D.) of Montreal is spending some time with her parents, Mr. and Mrs. C. Bowring. Mr. Walter Agnew and Mrs. McKenzie of Toronto visited last week-end with their sister, Mrs. Lamb, Martin Street. The many friends of Mrs. S. Buck will be pleased to learn that she is progressing favorably in a Hamilton Hospital and expects to be home shortly.

First Prize Letter In County Council Contest for Halton

We present this week the letter written by Marjorie Service, Kelso, on "My Visit to Halton County Council." There were ten prizes awarded by County Council in this contest and we will publish the first five of these letters. One letter will appear each week.

FIRST PRIZE LETTER By Marjorie Service, Kelso

On the invitation of the Halton County Council, I was elected to represent our school at one of their regular meetings, as an educational project. Along with fifty other pupils from various schools, we assembled at the Court House Tuesday morning, April 18th, where Miss Maxted took charge of the girls and Mr. Smith of the boys.

We proceeded to the second floor of the building where we were shown the judge's chamber and other places of interest, after which we gathered in the Court Room where the council holds its meetings. It was very interesting and amusing to hear the men vote for and against certain motions. A delegation of ratepayers from the base line in Nelson wished to have their road taken over by the county rather than the township. This matter was not settled.

At lunch we were the guests of the Council at Knox Church Sunday School room, where we enjoyed a hearty meal, followed by a sing-song. During this period Mr. Skuce addressed us. His subject was "Our Patriotic Duty" reminding us that we had an obligation to our fellow students by taking back a report. He also complimented us on our behaviour, which he assured us, was a credit to our teachers.

Mr. W. I. Dick, the Crown Attorney outlined the start of crime and where it leads. He pointed out that petty thieving leads to greater crimes, and I trust that none of we children present that day will ever be in a court room except as interested spectators. Judge Munro told us about different types of court hearings. We were delighted to have in our midst a British evacuee who told a little about his life in England.

Before assembling for the afternoon session we inspected the different offices of the court officials, and visited the Registry Office, where all legal documents are kept. There we met Miss Field, the registrar. The Goaler and Turnkey took our finger prints. We were shown inside the goal where three prisoners were waiting for trial.

During the rest of the afternoon we again listened attentively to the business of the council.

Before we were dismissed, a vote of thanks was given by Marjorie Service, seconded by John B. Readhead, after which we left for home filled with new resolutions to do better school work that some day we might be capable of filling those chairs to make our community a better place in which to live.

A BIT RUM, EH WHAT?

LONDON (CP)—A bottle of Jamaican rum of 1745 brought \$567 at a Red Cross auction here.

NEW ZEALANDERS TOILED ON

"Taranaki boys will be interested in this little story of Midhurst. Word came through one day that a Home-loading steamer could take up to 100 tons of casein—provided it was at the port within a few hours. The boys in the factory were just going off shift, when the Manager called them together, put the case to them, told them the railways were shooting the trucks along. 'Righto' they said, and turned to it with a will. Now casein is solid, weighty stuff and each sack weighs over 170 lbs. But those boys bundled 1,300 sacks into those trucks in three hours, and if you work that out, you'll find it 90 tons, or one ton loaded every two minutes."

Halton Farmers In Urgent Need Of Harvest Help

The bottom of the feed barrel for Canada's livestock is in sight, states Agric. Representative J. E. Whitelock. During the past twelve months Canada and parts of the United States have made tremendous demands on the granary of western Canada. This situation is the result, not only of poor crops in eastern Canada and the U. S. in 1943 but is also definitely correlated with the increased livestock production and holdings over the entire North American continent. In view of the dwindling grain supplies in the west, it is most essential that Ontario crops be saved this year. Prospects, in general, are excellent in Halton for hay, fall wheat, and spring grain, stated Mr. Whitelock. He pointed out, however, that a working man alone on 100 acres to 200 acre farm cannot take off his hay crop and harvest without help. Few farmers in Halton have been able to get any help this year from Selective Service Offices, irrespective of wages offered. Industry, too, is reported to be short handed. While Mr. Whitelock hopes to get approximately 40 western farm hands shortly, this number will by no means fill the need. Emergency or Commando farm labor would appear to be the only solution for many farms in this County. With this in mind, a local committee has been set up in each of the five urban centres of the County. The headquarters for Milton is the Agricultural Office and the telephone number is 280.

