MILK IS FIGHTING ENERGY

Milk is very rich in the protective food substances human dynamo need. Produce as much milk as you can to help win this war! How can you increase production when your barn is already full of cows? See if this gives you an idea—Research Farm cows give as much as a fourth-pound more milk per pound of grain with DR. HESS STOCK TONIC added to the ration.

STOCK TONIC stimulates body functions and that ordinarily means a better milk flow. STOCK TONIC also supplies essential minerals. We suggest that you check these statements by trying STOCK TONIC.
