

### Fourth Victory Loan

Mighty important to Canada is the success of the Fourth Victory Loan. To-day not only our homes, but our country, everything we value is threatened with the greatest emergency of all times, the clutching, murderous grip of a blood-crazed war-maniac, and all the armies in the world will not keep him away if money is lacking to support and maintain our brave forces. Remember wars are not won by fighting forces alone, no matter how brave, we, on the home front, everyone of us, must do our share. The share we are asked to do is small compared with the sacrifices made by peoples in the old land. We are asked to lend our money at a good rate of interest. That's the least we can do.

There are some who will say how is Canada ever going to be able to pay those bonds? We say to them that there is no safer investment to-day than the Dominion of Canada Victory Bonds, so long as we, the people of Canada, back our fighting forces to the limit and eventually to victory, Canada in turn will meet all her obligations.

Folks of Milton and District, during the next three weeks canvassers will call on you. They are at your service, they are ready to give you any information necessary in connection with the loan. Be as generous as you can, let us see to it that we, in this district, are going to pull our part of the load. Let us show our brave boys what we are going to do for us, for our homes and our country that we are with them until victory is assured.

Should anyone be inadvertently let that deter you from doing your bit. Call up the Mayor or Dr. O. Martin or Mr. McNicol. They are ever ready to advise and assist you. So folks let's go, let's go over the top.

### THE MONEY SENSE

The human race depends on five senses, sight, hearing, smelling, tasting, and feeling. It also needs a sixth sense, the money sense. That is, some judgment about the use of money, of how hard it is to get money, how easily it goes, and what should be done when one has it.

Many persons have recently been earning far more than they ever did before. They have been told that these conditions cannot possibly last, hence they should save a good part of their money, and particularly, they should buy all the Victory bonds they can.

Perhaps the majority of people have done so. But apparently a good many have failed to do that. Very likely a large number will have to cash in their bonds to pay their taxes. Many have spent most of their money very freely, seeming to feel that it would keep coming in at about the same rate. The chances that it will do so are very slight.

Eden ranks high as one to take Churchill's place. The foreign Secretary seems the logical choice should it ever be necessary.

This general freezing order has been carried a bit too far when it death-generates the weather to thaw out until nearly May.

We wish our neighbors in the west of Halton county well in their hope of obtaining magnetite. One of the times we may be boasting of the fact that we are neighbors.—Peel Gazette.

### Farmer, Editor To Be O.E.A. Head

A "dirt farmer" is to be president of the Ontario Educational Association for the coming year. He is M. A. Campbell, of Milton, who lives on a farm which was settled in 1800 by his great grandfather. Four grandchildren now living on the farm, are the trustees of the association. It is the custom in O.E.A. to pass the presidential honor around in turn to the four sections of the organization. Next year is the trustees' turn. For years Mr. Campbell has been secretary of the trustees and ratepayers' section and editor of the Educational Journal, official O. E. A. organ. He was active some years ago in the U.F.O. and is a past president of the Halton Liberal Association. He is an elder of the United Church and a Masonic past master. "I believe that the first duty of citizenship is the home community and development of youth," says Mr. Campbell.

Eden ranks high as one to take Churchill's place. The foreign Secretary seems the logical choice should it ever be necessary.

This general freezing order has been carried a bit too far when it death-generates the weather to thaw out until nearly May.

# To Help Him NOW . . . and When He Comes Home

YOUR SON (or your neighbor's son) is in battle dress perhaps . . . on a ship at sea, or flying a bomber. You are proud of him, but you pray for the time when he will be back home. You will do anything you can, you say, . . . everything you can . . . to bring him home safe, and bring him home soon.

Well, here is one thing you can do, You can buy Victory Bonds.

When you buy Victory Bonds you help your boy to do the big job he is doing now. You help to make sure that he has everything he needs; better equipment than the enemy has. And you are saving money to have a better home for your boy to return to.

### HAVE MONEY FOR HIM WHEN HE COMES HOME

He will want to work with new farm implements . . . new equipment . . . to replace things that may be worn out. He will have new ideas to improve the farm. He may want to experiment with new crops, new stock, new farming methods. He's young and ambitious as you want him to be. He will need money to do things he plans to do. Victory Bonds . . . money saved now and loaned to Canada to help win the war . . . will be yours and his to use when the war is over.

### BACK THE ATTACK
