> Three Ten-Thousandths of an Inch Axis sub commanders know that

a Liberty ship can turn on a dimemaybe it's because the final machining of the steel pinions which help drive these great merchant ships through the seas must be accurate to three ten-thousandths of an inch-work which is often done in air conditioned rooms where the temperature cannot vary more than four degrees. This prevents expansion or contraction due to variations in temperature. Just another rea-

A Tribute From Secretary Knox

son these ships are good!

"The importance of ships in winning our ultimate victory and in maintaining the peace and prosperity of the post-war era cannot be underestimated . . . The performance of American-built navy and merchant marine vessels, operating under most difficult conditions, is a proud chapter in our history of this global conflict. These ships have character; they have been soundly constructed."-Secretary of the Navy Knox.

May hasn't the 24th to look forward to this year and it comes on Monday.

ATTENTION .- Ladies' and gentlemen's clothing alterations, repairs etc., by E. WILKINSON, Practical Tailor, Court (C.P.R.) Street, South.

DDFD home security has always been one of the foremost objectives of Brantford Roofing's production . . . extra protection against the ravages of fire, time and weather. But, as this soldier typifies, men who used to help Brantford Roofing build for security are out battling for it now.

Because Brantford Roofing products have a petroleum base—and oil is strategic material nowadays-the supply of Brantford Roofing for houses is limited. Any quantities available for civilian use are rationed to dealers, to ensure an equitable share in each community. To stretch raw materials as far as possible, all Brantford Roofing lines have been standardized on a minimum range of styles and colours.

If you are faced with roofing problems, ask your Brantford Roofing dealer to assist you. He will help you make your present roof last longer and effect urgent repairs with a minimum of new material. He will also help you plan now for a completely renovated roof after victory.
