EVERYBODY WELCOME

The records do the talking on the Research Farm and they've told us cows getting Dr. Hess Stock Tonic give as much as a fourth pound more milk per pound of feed consumed. Looking over the big stack of records on the cows that did and the cows that didn't get Stock Tonic, one reason for this extra production is plain to see. The Tonic cows hold up on their production better throughout lactation. Many farmers are satisfied that Stock Tonic has been a useful addition to their dairy ration. We believe that if you try Stock Tonic you'll feel the same way. Give us a chance to prove it!
