

IF I KNEW YOU AND YOU KNEW ME

If I knew you and you knew me—
If both of us could clearly see,
And with an inner sight divine
The meaning of your heart and mine,
I'm sure that we would differ less
And clasp our hands in friendliness;
Our thoughts would pleasantly agree
If I knew you and you knew me.

If I knew you and you knew me,
As each one knows his own self, we
Could look each other in the face
And see therein a truer grace.
Life has so many hidden woes,
So many thorns for every rose,
The "why" of things our hearts would see
If I knew you and you knew me.

OAKVILLE

Members of the newly created High School Area Board took the oath of office on Thursday night and the first meeting was held in the town clerk's office.

A program of expansion that will have important results for Oakville has been launched by the Baringham Rubber Company, already one of the town's largest industries. A formal announcement to this effect has been made by Mr. Edward Baringham, president of the company.

Smart and fast work on the part of Constables Edward Heath and Len Brown of the Oakville police force led to a daring motor chase along the Lakeshore Highway in the early hours of Sunday morning and ended in the capture of two alleged automobile thieves and the recovery of a stolen car before the owner was aware it was missing.

As the aftermath of an accident at the intersection of the Queen Elizabeth Way and the Seventh Line in which Miss Euphemia Tucker, of Toronto, lost her life, Thomas Walford, young Hamilton truck-driver, stood before Magistrate Kenneth Langdon in police court on Thursday afternoon to answer to a charge of dangerous driving. He was fined \$50 and costs a total of \$71.50.—Record-Star.

ADVERTISING PLAYS IMPORTANT PART

Problems pertaining to advertising and affecting peace and prosperity in the Dominion were discussed at the 32nd annual convention of the Association of Canadian Advertisers held in Toronto last week. The Association of Canadian Advertisers is a non-profit organization, designed to protect and serve the advertising industry as well as to promote a better understanding and appreciation of the protection afforded the general public by the use of trade marked and branded goods. It has attained a status of high importance in Canadian business.

Indications are that Canada is on the threshold of an era of progress and prosperity unparalleled in the long history of our country. To attain the highest degree of growth and expansion during this era, business, industry and finance must be backed with sound, sane and honest advertising.

SEARCH FOR RUBBER

Out of the 3,500 plants of Russian dandelion analysed by the Botany and Plant Pathology Division, Science Service, Dominion Department of Agriculture 376 were retained because of their high rubber content—12 per cent. or more.

LOWVILLE

The annual meeting of St. George's W. A. was held at the home of Mrs. William Dales, Wednesday, January 8th. The ladies decided to hold a euchre and dance at Limestone School early in February. The following officers were appointed: Honorary President, Mrs. Jackson; President, Mrs. Harry Richardson; Vice President, Mrs. Harry King; Secretary, Mrs. Tom Howard; Assistant, Mrs. Lorne Powell; Treasurer, Mrs. C. Winn; Assistant, Mrs. W. Dales; Dorcas, Mrs. S. Currie; Assistant, Mrs. Parsons, Mrs. Bell, Mrs. George Richardson; Living Message, Mrs. N. Howard; Thank Offering, Mrs. W. Powell; Baby's Branch, Mrs. Lorne Powell; Flower Convener, Mrs. Geo. Stokes; Assistants, Miss Pettit, Mrs. Winn and Mrs. W. Powell; Extra Cent-a-Day, Mrs. W. Dales; Social Convener, Mrs. Gastle; Assistant, Mrs. H. King; Program, Miss L. Cowley; Lunch, Mrs. Jay; Pianist, Miss Evelyn Stokes.

BURLINGTON

Deputy District Governor of Zone 6, A. R. McDougall, of Hamilton, paid his official visit to the Burlington Lions Club at their regular meeting at the Brant Inn on Monday evening.

Giant earth-moving machines are busy levelling the site of the proposed Queensway Super Market, just west of the Humber, near the Queen Elizabeth Way.

At the annual meeting of the Chamber of Commerce, held at the Estaminet on Monday evening Gordon Blair was again chosen as president for the coming year.

At a meeting on January 3rd, 1947 of two hundred employees of this firm, A. S. Nicholson gave a complete outline of the newly established Employees' Benefit, Profit Sharing and Savings Fund. He explained that the Plan had actually been in effect since August 12th, but came into effect officially on January 1st, after arrangements had been completed with the Department of National Revenue, Ottawa, in regard to taxation.—Gazette.

GEORGETOWN

Damage amounting to about \$275 was caused to two cars which were in collision at the John St. Highway corner last Sunday afternoon at 3.30.

The weatherman cancelled the work of some members of the Fire Brigade who spent a couple of hours on Monday night flooding the GRC rink at the park. Tuesday's thaw put the rink back to starting point. The rink has been completed and with favorable weather this week, will be reflooded and ready for use.

A funeral service was held from the McClure Funeral Home on Monday for Mathew C. Bouskill, who died suddenly in Hamilton Hospital on Friday, January 10th. Born in Guelph 82 years ago, he was the son of the late William Bouskill and Rachael Hodgins. He was a veteran of the first Great War.

Surviving are his wife, formerly Florence Bullivant, one daughter, Mrs. W. J. McDonald, (Ethel) of Georgetown and two sons, Gordon of Georgetown and Clarence of Acton. There are fourteen grandchildren and three great-grandchildren.—Herald.

Girl Guiding in Milton

(Intended for Last Week)

Milton Girl Guides at their first meeting of the New Year held on January 9th voted to "adopt" a "Lone" Company as a practical demonstration of their "service to others" training.

The opening ceremony and roll call having been disposed of, and, with the exception of Joan Montgomery, who is recuperating from an appendix operation, having participated vigorously in a lively, hilarious game, the girls, (including another new recruit, Noreen Anderson) formed a horseshoe of chairs facing the Leaders at the open end.

Discussion of various Company matters followed, including that of adopting a "Lone" guide. With but little talk and no hesitancy whatever, the vote was enthusiastically carried that the Company take an active interest in the "Lone Company" suggested by Provincial Headquarters.

This particular "Lone Company" consists of only two girls who live in widely separated districts where there are no regular Guide Companies. Each girl has taken all her Guide work without contact, except by letters and/or telephone, with other Guides. At Headquarters, these two were "banded" together by correspondence to form a "Company," which now the Milton girls will endeavor to help, and give encouragement to for the fortnite it took to study alone for months, perhaps years, what regular Companies get in association with others.

One "Lone" was introduced by the Division Commissioner, Mrs. Douglas Fiske of Port Nelson at the Guide Camp held last summer. She is Eileen Tyrell of Palermo who, having studied the various parts of the 2nd class work alone, attended camp to take her tests before Captain Robinson and to enjoy for the first time the company of other Guides in a group. Around 40 girls attended this first meeting of 1947.

At the next meeting on January 16, Mr. George H. Dawson, who has always taken a sympathetic interest in the activities of the Boy Scout and Girl Guide movements, will show to the girls, their parents and friends, the pictures which he took on his recent trip to British Columbia.

VEAL CALVES IN 1947

Slaughtering of veal calves in 1946 in plants under Dominion Government inspection totalled 750,000 head, some 20,000 less than in 1945. It is estimated that the slaughtering of calves in 1947 will be about the same as in 1946.

SUPPLY FEED GRAINS NONE TOO GOOD

In several ways the feed situation in Canada as related to the 1946-47 winter-feeding season is similar to that in the corresponding period a year ago, according to the Canadian Coarse Grains Quarterly Review. On the basis of the second estimate of the 1946 field crops it is estimated that the over-all supply of feed grains in the Dominion for the 1946-47 season is only slightly larger than it was at this time in 1946.

While the supply relative to the numbers of grain-consuming animal units should be sufficient for requirements during the current crop year, variety may become as limited as it was in the Spring of 1946. The high-protein feed supplies for the approaching year are expected to remain short of requirements. Roughage supplies although somewhat smaller than in 1945-46, appear to be large enough, except in some local areas, to meet anticipated needs and the reduced hay supplies have been offset to a certain extent by a slightly increased production of fodder corn.

UP TO THE FISH

A Game Warden was checking fishing licenses along a river bank, when he came upon a middle-aged man fishing for catfish.

"Are you having any luck?" he asked. "Haven't had a bite," replied the fisherman. "What kind of bait are you using?" asked the officer. "Worms."

"You should try some other bait," suggested the Warden. The fisherman directed a starry-eyed gaze at the Warden and replied, "Heck man! I ain't runnin' no cafeteria! They can eat worms or go hungry."

HEAVY DUTY OILS IN ANY TYPE ENGINE

When the diesel motor was introduced it was found that ordinary mineral oil carbonised and gummed up pistons and rings. As a result of considerable research in which the Dominion Experimental Station, Swift Current, Sask., has had a part, it was found the addition of a metal soap helped to keep the motor clean. However, this oil could be used only in engines with babbitt bearings. Research was continued on this type of oil resulting in the recent introduction of heavy duty oils. These oils are now available and can be used in any type of engine and under extreme conditions. They are being sold for tractors, trucks and automobiles, and are developed for heavy duty operating conditions and the viscosities, or S. A. E. ratings, are the same as ordinary or regular oils as now sold.

Heavy duty oils are valuable under heavy load conditions. They keep the motor clean internally and as a general rule keep the engine free from sludge. They are recommended for engines where other oils are not giving satisfactory service.

In changing over to the type of heavy duty oil special precautions should be taken. As there are usually accumulations of sludge, gum and carbon, heavy duty oil will quickly become dark and the carbon becomes suspended in the oil. If the engine is very dirty the oil system may become blocked resulting in a burnt bearing.

The following system of change over should be followed:

1. Fill with heavy duty oil, operate 15 minutes and drain out;
2. Refill, operate 2 hours and drain;
3. Refill, operate 10 hours and drain;
4. Refill, change filter cartridge, and operate as recommended by instruction book for future oil changes.

No other oil should be mixed with heavy duty oil.

SAVE ELECTRICITY!

Acute Shortage Continues in Southern Ontario

With the critical shortage of power continuing in Southern Ontario, it is most necessary that everyone co-operate in saving electricity. The need is urgent. It affects the welfare of everyone. Do your part by saving electricity by every means at your command.

THE DAILY PERIOD DURING WHICH SAVINGS SHOULD BE EFFECTED IS BETWEEN 8 A.M. AND 8 P.M., AND CONDITIONS ARE PARTICULARLY ACUTE BETWEEN 4 P.M. AND 7 P.M.

HERE ARE SOME OF THE WAYS YOU CAN HELP

IN THE HOME

- Turn off lights when not required.
- Use the minimum number of lights in the living-room, consistent with good vision.
- Use electrically heated water sparingly and check leaking hot water taps.
- Do not use range elements on "high" when a lower heat will serve, and turn off all elements as soon as possible.
- Cook oven meals as often as possible and avoid the unnecessary use of surface elements.
- Turn off verandah and other outside lights.
- Turn off all small appliances as soon as possible.
- Do not use electric air heaters and grates.

IN STORES AND OFFICES

- Eliminate the use of electricity for signs and store windows from 8 a.m. to 8 p.m.
- Turn off all lights when not required.
- Use electrically heated water sparingly and check leaking hot water taps.
- Do not use electric air heaters.

IN INDUSTRIES

- Switch from day to night operations wherever practicable.
- Turn off factory and office lights when not needed.
- Turn off motor-driven machines when not required and effect other savings wherever possible.
- Avoid the use of all non-essential outdoor lighting.
- Do not use electric space heaters.

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO

THIS IS THE TIME TO THINK ABOUT

Your WINTER Feeding

No matter what your requirements are we have a "STARLIGHT" Feed for all kinds of live stock. This winter feed "STARLIGHT" Feeds for better results and higher production. Remember "STARLIGHT" Feeds are FRESH Feeds.
