ACTON

J. H. Creighton, W. J. O. Onkes, W. J. Benson and Claude Cook were elected Councillors for 1946 in the municipal elections held here last Monday. J. H. Creighton was top man in the voting. Councillor Davison was omitted.

Stanley Aitcheson, aged 17, suffered multiple fractures of the right leg and was badly bruised when a car on which he was riding on the running board was struck on the side by a large truck owned and driven by John Williamson. Both bones of the leg are shattered in a number of places and the doctors described the injury as a "very severe compound fracture." There are also abrasions on his left leg.

In no uncertain terms Acton ratepayers on Monday gave endorsement to the installation of sewers and a sewage disposal plant. The vote was close to 7 to 1 for the proposal to spend \$184,000 on the system.—Free Press.

GEORGETOWN

Heading the newly appointed Georgetown Citizens Boys' Band as president is Harold C. McClure.

As a result of Monday's municipal elections, five new faces will appear around the 1946 Council table, in the persons of Joseph Gibbons, Thos. Eason, Jr., Jim Ritchie, Jim Goodlet and Bruce MacKenzie. Reeve Ken McDonald was returned for a third term of office with a decisive majority of 366 over Cr. Thos. L. Lyons, making another bid for the reeveship. Cr. Garfield McGilvray will also serve a third term as councillor for Ward 1, while Crs. Sid. Orr and Wm. P. Thompson, of the 1945 council running for office were defeated in the three-man contests in Wards 1 and 3.

The vote was somewhat lighter than last year—993 compared with the 1043 who turned out in 1944 to vote Mayor Cleave in against ex-mayor Joseph Gibbons, who this year made a comeback, heading the polls as councillor for Ward 1.—Herald.

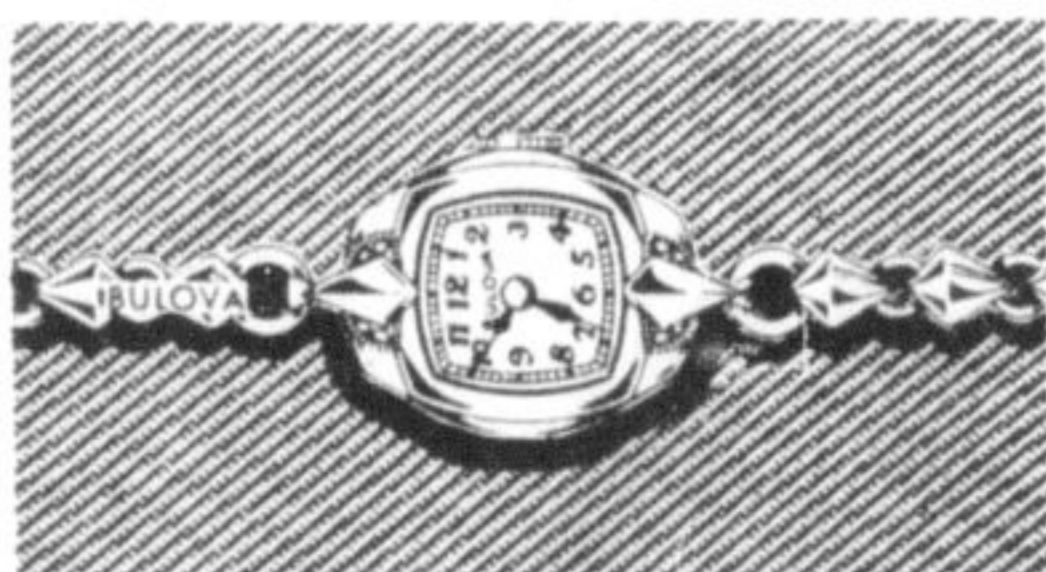

SEAWEED RAYONS

LONDON — Fascinating additions to an ever widening range of British rayons were being shown recently by the United Kingdom Royal Society. The new seaweed rayons have perhaps attracted the most attention. They are woven into a fabric and then dissolved in a soap bath. The result is a cloth of an entirely new design. Seaweed also enables cotton to be woven without twisting for the yarn may consist of cotton and seaweed rayon in which only the latter takes the twist. Then after weaving the seaweed rayon can be dissolved out, leaving an extra strong cotton fabric made from untwisted cotton.
