Taken from the Edition of The Canadian Champion, Thursday, October

There is much dissatisfaction here and at Campbellville on account of the dropping last Monday of the C.P.R. train which left Milton for the east at 9.30 a.m. Thirty high school pupils travelled on it. A deputation has been at Toronto this week asking that either the train be restored or an oil burning car take its place.

There was a collision last night on the Seventh Line, near Ashgrove, between Dr. Heslop's truck, in which he was returning from Brampton Fair with his two trotters in it, and the delivery truck of Mr. Thompson, merchant of Stewarttown. Dr. Heslop's truck turned out to pass a horse and rig. Both trucks were damaged, both of the trotters were hurt.

Entries for the County Fair, which is being held here to-day and to-morrow are reported to be more numerous than ever. Much depends now on fine weather.

Milton tennis players went to Burlington last Saturday and won seven out of eleven events, but the local players put up a fast and strong opposition. Refreshments were served and the Miltonions were given a most enjoyable afternoon.

And our Joseph is not ashamed of us, though He might etc. well be (Heb. 2: 10, 11).

They had stopped in the land of Goshen because it was near Joseph thus be separated from unnecessary contact with the Egyptians (v. 34); and because of the superiority of the soil (v. 6). What a wonderful day for these shepherds when they were presented to the great Pharaoh (v.

2). But a greater day is coming when our Joseph shall present us faultless before the King of kings. (Jude 24). Joseph had anticipated Pharaoh's question "What is your occupation?" (cf. Jonah 1: 8) and had instructed them how to answer (ch. 46: 33, 34). Joheph seems always to have planned things out beforehand. Theirs was an occupation which God etc. has greatly honored, by taking it as a figure of His own relation to His people (Isa. 40: 10, 11; Ezek. 34: 11-16; Jno. 10: 11). COME BACK TO THE FARMS They'll probably want telephone service, if they didn't have it before. War has taught a lot of those in uniform — and their parents, too — to rely on telephones

more than ever. Our plans are ready to make rural telephone service in Ontario and Quebec available to a greater number of users in the post-war period.

Much of the preliminary work already had been done when war interrupted the program extending rural telephone service. We intend to resume it as soon as the necessary materials and manpower are available.

THE Lectric METER Is for Your Protection

EVEN though your Hydro makes Le electricity available to you in Ontario at a very low cost, it is important that you pay only for the amount of power that you actually use. The electric meter on duty in your home, is your protection against paying for more than you consume.

Every one of some 800,000 meters in Ontario is tested and certified by a Dominion Government inspector at regular intervals to assure complete accuracy. Electric meters are among the finest of jewelled precision instruments . . . as constantly true as the finest watch.

For your protection, Hydro installs a separate meter, exclusively for your own

household. Having a meter of your own is the only possible way to be sure that you only pay for the electricity which you use. Imagine buying food from a merchant who weighs several people's orders at the same time, and splits the cost evenly regardless of the size of the orders! You want your order weighed individually when you buy food. When you use electricity your meter assures accurate individual measurement.

Low cost Hydro service in Ontario offers amazing comforts and conveniences. For your protection . . . so that you will pay for only the amount of Hydro you actually use, a Government Inspected Meter is installed for your own household exclusively.
