“The people of the Scandinavian continent are being fitted into our Canadian life better than those of the Anglo-Saxon race,” Watson Kirkconnell, M.A., Ph.D., McMaster University, Hamilton, told the members of the Canadian Club at its regular monthly banquet held at the Milton Inn last Friday evening.

One of the largest gatherings heard Professor Kirkconnell speak on the subject, "European Canadians." In his introduction he told that the Canadian people consist of 54 million Anglo Saxons, 34 million French and 24 million of general European extraction. "Of this third group the growth has been extremely heavy, 35% are a projection of the continent association, Europe," he advised.

He prophesied the increase of these French origins would in thirty years outnumber those of the Anglo-Saxon. "The Anglo-Saxon is due to dwindle more and more, that probably in 50 years we may be only a wistful hang-over from an earlier day," he added.

In order to correct this he would need an average of four children per family if we were to survive. Cities are especially running low. Only one baby in each family.

The thing we have to deal with is not a race but a matter of nationality. Eastern Europeans have not been brought up in peace and quiet such as those in Scandinavia and Holland. There has been much fighting in their countries in the last 100 years.

He went on to say that large numbers of the immigrants settled in the last and many, as much as 70%, have returned to their home countries. Many are proving good citizens, and on the whole the results are reassuring.

"It may be that Hitler has done more to unify us as a nation more than any other person," he advised, when he told that consular officers here were false in exploiting propaganda. "The majority of these people have had knowledge of the trend in Europe and have not been misled and feared the fate of liberty in a totalitarian world," he concluded.

Professor Kirkconnell included at the beginning of his address "The Flying Boat" a poem by the late west Messrs. F. H. Gilroy and C. R. Turner expressed the appreciation of the club to the speaker for his excellent address.

Mr. J. M. Denyes, Toronto, introduced the speaker.

Mr. Henry Patterson will speak to the club on "China's Modern Miracle," on Dec. 18th.

The president, C. S. Hatley drew the winning ticket on the hamper of apples. Professor Kirkconnell selected the ticket.

INDUSTRIALIST HONORED

Samuel Smith was host to the Milton council, their citizens and officials from Mills at Toronto and Montreal, at a luncheon in honor of the Model Knitting Mills' sixth anniversary, which was held at the factory last Tuesday evening.

About sixty guests attended and John Irving congratulated Mr. Smith on his success since inception of the industry. Dr. C. A. Martin and Mayor Armstrong proposed a vote of thanks to the industrialist. Mr. Smith, in responding, thanked those present and advised at the time he purchased the property he was to employ at least 13 people. Since 1935 he has increased his staff to about 150. He then threw the mills open to the town of Milton and democracy and national independence have vanished.

This oft-repeated question was never more pertinent than at the present time. The hard-won franchise, which legally bestowed upon her the distinction of a "person" and permits her the privilege of self-expression, is too often regarded with indifference, and women complain bitterly of those elected to administer the affairs of the community who do not care for the woman who is so vital importance that every woman should take a keen interest in electing to office a man or woman who best measures up to her standards.

It is a strange contradiction that many women are thoughtful in other matters, but regard with indifference the election of those who administer the affairs of the community who do not care for the woman who is so vital importance that every woman should take a keen interest in electing to office a man or woman who best measures up to her standards.

It is not likely they have ever stopped to wonder what it would mean if they were suddenly deprived of the privilege of voting. It has been well said that with the "Bill of Responsibilities" responsibilities of every right-thinking woman should be well aware.

Every woman should realize that to be a good citizen, she must be an alert and thoughtful citizen. She must not close her eyes to the evils of administration in her own community—evils for which she is partially responsible if she does not vote.

Women, be it said with regret, are more prone to talk vaguely of democracy, than to assume the responsibility of its manifold privileges.

Canadian women, shake off your lethargy!

SAVE DISCARDED SILK STOCKINGS

Save discarded silk stockings to line the sleeves of minewepers' jackets.

An appeal from England has recently been made on behalf of these discarded stockings. The stockings are dipped in oil and worn on the arms to protect against the harshness of salt water and rough sleeves. A group of Milton women are interested in this project and are appealing to all women in the community to gather their clean but discarded silk stockings into bundles to send overseas. Receipts will be placed at convenient locations and shortly for collection. Runs in stockings do not matter but cleanliness is essential.

TOWN COUNCIL

Communications and passing of bills featured one of the shortest council meetings held Tuesday night.

A rebate of \$13.50 was made upon receipt of a letter from Mr. J. Dick with reference to the bus tax paid by K. Dick. He advised his son had terminated his law office on Main St. last May to enter the services.

Council granted a rebate of \$5 to the junior farmers from the rental of the hall for a recent social.

Reeve Heslop reported \$108.08 for relief. This bill was ordered to be paid.

Clerk J. W. Blain, on request of the Fire Brigade asked that 150 feet of chemical hose be purchased. Council agreed the fire truck should be maintained in good condition at all times. Purchase of the necessary hose was left to the Fire and Light Committee.

Mayor Armstrong read communications of opinion from George E. Elliott, town solicitor, and J. R. Cartwright, Toronto, with reference to the judgment handed down by Judge Justice in favor of Mr. Martin during a County Court Sitting in June, 1931.

At conclusion of the reading councillor Dawson suggested "we've gone so far in this matter this fall, that I don't think it should be shelved. I believe Mr. Martin is just as anxious as we are to have this thing clarified."

Mayor—I would suggest the committee on Fire and Light Committee, communication, delve into this and bring in a recommendation at the next council meeting." Council concurred.