We join with the local committee in urging everyone who can possibly spare the odd day, half day or a few hours after supper to phone Milton 230 and register with the Commando Brigade, stating when he will be available. We realize that most local residents are already carrying a much heavier load than normal, but nevertheless the most of the men folk can give a few hours occasionally to help out in a critical situation, which is so closely allied with our war effort.

An eminent German authority stated, following the war of 1914-18 that they lost that conflict because they were unable to feed their mounting livestock population and at the same time maintain their people. Let us make sure we do not find ourselves in a similar position this time. We have every prospect for excellent crops this year—they must be saved—and in this, our urban and rural people have an equal responsibility. Every urban dweller can play some part in the task at hand—and if you are not physically able to pitch hay, you can perhaps drive the horses for the hay loader, the hay fork, the hay rake, handle a hoe, or stook grain, for a few hours and thus relieve the farm operator for heavier jobs. Last year, we understand from Mr. Whitelock, he secured the equivalent of 518 days work from the Toronto Commandos. These men came from offices, factories, stores, etc., and for the most part helped in haying. With few exceptions they did an excellent job, and the 56 farmers who received this help were loud in their praise of the service rendered. Surely we in Milton are not going to leave it all to Toronto Commandos. The painting job on the house, the cutting of the lawn, the hoeing of our Victory garden, can be left for a more opportune time. So let's go local Commandos, back up the boys on the beaches of France by phoning now to Milton 230 and volunteering our services for Farm Commando work in the district. The bowling green and the golf course can, no doubt, get along without our efforts for the time being.

BURLINGTON

Local strawberries made their appearance in Taylor Bros. store last Friday morning. They were grown by John F. Stephenson, Brant Street and were picked up by ready buyers at 24 cents per pint.

When the Public School Board met in regular session on Monday evening they received a letter from the Brennan Contracting Co., threatening court action if their deposit cheque for \$1,800 submitted with their tender for the four-roomed addition to the East End school was not returned at once.

At the regular luncheon of the Lions Club held at Brant Inn on Tuesday evening, elections for the year were completed for the offices where acclamations had not been accorded. In view of the withdrawal of Dr. W. A. Weaver as a candidate for their third vice-president, Stanley Craze was elected to that office by acclamation.

Members of the Water Commission in session on Friday evening last discussed the question of securing more water for the use of its customers. Pumpage for the month of May had been 17,095,600 gallons, an increase of almost 5,000,000 gallons for the same month a year ago, the figures in May, 1943 being 12,844,300 gallons.

According to reports fruit and vegetable crops from present indications will be the largest in years. It is said the outlook was never better, and it is feared the markets will be glutted at the height of the various seasons. The weather has been exceptionally fine for growth and production.—Gazette.

NASSAGAWEYA S. S. No. 7

This community was shocked to hear of the death of eleven-year-old Bernice, second youngest daughter of Mr. and Mrs. Kenneth Cox, Haltonville. Many attended the funeral service held at Nassagaweya Presbyterian Church, Tuesday afternoon. Death resulted from an accident while at school. Sympathy is extended to the parents, sisters Marion, Verna and Lois, and grandparents, who are so sadly bereaved.

Mr. and Mrs. W. W. Dredge celebrated their fiftieth wedding anniversary on June 6th at their farm home here. Seventy-five signed the guest book during the afternoon and evening and they received many lovely and useful gifts that showed the love and esteem in which they are held. A cup of tea and dainty lunch was served each guest by the daughters and daughter-in-law of the happy couple. Mr. and Mrs. Dredge were married at the home of Mr. and Mrs. Robert Anderson, Milton, June 6th, 1894. Four who attended the wedding were present at the Golden Wedding, Miss Eliza Foster, Toronto; Mrs. Robert Laing, Acton; Mrs. Margaret Dredge, and Mrs. Ruth Campbell, of Moffat. They are the third generation to live on this farm and have lived there since their marriage. Their family were all able to attend except Mr. and Mrs. Ray Dredge, New York, who telephoned congratulations in the evening. Little Barbara McConnell their granddaughter tap-danced for the guests several times, which they enjoyed very much. Mr. and Mrs. Dredge are in fairly good health and take an active interest in home, church and community. Guests were present from Milton, Acton, Georgetown, Moffat, Toronto, Atwood, Campbellville, St. Helena, Cooksville and Port Nelson. Congratulations to Mr. and Mrs. Elmer Cox on the arrival of a daughter.

