A PROGRESSIVE CONSERVATIVE LETTER (Continued) TO THE CITIZENS OF HALTON: Our men have fought for freedom and the right of a busy, useful life. Those who live will ask for nothing more because they have, in service learned "he profits most who serves best." Many who remained at home have not had the privilege of learning that lesson—and these will die. Then years hence our Leaders will be men who have "served best." We who remained at home can at our best, only prepare the way for them, and that way must be built on the good we have had in the past, developing into the better we demand for the future. Harder problems lie before us and greater leadership will be needed. —Issued By— The Progressive Conservative Association, Halton County CONTINUED NEXT WEEK

WORTH WHILE Wasn't it? Citizens of Ontario have responded splendidly in support of necessary restrictions in the use of electricity. Convenience from "dim out" conditions, darkened store windows and partly lighted streets have been patriotically accepted in order to save power for the tools of victory. The additional voluntary savings of power by Ontario people also contributed substantially to the victories in Europe. Your Hydro, which had the responsibility of carrying out the orders of the Dominion Power Controller in Ontario, is grateful for the co-operation of Hydro users. One trying phase of the war is passing. Now, by conserving and concentrating our efforts for final victory, we may look forward with confidence to an early day when abundant power will be available for peacetime use. The added strength that we have built for war can then be used to bring greater light and safety to more Ontario streets and homes, and take over innumerable tasks on farms, in our homes, and industries. Plan now to take full advantage, after victory, of the added leisure, convenience and safety that abundant electricity can bring to you. THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO
