

War Loan Rally

On Sunday evening, Nov. 1, the Princess Theatre was filled to capacity, the occasion being the Third Victory Loan Rally. Judge Munro, who acted as chairman, in his opening remarks stated that the need for funds was greater than ever in our history to be met. He had every confidence that Milton and District would go well over their objective as they had done in former loans. Rev. Mr. Kirk offered a prayer for our armed forces. One of the features of the evening was the presentation of a Commando Dagger by Mayor Dawson to Captain McClure representing our local Battalion, the Lorne Scots. The Mayor, in presenting the dagger, said it was a replica of the dagger used by commando forces and was used by the commandos to raise the flag also that it was symbolic of the effort of the people of this district to assist in every way to provide the necessary fighting equipment for our troops who are fighting on our behalf for victory and peace. Captain McClure, assisted by a Guard of Honor, received the dagger and made a suitable reply on behalf of the armed forces.

Another feature of the evening was the presence of Professor Dr. Salmon, of McMaster University, who gave a very interesting address on the war as it affects the home front. He stressed the necessity of every Canadian doing his share in the Empire's fight for victory. His address was listened to with rapt interest, it being interesting and educational.

Miss Marjorie Dawson, in a very capable manner, accompanied on the piano in the singing of O Canada and The King.

Folks, we still have some distance to go before our objective is reached in this Third Victory Loan. Let us see to it that we do our bit by seeing that our quota is oversubscribed. Lend for Victory and Peace. It is cheap at any price.

GOD SAVE THE KING.

Citizens of Halton County

We have only a few days in which to meet our objective in this Third Victory Loan and I regret to say that at the moment we have only achieved 63 per cent. of our apportionment. It is, I am sure, needless to reiterate the gravity of the situation with which we are faced, and vital necessity that all of us do our utmost to assist. Money and material possessions are of no value without victory.

To those who have not made their application for this loan, may I urge them to do so without delay; and to the loyal citizens who have already subscribed may I ask them to use their utmost effort to increase their subscription in order that we may succeed. Halton County has never failed in any patriotic undertaking. We will not admit defeat. The utmost we can lend is the least we can do.

"Nothing matters now but Victory"
Yours sincerely,
FRANK PULLEN,
County of Halton,
National War Finance Committee.

LIVING OUR OWN LIVES

When parents offer their children advice after these young people feel they are old enough to make their own decisions, the young folks frequently say "I want to live my own life". It does not hurt anybody to listen to good advice.

Many boys and girls have gotten into serious trouble because they were so keen to live their own lives without interference from their families. If this meant breaking the laws, the public authorities would have something to say about that.

Married people sometimes say they want to live their own lives, and will not defer to their wedded mates. As a result many marriages have gone to smash. People who live independently just as they want to, are apt to run into a head-on collision with somebody who also is trying to live his own life.

Many overseas soldiers will be expecting their Christmas parcels as usual this year. To ensure that they reach the boys on time, these parcels should be mailed now. An appeal has gone forth from Hon. W. P. Mulock, Postmaster General of Canada, urging that delays be avoided if there is to be no disappointments in delivery. The P. M. states that in no case should parcels be mailed later than November 10th if prompt delivery is desired. Despite the increasing tempo of the war, the boys' "over there" will be looking for their Canadian parcels. It is well that this warning on early mailing should be heeded if disappointments are to be avoided.

Give Farmers Some Leeway

Interviewed by representatives of the Federation of Agriculture and the Farm Press, the Hon. Colin Gibson, Minister of National Revenue stated that while farm businesses, like all other businesses were required by law to make the first payment on their 1942 Income Tax on October 15, his department was fully aware of the special difficulties farmers would face, and had been instructed to give them some leeway and all possible assistance.

Mr. Gibson explained that the lowering of the Income Tax base to \$660 for single men and \$1200 for married men, combined with better prices and greater production, would bring a large number of farmers into the Income Tax paying group, who had not been taxable in past years. In view of this, said the minister, the commissioner of Income Tax was working with farmers' representatives to simplify farm Income Tax forms and procedure, to make recommendations which would assist the farmer in the meantime he urged every farm operator who had not kept some sort of regular accounts, to start now and jot down every 1942 farm receipt and expense they can remember and to keep a careful record of them from now on.

There has been no shortage of nature's beauties this fall, and the nicest part of it has been that those of this district have not had to travel to enjoy it.

First Motorist: "I love the beauties of the countryside."
Second Motorist: "So do I. Sometimes I give 'em a lift."