Mrs. Wilfred Kennedy gave her home for a Busy Bee quilting last Wednesday.

Mrs. Margaret Robinson, Ancaster is enjoying a few holidays at the home of her son, Mr. and Mrs. Stan Robinson.

Mrs. J. Evans is filling a vacancy on the teaching staff at Brampton Public School, caused by the illness of one of the regular teachers.

LAC. Alex. Job, St. Catharines, was home Friday.

Mrs. Joseph Frank spent the week-end at the home of her daughter, Mr. and Mrs. Gordon Wilcox, Guelph.

Parents attended the Nassagaweya Musical Festival held at Brookville

TERMS CASH ON DAY OF SALE B. ROY HINDLEY, Auctioneer

Phone 15r6, Erin, R. R. 3, Acton.

Hall on Friday afternoon and it was a most enjoyable one. Every pupil or group of pupils gave an interesting number and the little ones were especially so. The platform was beautifully decorated to represent a garden and received much praise. No. 7 were the winners of two numbers. Martin Davenport in Class 7, The Four Winds, boys solo, 10 and under, came first with 85 points. Ronald King class 5, Strawberry Fair, boys' solo over 10, came 2nd with 84 points. Congratulations to both. Mr. and Mrs. Joseph Frank attended the social hour and tea given by the teachers for those in charge of the Festival and trustees on Dr. and Mrs. B. D. Young's lawn afterwards.

Mr. and Mrs. Robt. Crozier, Milton and Mr. and Mrs. Robert Scott, Toronto, were the guests of Mr. and Mrs. Neil Martin Sunday.

