A Ford Tractor

A Ford Tractor will go a long way towards helping the labor problem in farming. On account of the ease with which it can be operated any member of the family over ten years can do a man's job and instead of it seeming like work, they will enjoy it. We will be pleased to let you use our demonstrator anytime for plowing, cultivating or whatever you want to do. If you give it a trial it will speak for itself. Ask the man who owns one.