High Average at Fall Special Sale

With a large crowd of buyers present from all parts of Ontario, Quebec and the United States, the Fall Special Halton Sale held Thursday, Oct. 29, at Brampton, under the management of A. B. Brubacher, was an unqualified success. The 49 females offered, representing a cross-section of the best Ontario breeding, sold for an average of \$300, with 30 cows averaging \$309.88, and 10 bred heifers \$258.50. 24 bulls, mostly this year's calves, made the splendid average of \$221. The highest priced animal sold was Hyland Pontiac Expectation, consigned by John P. Slatery, Woodstock, she bringing, \$600.00.

Halton County breeders bought four head and sold four. The second highest price of the day was that of \$510 paid by Raymondale Farms, Vaudreuil, Quebec, for Glenvue Mollie Palmyra, consigned by Robinson Bros., Georgetown. She will be remembered as the second prize aged cow at the recent Regional Championship show held at Milton, G. Tasker, Milton, bought a three-year-old of Inka Palmyra and Ray Apple bloodlines from Wm. Young & Sons, Alberton, for \$355. Raymondale Farms took a four-year-old consigned by Norman W. F. Dickinson, Milton, paid \$265 for a four-year-old heifer from the herd of J. H. Bingham, Georgetown. A two-year-old offered by Benjamin Young, Bingham, was bought by F. H. Schelke, Gormley, while Melvin L. Cadmore, Milton, bought a grandson of the Century Sire, Hazelwood Hello Sir Besse.

RATION BOARDS FOR HALTON COUNTY

More than 98 per cent. of the municipal heads invited to be chairman of the 61 local ration boards in the Central Ontario Region of the Wartime Prices and Trade Board, have accepted the invitation.

Council chambers, welfare offices, town halls, magistrates' courtrooms, libraries and other types of municipal premises are being provided for the use of the local boards. In almost every case the office space and furniture are being provided free of charge, and the services of a municipal official to act as board secretary are also being given freely, the W.P.T.B. officials stated.

A short time ago mayors, Reeves and wardens of the various municipalities were asked by Donald Gordon, chairman of the Wartime Prices and Trade Board, to assume the chairmanship of their local boards. The response has been immediate, a survey shows.

Each municipal official who becomes chairman of a board was asked to appoint one of his municipal officials as secretary, which they have done without delay. Almost all have already selected the members of the board, and are in the final process of doing so. Announcement of the personnel of the local boards is to be made by Mr. Gordon.

Reports of liaison officers, who are working in the region, indicate that municipal officials are more than anxious to participate in the plan to deal with the rationing problems of their communities. Most gratifying, they find is the willingness of municipal officials to provide office premises, equipment and the services of a municipal officer without charge.

Listed below are the locations of each board, the head of the municipality who has been asked to accept the chairmanship, and the area served by the board in Halton County:

Burlington, Mayor J. Gordon Blair; Twp. Nelson, Oakville, Mayor Dr. F. M. Deans; Twp. Trafalgar, town of Milton, Georgetown, Mayor Jos. Gibbons; twps. Nassageweya, Esquesing, village of Acton.

More Coupons Valid Last Monday

Coupons 5 and 6 on the first two sheets in the permanent ration books issued early in September became valid last Monday for purchasers of sugar, tea and coffee. The tea and coffee coupons are on the "spare A" sheet, following the sugar coupons.

Each coupon is good for two weeks' supply—one pound of sugar on each coupon, and two ounces of tea or eight ounces of coffee, but not both, on each "spare A" coupon.

By using both coupons a consumer may purchase four weeks' supply at one time.

Unexpended coupons which became valid September 7 or October 5—coupons 1 to 4 inclusive—may still be used, but coupons from the temporary ration cards in use last summer became invalid November 1.

Liberal Caucus Date November 25th

Liberal members of the Legislature will hold their much-discussed caucus Wednesday, November 25 at Queen's Park, Premier Gordon Conant announced Tuesday.

The Premier discussed details of the caucus with Ian Strachan, Chief Liberal Whip, who will send out notices to all members. It is likely the caucus will precede a brief session of the Legislature.

All indications point to a lively session when the members meet in secret conclave. The leadership question is expected to be to the fore, with the Premier asking for a vote of confidence from the rank and file.

