He saw fighting in France, Holland, Belgium and Germany, was wounded once in the right arm and spent two months in hospital. He married Miss Margaret Few in England last fall and expects his wife to join him soon.

Mrs. O. Morse has returned home after spending several weeks in Woodstock with her daughter.

DO YOU KNOW?

Do you know that the highest standard of living in the world is enjoyed by the people of the North American continent?

In 1941 there were 1,562,146 telephones in Canada—one for every 7 Canadians? . . . there were 1,454,717 licensed radio receivers in Canada—one for every eight Canadians? . . . there were 1,279,536 passenger cars (including taxi-cabs) registered in Canada—one for every 9 Canadians? . . . between 1931 and 1941 Canada's population increased by only 11 per cent., but during the same period the number of telephones in Canada increased more than 14 per cent., passenger cars more than 24 per cent., and radios more than 178 per cent.

. . . Canada with only slightly more than a half to 1 percent. of the world's population, owns almost three and a half per cent. of the world's motor vehicles and more than three and a quarter per cent. of the world's telephones?

. . . according to income tax data for 1939-40 and national income payments for 1938, the aggregate net incomes of the 11,817 individuals in Canada with incomes of \$10,000 or more, even before deduction of taxes, amounted to only 5.8 per cent. of total income payments to all individuals in Canada?

Canadian wealth is widely distributed. Canada belongs not to a few but to all Canadians.

It is in our best interest to work together to develop the enterprise system which has provided this high standard of living for all Canadians, so that it will provide even more.
