White-Tail Deer Back in Virginia

RICHMOND, Va. (CP)—Sportsmen can be thanked for the restoration of Virginia white-tailed deer to their native mountains.

Virtually exterminated about 1900, the herds came back when hunters contributed money and won state and popular support for the program. There was an open season for the first time in many years in Augusta county in 1944 and the advisability of allowing shooting in nine other mountain counties in the near future is being considered.

The restocking program, begun in 1928, was greatly accelerated in 1936 continuing until 1943 with the aid of the U.S. Fish and Wildlife Service and National Forest Service. During the period, 1783 deer were liberated on ranges carefully surveyed for food, cover and character of farm problems. The deer were liberated at 66 points in 23 counties and have been allowed to increase naturally.

The potential increase from a pair of deer is 35 fawns in 10 years. The sportsmen believe the state is well on its way to becoming one of the leading deer-hunting states of the union.

Want Press Freedom Written Into Pacts

C.W.N.A. Directors Urge Government to Support Free Interchange of News

OTTAWA (CP)—A resolution calling on parliament to favor the incorporation of the principles of freedom of the press in post-war international treaties was passed unanimously at the semi-annual conference of the Board of Directors of the Canadian Weekly Newspapers Association held here last week.

The directors entertained Prime Minister King who delivered a brief "off the record" address and other addresses were made by Graham Towers governor of the Bank of Canada, and A. D. Dunton, general manager of the Wartime Information Board.

Sessions were presided over by F. P. Galbraith, Red Deer, Alta., and the directors decided to hold the association's annual "war conference" in Quebec next September 13, 14 and 15.

The preamble to the resolution dealing with freedom of the press expressed the hope that there would be a "sustained effort" to keep the public aware of the importance to them of having the peace conference adopt a policy which would assure the worldwide right of interchange of news by news-gathering and distributing agencies, whether individual or associated, by any means, without discrimination as to sources, distribution, rates or charges, and that this right be protected by international agreement.

The Canadian government, in the resolution itself, was called upon to see that these provisions were written into the treaties "in unmistakable terms."

encircled Poznan and Arnswalde. Simultaneously, Soviet forces had stepped up pressure on besieged Breslau in an effort to reduce that German Silesian stronghold and free additional units for the drive on the Reich capital.

In the Pacific

Across the world, American marines appeared to have the worst of the costly invasion of Iwo Island behind them. The southern end of the island's central airfield had been seized after the Americans had broken a three-day stalemate against tenacious Japanese resistance.

In the Philippines American paratroopers working in co-ordination with Filipino guerrillas, annihilated a Japanese garrison of 243 men at Los Banos internment camp and liberated 2,146 internees.

By Tuesday almost half of Iwo Jima island was in American hands and the second week of the bitter battle of the Pacific war had started. U. S. planes were operating from a captured airfield on Iwo and imminent capture of the island was forecast by an American spokesman.

The score of a devastating Superfortress raid on Tokyo Sunday was announced as 223 Japanese planes destroyed or damaged and 17 enemy vessels probably sunk in addition to the tons of explosives rained on industrial targets in the capital. The Sunday raid was followed by an aerial attack on Monday on Hachijo Island, about 175 miles south of Tokyo.

See Cologne's Spires

Back on the Western Front American 1st Army spearheads had reached the outer defences of Cologne with the great city's spires and chimneys visible about 10 1/2 miles away.

To the north Canadians had mauled the 6th German paratroop division taking 2,000 prisoners in their fight into the Hochwald forest.

In the air, fleets of Allied bombers continued their support of ground forces and hammered the Reich's principle cities with special attention to tottering Berlin.

Only late reports from the Russian front came from the Germans who announced the Soviet armies had scored a breakthrough into Pomerania.

In the British House of Commons, Prime Minister Churchill in a full-dress debate with critics of the Big Three's plans for Poland, demanded a vote of confidence on the Yalta conference. The new boundaries planned for Poland would not sow the seeds of future wars, the prime minister said.