CHILDREN NEED PROTECTION

Juvenile delinquency is shown to be on the increase in Canada. Every town and city is faced with the problem. Young boys and girls are found committing acts of theft, sometimes with a boldness that would surprise men old in crime. The church and the school as well as other reform agencies seem to be at their wits' end to lessen if not remove the growing evil. Father is in the war, mother is working in the factory, the children spend much time on the streets and in company ensue their downfall. Conditions are likely to grow worse as long as the war continues unless more vigorous action is taken. This at once raises the question, where are the persons equal to such work? Efforts to improve health conditions among children are made by some of the service clubs with considerable success. Maybe some other organizations will be moved to give a helping hand to hard pressed parents in the proper care of children now in so many places sadly neglected. Milton like other growing centres, furnishes opportunity for such service.

Halton Holstein Breeders' Among Purchasers

Halton County Holstein Breeders bought four head and sold four head at the Holstein cattle sale held at Brampton last Thursday. The second highest price of the day was that of \$510 paid by Raymondale Farms, Vaudreuil, Quebec, for Glenvue Mollie Palmyra, consigned by Robinson Bros., Georgetown. She will be remembered as the second prize aged cow at the recent Regional Championship show held at Milton, G. Tasker, Milton, bought a three-year-old of Inka Palmyra and Ray Apple bloodlines from Wm. Young & Sons, Alberton, for \$355. Raymondale Farms took a four-year-old consigned by Norman W. F. Dickinson, Milton, paid \$265 for a four-year-old heifer from the herd of J. H. Bingham, Georgetown. A two-year-old offered by Benjamin Young, Bingham, was bought by F. H. Schelke, Gormley, while Melvin L. Cadmore, Milton, bought a grandson of the Century Sire, Hazelwood Hello Sir Besse.

ELECTORS' RESPONSIBILITY

A cartoon in a current issue of the Christian Science Monitor caught our eye, it being the 'ballo' speaking to Mr. average citizen saying "The trouble we're expected to do every-thing on election day. How about you doing something during the campaign?" This brings out a real truth and has a message for the people of this district. There will be municipal elections shortly and it is reasonable to suppose a provincial contest will come within the next few months.

People get excited about the faults of the governing power, but do absolutely nothing to better conditions. Often a suggestion made in the proper matter will bring action from your council or proper representation will bring even Queen's Park to action.

As we approach the time for Municipal Elections let everyone ask himself and herself how can I make this town better.

WAS WORRIED

Rationing officials paused for a moment for a smile at the story from a local office of a sorely-tried father who said there had been a mistake about the number of ration books made available for his family.

"How many are in the family?" asked the rationing officer.

The father: "Well, we should be able to put things right. Just give me the names of everyone in the family."

"The father made a valiant effort, then drew a weary hand over his brow.

"I'm licked," he said. "Can you wait till I go home and get all the names from my wife?"

Kill Hogs For Own Use

An Orillia despatch says: Denying the rumor that farmers are not allowed to kill hogs for their personal use, Weldon W. Fowler, local officer of the Wartime Prices and Trade Board, suggested that the rumor was put into circulation by "fifth columnists."

"There is absolutely no foundation for such a rumor," he said. "This office has been deluged with inquiries on this matter as it appears to me to have been started by a fifth columnist to create discontent among the farmers and hinder the war effort. Farmers may continue to kill hogs for their own pork, as in the past."

Registration for Home Defence

Residents of the County of Halton have for many years been justly proud of their military organization, The Lorne Scots Regiment, and many of Milton's young men are now serving with the regiment which, with a membership of three thousand in the first battalion, is said to be the largest military unit now serving overseas.

A second battalion is now in process of organization and has a membership of five hundred, of which number "C" Company, comprising the towns of Acton, Georgetown and Milton, has a membership of one hundred and twenty.

In order to stimulate interest in the Regiment, and to assist in obtaining additions to the ranks and recruits for the Reserve Army for home defence, Lieutenants H. C. McClure and H. C. Wrigglesworth, of Georgetown, and H. C. Armstrong, of Milton, with the assistance of a local committee have been formed under the chairmanship of Mayor J. H. Dawson, the other officers being as follows: Vice-chairman and organizer, A. E. Armstrong; secretary, T. A. Hutchinson; supply and distribution, R. H. Ptolemy; and the committee members, Messrs. W. I. Dieke, R. M. Clements, A. D. Sprout, G. F. Thompson, Wm. Anderson, R. B. Galbraith, and J. W. Reavley.

Recruiting booths have been arranged for and will be open at the local post office during regular hours, and from 7.30 to 9.30, with an additional hour on Saturday evenings, at Metcalfe's garage.

