-Brevities-

Monday is election day. It is a duty and a privilege to vote and express your opinion.

June, the month of roses, brides, strawberries and green peas makes its advent to-morrow.

The showers continue to come often, but so far no political party has blamed them on the other fellow.

Your home paper contains twelve pages this week and even then we are unable to include all the advertising that was requested.

NOTICE

Freeman, Ont., R.R. 2, May 25, 1945 Mr. Wm. G. McDowell Georgetown Dear Sir: I write to advise you that I have appointed

CARLYLE C. BROWNE Federal C.C.F. Candidate

To the Voters of Halton:

Unable to buy their way into the C.C.F. Party or control it, it is abundantly clear to all thinking men and women that the order has gone out from the Manufacturers and Bankers Association to get the C.C.F. Working through the Conservative and Liberal Parties which they control and finance, the biggest booby trap in the political history of Canada is being rigged with which to blow the people of this country into another and worse depression.

These hundred men at the top are the same men who have fattened off the people during two wars and the ten long years of the "hungry thirties". These are the men who R. B. Bennett, the last Conservative leader and Prime Minister of Canada denounced in his Security Broadcasts in the elections of 1935.

It was these men and their kind who financed and raised to power Adolph Hitler and who now seek to lay upon the doorstep of the Socialist Movement the terrible result of their own criminal acts.

Let us face the facts by looking at the record. The National Socialist Party of Germany led by Hitler rose to power by and through the support of the Bankers and Industrialists of Germany and elsewhere.

The C. C. F. arose from the people

is supported by the people and financed by the people.

When Hitler came to power the first thing he did was to smash the people's party, the Social Democrats.

Let us compare the Hitler record with the first C. C. F. government of the Province of Saskatchewan.

One of Hitler's first acts was to smash the Labour Unions and then the Farmer's Organizations and Co-operatives.

The C.C.F. Farmer government of Saskatchewan in its first session enacted into law the finest Labour Act on the North American continent for protection of the workers.

Hitler made of war a religion and the Bankers and Industrialists everywhere have always supported wars, for in wars they saw their greatest profit.

The C.C.F. have always denounced wars as the greatest crime against humanity and stand firm in their support of an international organization for co-operation among the nations and the outlawing of war and warmongers.

As an example of the falsehood and distortion which the old parties are spreading among the people of Halton, I have before me a folder issued by the Oakville Liberal Association which attacks the C.C.F. for stating they will take over the control of the Banking System.

During the depression, tens of thousands of people lost their homes, their farms and the savings of a lifetime; unemployment and poverty in the midst of plenty became the lot of the common people because the bankers refused to issue credit money in terms of public need.

The Insurance Companies The insurance companies are equally guilty with the banks in the exploitation of the people, let their own words speak for the system which they support and I quote this advertisement published by a well-known insurance company noted for its reliability, it reads:

"The Future" "What happens to 100 average men of 25 upon reaching the age of 65? Only one will be wealthy; four will be well-to-do and able to enjoy comfort and recreation; five will be working for a living with no prospect of relief from drudgery; 35 will have died leaving families enduring hardship; 55 will be dependent upon friends or upon relatives or upon charity."

After free enterprise has had free sway for centuries could there be penned by any critic of Capitalism an indictment more damning than that. Canadian Citizens do not be fooled by the propaganda of the Bankers and Manufacturers Associations and the two old parties they control.

While Mr. Hepburn was telling his audience at the Liberal Rally at Oak-

ville on Monday, May 21st that, and I quote: "Under a Liberal Government, money will be the servant of the people and not their master," knowing full well that can only be accomplished by government ownership, the Bankers of Oakville in the name of the Liberal Association were passing out literature "What the Future Means" warning the people against it.

It is not what the Bankers Association tell you that is important, but what they don't tell you. As an example of misleading statement this literature "What the Future Means" says: "They (the C.C.F.) know that there are 5,852,707 depositor accounts in our Canadian banks". "They (the C.C.F.) know that the total deposits are \$4,659,473,732."

Before the British MacMillan Bank Commission of 1933, Sir Reginald McKenna, former Chancellor of the Exchequer and then President of the Midlands Bank, the largest bank in the British Empire when asked if the banks could create money out of nothing replied: "Certainly, and those who have that power hold the fate of the nation in the palm of their hand."

The Bankers do not tell you that currency of the bank notes and coin of the country does only 5% of our business and that if the people of Canada went to the banks in a body, the bankers would not pay them 15 cents on the dollar if they demanded their money. It simply is not there.

Neither the Banker or the C.C.F. are interested in the actual dollar deposits of the people. The issue is whether a few men shall control the 95% of credit money which is the life blood of the nation or whether that control shall be restored to the people in order that the free flow of credit may be always available for the distribution of the goods and services they need.

During the depression, tens of thousands of people lost their homes, their farms and the savings of a lifetime; unemployment and poverty in the midst of plenty became the lot of the common people because the bankers refused to issue credit money in terms of public need.

Then came the war, and because the bankers existence as well as the peoples was at stake they properly fulfilled the duty which they refused during the depression.

"Our great nation is controlled by its system of credit. Our system of credit is concentrated. The growth of the nation, therefore, and all our activities are in the hands of a few men. We have become one of the most completely controlled and dominated governments in the civilized world—no longer a government by free opinion, no longer a government by conviction and the vote of the majority, but a government by the opinion and desire of small groups of dominant men."

Under a C.C.F. Government the people of Canada will have more money in the banks, more and cheaper insurance expressed in terms of public need and not private profit, both backed by the wealth and resources of the nation.

This evil system with its appalling record of two world wars and a world wide depression of ten years duration in one generation, is dying—but dying viciously rending and tearing to the last gasp. Let us not seek to prolong its life but hasten its death. The issue before the Canadian people is not one of candidate against candidate; of party against party, but a war between the forces of greed and avarice on one side and the welfare of our people on the other.

Let us as a united people have faith in ourselves and profit by the words of the immortal Lincoln by electing to office "A government of the people, by the people and for the people" for which the C.C.F. is fighting. The Nation dwells in the home and unless your Government can make the light of its statesmanship to shine there, then it has yet to learn the duties of responsible Government. I challenge all of the candidates of

the other parties to debate these great issues upon the public platforms of Halton County.

Sincerely yours, CARLYLE C. BROWNE, D.C.M., C.C.F. Federal Candidate for Halton R.R. No. 1, Freeman, Ont.