Marshal Stalin had assured him that Poland's sovereignty and independence would be maintained.

Annual Report of Earl of Glamis Chapter of I. O. D. E.

Officers elected by the Earl of Glamis Chapter of the I. O. D. E. are as follows:

Honorary Regent—Mrs. McClellan.
Regent—Miss Doreen Walton.

1st Vice-Regent—Mrs. Bruce McKerr.
2nd Vice-Regent—Miss Eillene Grenke.

Secretary—Mrs. Chas. Anderson.
Press Secretary—Mrs. John Cannon.
Treasurer—Miss Marion Urell.
Standard Bearer—Mrs. Dick Clements.

The following is the annual report as presented at the meeting:

It is with a great pleasure that I present the fifth annual report of the Earl of Glamis Chapter I.O.D.E. for 1944-45:

Although we are still a young chapter our accomplishments have been very gratifying and a vote of appreciation is extended to our executive and committees who have carried out their tasks so faithfully and so unflinchingly.

Since our organization, we have outfitted with knitted clothes every local boy joining the R. C. A. F. and we continued this work this year up to the time the air force discontinued recruiting. We have kept up our contacts with these boys who are serving overseas, by sending each at Christmas a carton of gum, which, judging from the letters we have received, was very much appreciated.

During the year we have packed many cartons of new and used clothing for the British, the Russians and the Poles. Included in the boxes were quilts and children's knitted garments which we made ourselves.

Monetary donations have been made as follows: Canadian Red Cross \$10; Milton Playground \$15; I. O. D. E. Headquarters for cigarettes for Prisoners of War \$5; W. Gordon Scholarship Fund \$5; Canadian National Institute for the Blind \$5; Sailors' and Minesweepers' Relief \$5; British Children and Clothing Relief \$5; Prisoners of War Relief \$5; Polish Relief \$5; Camp Libraries \$5; Blanket Fund \$5; Service Libraries Campaign \$25; Coronation Bursary \$5; Lucy Morrison Memorial Fund \$5.

We have an enrollment of 25 and during the year our membership has been increased by six. We have had ten regular meetings and ten special work meetings. In May we had as our guests the John Milton Chapter and in December had the pleasure of joining with them in the special Christmas meeting.

During the summer months when our meetings were discontinued each member raised \$1.00 for the war fund and as is our usual practice each member donated her talent money to the Educational Fund to be used to purchase books for the Milton Public School library.

In May we helped tag for the Milk for Britain Fund. In July, we assisted at the Canadian Club garden party and in September we sponsored a tag day for the Navy League.

To boost our war fund in May we held a hand concert in the theatre and in December the 4teen Club sponsored a dance for us.

We appreciate the encouragement we have received from the citizens of Milton and wish to express our thanks for their support. We would also like to thank the C. G. I. T. group and the ladies who knitted articles for us.

Our meetings have been very interesting and I think it is fitting that we express our appreciation to those who give their time and talents to make our meetings the success they were.

As we commence another year, which we hope will bring the peace, let us ever be mindful of our motto: "All that we bring into the lives of others, comes back into our own."

Doreen Walton, Secretary.

The treasurer's report is as follows:

WOOD'S MILK COOLER

Cools milk below 50° in one hour

DOWN SHE GOES!

With a Wood's Electric Milk Cooler you get Fast, Dependable Service at all times, the type of cooling that up-to-date dairy farms have to have. Thousands of Canadian Dairy Farmers use the Wood's Cooler for this reason.

FAST

Rapid circulation of the water is the reason for the high efficiency and fast work of the Wood's Milk Cooler. This rapid circulation of the water carries the heat away from the milk as fast as it comes through the can—and carries it to the coils quickly, preventing ice formation which would slow up the cooling process. This principle makes Woods the fastest and most economical cooler.

Standard sizes in Woods' Automatic Coolers—4 cans, 6 cans, 8 cans, 12 cans, 18 cans, 24 cans. They are factory assembled, tested before shipping and are delivered complete in every way, including racks, baffles and necessary switches.