Men between the ages of seventeen and fifty are eligible, and there is an urgent necessity in Canada for the building up of a strong reserve army for duty on the home front. Surely what has happened in Europe should teach us that there is no reason why particular men will be available at the recruiting booths.

HORSE FLESH GOOD FOR HUMAN FOOD

Prof. J. W. G. MacEwen of the University of Saskatchewan said recently that, apart from "some unjustifiable whiff," there is no reason why horse meat should not be eaten when a meat shortage threatens to interfere with industrial efficiency.

Mr. MacEwen, professor of the animal husbandry department, stated that horses are strictly vegetarian in diet and that they had constituted an important part of diet in other parts of the world.

He said that recently in Moose Jaw, Sask., 297 horses, including 84 foals, sold at an average price of \$22.70, about 2 cents a pound on the hoof and about 4 cents a pound carcass weight.

At the same time, he added, good cattle were selling on the market at up to 9 cents a pound on foot or up to 15 cents by the carcass.

"There won't be much need for colleges if we don't win the war"—U. S. Secretary of War Henry Stimson.

This little verse could easily come under the heading: "Isn't it the Truth?"

"The constant drop of water Wears away the roughest stone; The constant gnawing puper Masticates the toughest bone; The constant wooing lover Carries off the blushing maid; And the constant ad of the advertiser Is the one who gets the trade."

CITIZENS OF HALTON COUNTY! YOUR GOVERNMENT NEEDS YOUR SCRAP IRON AND STEEL NOW

More scrap steel and iron is urgently needed if we are to produce the ships, tanks, planes, guns and munitions necessary to win this war. You are asked to do your part by turning in every available ounce of scrap metal you can find in your home or on your farm.

This campaign is from November 1st to December 15th, 1942.

In order to facilitate the systematic collection of scrap iron and steel in your County, Wartime Salvage Limited, a Government Company, and the Steel Controller, have completed arrangements with your County Warden and Township Reeve to supervise the collection and sale of the scrap iron and steel you deliver.

HERE IS WHAT YOU DO

Dig out every ounce of scrap iron and steel you can put your hands on.

Township Groups have been formed. Find out from your Township Reeve how and where he wishes you to take your scrap.

The price to be paid by Wartime Salvage Limited, a Government Company, has been fixed by the Department of Munitions and Supply as follows:

1. Price at Collection point will be \$7.00 per net ton on ground.
2. For scrap loaded on cars containing less than 25 tons, price will be \$8.50 per net ton.
3. For scrap loaded on cars containing 25 tons or more price will be \$10.00 per net ton F.O.B. cars.

The above prices will be paid for all forms of scrap iron and steel excluding (a) Sheet Tin of any kind, (b) Automobile Bodies and Fenders, (c) Stovepipe, and (d) Wooden Attachments.

HOW TO DISPOSE OF YOUR SCRAP WHEN COLLECTED!

When you have delivered your scrap to the place designated for your Group in accordance with the instructions of your Township Reeve, you can then—

- ★ 1. Sell your scrap metal to the Government Agency and divide the proceeds of such sale among the various members of your Group to which you will be appointed by your Township Reeve, or—
- ★ 2. You may donate your scrap metal to the Voluntary Salvage Corps or Committees functioning in your Community, or—
- ★ 3. You may sell your scrap metal to the Government Agency and then turn over part or all of the proceeds of this sale to the Local Salvage Corps or Local War Charities.

Your contribution to the war effort is simplified by this arrangement. Don't wait until you are urged by your Township officials to do this all-important work. Get busy right away. Canada needs, and must have, tons of scrap iron and steel now if we are to keep our fighting forces armed and ready to win through to victory.

TURN YOUR SCRAP STEEL INTO FIGHTING STEEL

Keep the Wheels Turning - BUY VICTORY BONDS - SAVE ELECTRICITY

Machines such as these, powered by electricity, produce .303 cartridges.

● We have the men, and they have the courage and the will to win. What is needed now is a steady increase in production of the weapons of war that will make our forces invincible.

Hydro powered machines in hundreds of Ontario's war plants produce weapons to provide greater fighting power for our men at sea, in the air, on the battle fields.

To train, equip, transport and maintain our armed forces, each of us must work harder, save a little more and lend all we can to Canada. The more Bonds we buy, the greater is our investment in Victory.

To safeguard and conserve our vital supply of electricity—is our homes, offices and shops—is a paramount duty. There are opportunities every day, every night, for each of us to save Hydro for our war industries. These plants need all the power they can get. Every Victory Bond you buy and every "bit" of electricity you save are contributions you can make to Victory!
