# MARSHAL'S ORDER Practice These

3 Simple Safety Measures:

Threshing fires will be practically eliminated if these three simple precautions are taken:

Use a water sprayer at the base of the blower—supplying 1. 20 to 40 gallons of water per hour according to the dryness of the straw. This will keep down dust which increases fire the moment it starts.

Prevent matches, either loose or in boxes, from passing 2. through the machine. Boxes of matches have proved more dangerous than loose matches. Insist that none be carried by anyone engaged. Obey the Fire Marshal's order posted

Set the engine or tractor well away from straw or any 3. other readily combustible material. \* Prevent loads of sheaves from standing or passing near to the engine's

Especially in wartime it is every farmer's duty to prevent threshing fires from starting. But if they do start, be ready for them. Keep a barrel of water near the blower-and another near the engine. A flame-proof blanket is an excellent thing to smother a fire the moment it begins: but a coat or a smock will do. Fight by preventing fires.

148 R.A.F. Sgdn.

Dear Friends :-July 15, 1942. About a month ago while up in the "blue" received a much battered, delapidated and travel worn parcel. Due to the slight emergency at that period we found spare time a brief respite in which you vainly tried to catch up on 7 p.m.-Evening prayer and Ser- lost sleep, the chief result being neglected correspondence. As clearly as I can figure the single parcel had originally left Canada as two, but as we all know "these are strange times and somewhere along the route the two amalgamated into one. The two pairs of woollen socks proved most

welcome for wearing on ops along with a pair of A. 1. F. boots one of the Australian chaps gave me. The sweater, mitts and skull cap I'm afraid will have to wait until I return to England use. The rise in temperature, common here apparently, is not very conducive to heavy clothing. That completed the parcel.

Since we still have our health I guess we shouldn't complain about the country, but this is the second time I've come to the Middle East-the first and last.

Many thanks for parcels sent and BRUCE MACNABB.

Please Do Your Travelling Between 9 a.m. and 4 p.m. MONDAYS and FRIDAYS

Increased travel and automobile restrictions have placed a terrific strain on bus operation. In addition to this we have had to set up special schedules for war plants. Every man and machine we have is working cently is now thought to be the work | to the limit.

You can help solve this transportation problem. Unless you positively have to travel, do not leave your home before 9 a.m. and be home by 4 p.m. Avoid the peak hours when essential workers have to be carried. Do not travel on Saturdays and Sundays. Leave children at home to save seats for people who have to travel. And please do not all wait for the last bus at night.

Your Co-Operation will be Deeply Appreciated.