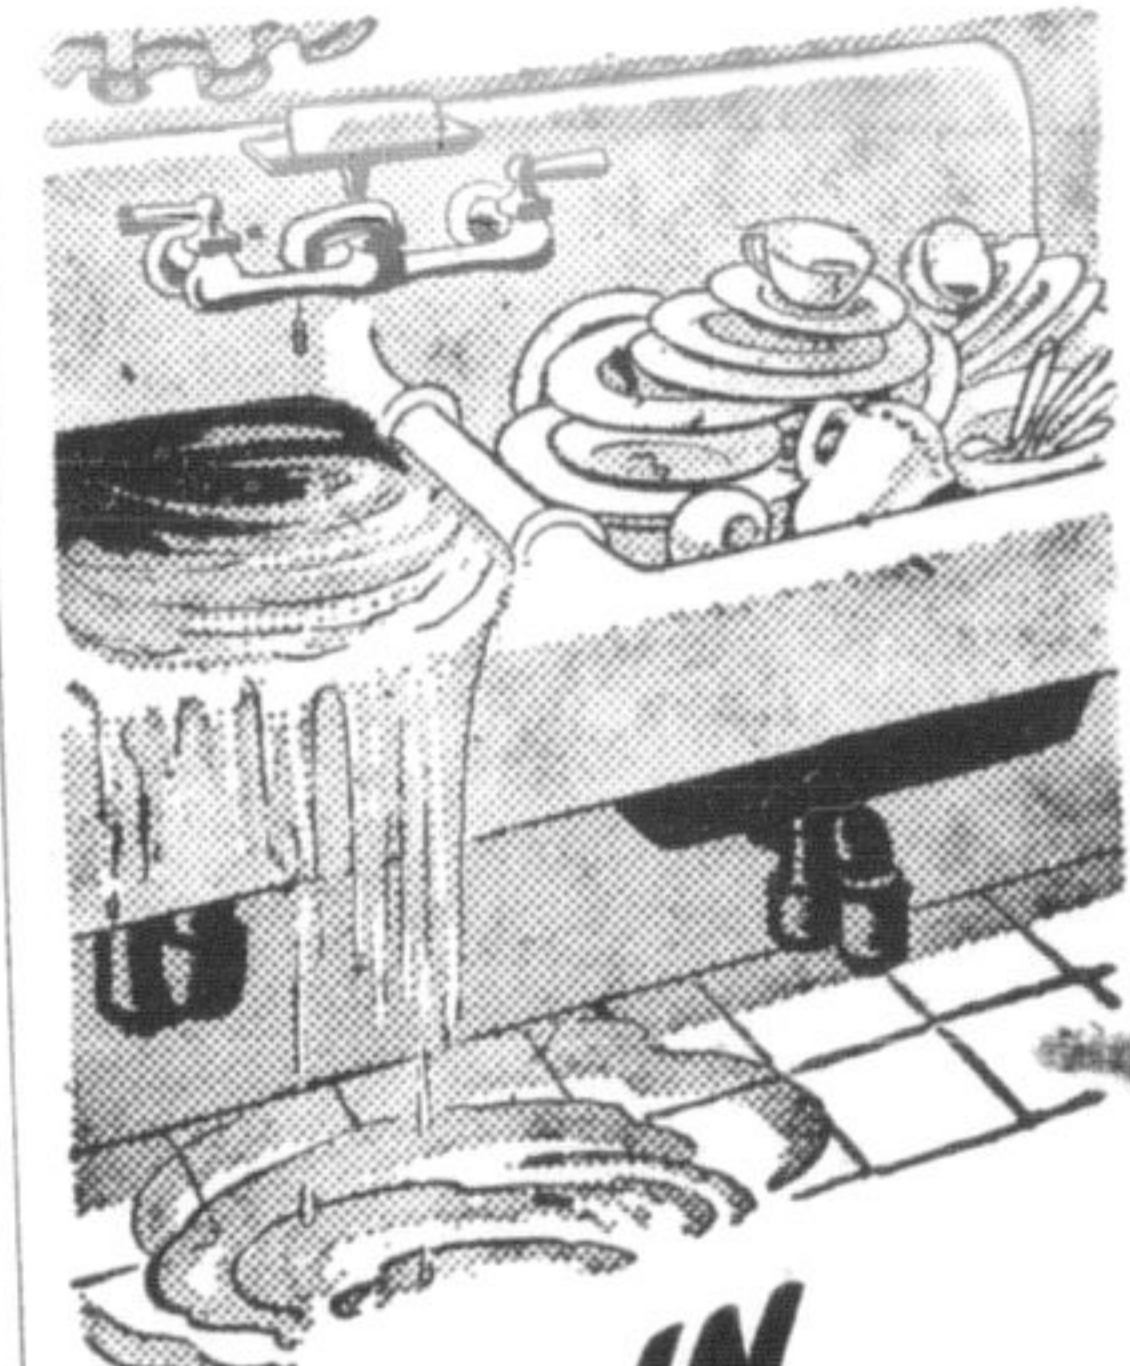

Mr. and Mrs. C. E. Davenport attended the silver wedding anniversary celebration of Mr. and Mrs. George Gill, Burmahthorpe, Friday evening.

Mr. W. W. Dredge and George have just completed a milk house out of lumber cut from two willow trees that stood at the road on each side of the lane, since they were planted over 70 years ago. Mr. Dredge helped to plant them when he was five years old and was able to help cut them down this past winter. One measured 2 feet 2 inches through on the large cut. Willows of course, grow faster than some trees, but one can see the advantage of planting even two trees and in this case, it wasn't one of planting them for someone else as is so often heard—when planting is mentioned.

CARELESS TALK PENALTY

LONDON (CP)—Kitty Harriet Parker, 51, a temporary civil servant who pleaded guilty to two charges of careless talk, was sentenced to 3 months and one month hard labor. The terms will run concurrently.
