for the boy and girl were for a whole year's supply and not for just one outstanding act of courtesy.

And soon there was a noticeable pickup in politeness. More politeness on the sidewalks, in schoolyards, on party telephones, more politeness everywhere. It began to filter up from the boys and girls. Older people began to take pride in being "nice" to each other.

The contest was so successful that Mr. Orr has written into his will enough money to keep it going. And now other cities have picked up the idea and new contests for rural boys and girls are being started—all inspired by the farmer who saw an act of impoliteness and thought "wouldn't it be something couldn't be done about it."

Big War Savings

Drive to Start

A civilian army is about to descend on the Canadian public. The army's objective is to sign up 2,000,000 Canadians to commit themselves to regular weekly purchases of war savings certificates. At present certificates and bonds valued at about \$2,000,000 are sold every month. The Government hopes with an intensive publicity campaign to increase most of the monthly sales to \$10,000,000.

The campaign is the opening shot in the war on extravagance. Saving and budgeting is going to be drilled into the minds of the Canadian public. The government can come around any time—ask for a loan—and get it.

The pending drive is not a drive to make immediate sales, but is a campaign to organize the regular purchase of war certificates. Workers will go into industrial plants, factories and offices. They will give pep talks to the workers and attempt to get them to start buying certificates.

The campaign will be under the direction of the War Savings Committee of Canada. Soon it will assume the program of the annual appeal for funds of the Red Cross. Voluntary workers will knock on every door in Canada and ask the householder to begin buying war savings stamps.

One aim of the campaign is to have every subscriber buy the limit in stamps. At present the top is \$600 face value. At the end of the year, the civilian army is going to ferret out every person in Canada within the near future with the double objective of raising the monthly sales of war certificates and getting 2,000,000 persons to sign on the dotted line.

"I think a little kindness and humanity are still the most important things in a technical world."—Charles Chaplin.

Notice of Registration of By-Law.

Notice is hereby given that a By-law was passed by the Municipal Council of the County of Halton on the 17th day of December, 1940, providing for the issue of debentures to the amount of \$5,000 for the purpose of meeting the expenditure for the construction and improvement of the highway forming part of the County Road System of the County of Halton, and that such By-law was registered in the Registry Office for the Registry Division of the County of Halton on the 18th day of December, 1940. Any motion to quash or set aside the same or any part thereof must be made within three months after the first publication of this notice and cannot be made thereafter.

Dated the 18th day of December, 1940.

WM. DEANS, County Clerk.

Positive no reserve.

Terms cash.

W. ELLIOTT, Auctioneer.

J. F. Robinson, Clerk.

Hon. J. G. Taggart to Speak

to Holstein Breeders

Announcement is made by Victor J. Lawrence, Secretary of the Halton Breeders' Club, that the annual meeting of that enterprising Association will be held at the Palermo Community Hall on Tuesday, Jan. 14th. In connection with this Hon. J. G. Taggart, Minister of Agriculture for Saskatchewan, and Chairman of the Canadian Bacon Board, is to be the guest speaker. Hon. Mr. Taggart has recently returned from Great Britain and should therefore have a message of interest to all Halton farmers. The second speaker is to be Dr. J. B. Reynolds, of Port Hope, President of the Toronto Milk Producers' Association, who is well and favourably known to all Halton farmers. The Holstein Breeders, realizing that many farmers other than Holstein breeders would like to hear Mr. Taggart, are extending a general invitation to all Halton farmers for the afternoon session.

WARNING ISSUED TO MOTHERS
The Health League of Canada has issued a warning to mothers that this is a season of special danger to infants. For this reason the mother who gets a call from a friend who is suffering from a cold should not take that friend to her home, but rather the sufferer. Neither should she allow anyone suffering from a cold to come too near baby.
