Antipathy to Horse Meat

Dates to Pagan Rituals Humanitarian reasons keep many from taking any animal food. Others, considering meat merely "second-hand vegetables," prefer to take their nutriment "direct." many are convinced that a fruit, vegetable, nut and grain diet is really scientifically superior. But Why do they shudder at the horse-

meat butcher shops of France? "So far as natural qualities go, horsemeat is little if at all inferior to beef," declare Smithsonian institute investigators. "Various races have eaten it habitually. It formed the principal food of Huns and Mongols. Tartars also ate it."

These scientists find that "the feeling of repugnance . . . arose in a curious way," and offer an explana-

"Before Europe's conversion to Christianity, horse-meat was much eaten at religious festivals held in honor of old pagan gods. Because of associations with heathenism, early Christian missionaries forbade its use as 'meat offered to idols.' Hence people gradually came to feel that there must be something repulsive in horse-meat itself, and many still have this feeling without in the least knowing why."

On the whole, however, the din-

take her out on an inclosed veranda, a charming out-door sort of room. As the two approached the room their attention was attracted by childish treble voice. It seemed to be repeating a phrase time and again. Theresa and Sam entered quietly. There was eight-year-old Bonnie curled up in a big leather chair. Over and over again she kept say-

ing the word "mother." Suddenly the child looked. Apparently Bonnie was not in the least disconcerted. With all the frankness of childhood she smiled up at them. "I was just practicing so I will know how to say 'mother' when Miss Redmond marries you, Dad-

dy," she explained naively. That was enough for Theresa. She

was ready to surrender completely. She no longer even feared Nadine. "Sam, I'll marry you tomorrow," she said to that bewildered individual. Then she furtively wiped a tear from her lovely eyes and went over and took Bonnie in her arms with a perfect mother gesture.
