

Notices of Births, Marriages and Deaths are inserted in this column without charge. In Memoriam Notices 50c, and 10c per line additional for poetry. Cards of Thanks 50c.

BORN

PURVIS—In St. Vincent de Paul Hospital, Brockville, February 8th, 1947, to Mr. and Mrs. Walter Purvis (nee Marie Wilson) a son Donald Walter.

OSWALD—Mr. and Mrs. Arthur Oswald Jr. (nee Beatrice Clements) wish to announce the birth of a son, Steven Clements, in Providence Hospital, Washington, D.C., January 31st, 1947.

McKAY—Mr. and Mrs. William McKay, of Thorold (nee Freda Galbraith) are happy to announce the birth of twins David William and Diane Elizabeth, at Lincoln Memorial Hospital, St. Catharines, on February 15th, 1947. Mother and babies are fine.

IN MEMORIAM

CLEMENT—In loving memory of Verna Clement who passed away, February 25th, 1947.

It is not the time, the tears we shed, That tell of a heart that is torn. But the lonely tears of the after years And remembrances silently borne, How often you come before me, Your dear face so sweet and true, For death can never take away Sweet memories dear Verna of you. Lovingly remembered by Mother and Sister Olive

CHARLTON—In loving memory of a dear wife and mother, Amelia Charlton, who passed away February 25th, 1944.

What would we give her hand to clasp Her patient face to see; To hear her voice, to see her smile, As in the days that used to be, But some sweet day we'll meet again Beyond the toil and strife, And clasp each other's hand once more In Heaven, that happy life. Ever remembered, Dad, Albert, Jack and Gladys.

CARD OF THANKS

The family of the late Thomas W. Telfer wish to express their heartfelt thanks and appreciation for the acts of kindness, messages of sympathy, beautiful floral offerings, received from our relatives, many friends and neighbors, during our sad bereavement. Special thanks to Drs. Brunton and Macalister and staff of the Hamilton General Hospital and Rev. J. N. McFaul and Rev. R. O'Brien for their comforting messages. Also for the many kindnesses shown to Mr. Telfer during his long illness.

- Brevities -

—Good-bye to February to-morrow.

—Most of us will be anxious to note the coming of March. Will it be lamblike or lionlike?

—In Group 5 Intermediate play-offs Acton defeated Elora 6-2 and Orangeville won from Fergus 8-6. Both games were played on Tuesday night.

—The Itinerant Service supplied by the National Employment Office on Thursdays in Milton Municipal Chambers will be discontinued after Thursday, February 27, 1947. However anyone seeking employees, employment or information should write or telephone the National Employment Office at 131 66th St., New Toronto any day through the week, or the Oakville Itinerant Office in the Oakville Town Hall on Monday, Tuesday or Wednesday weekly.

URGE BIG OUTPUT OF OIL SEED CROPS

In Canada, the post-war industrial activity is creating a strong demand for both edible and industrial oils which is being only partially met. For the Agricultural program 1947 in Canada the Dominion-Provincial Agricultural Conference, therefore recommends that every possible effort be made to increase or maintain the production in Canada of flaxseed, soybeans, rapeseed and sunflower seed.

The total quantity of fats and oils available for international trade in 1947 is estimated at about 50 per cent of requirements. Production of every group of fats and oils is below pre-war level. The greatest production in output will be in palm oils (cocoanut palm oil and palm kernel) due to reduced production in the Netherlands East Indies and Philippines. Marine oils are also substantially below pre-war production.

Production of edible oilseeds, while only 10 per cent below pre-war output, nevertheless will represent no more than 50 per cent of needs by reason of the increased world requirements of edible fats. The expectation is that 1947 will again be a year of some considerable scarcity in regard to fats and oils and oil-bearing materials, and that from a long-range point of view, three years or more may be required for world production to reach the 1938-1939 level.

NEW JET DEVELOPMENT FOR CIVIL AVIATION

Two leading British aircraft firms, Rolls Royce Ltd. and A. V. Roe and Company are collaborating in a new development in the application of jet propulsion to commercial air transport. Four Rolls Royce Neno turbo jet engines are to be fitted to an Avro Tudor A1liner which may be flying next year. The plane is expected to have a cruising speed of four hundred miles per hour.

Obituary

THOMAS W. TELFER

At the Hamilton General Hospital on Tuesday morning, February 18th, Thomas W. Telfer, passed away after a long illness. He was born in Milton, Ont., forty three years ago and was the only son of Mrs. Mary J. Telfer and the late Dr. Thomas Telfer, V.S., who passed away in 1915.

Tommy, as he was better known to friends of the sporting circles, had poor health for the last eleven years and was confined to the hospital since June, being discharged January 13th, and coming to visit at the home of his only sister, Mrs. Jos. E. Crowe, from where he was forced to return to the hospital on February 8th, where he gradually became weaker and passed peacefully away in his sleep.

Prominent in sports when his health was good, he played hockey and baseball here for many years, later going to Hamilton and continuing his sports, also in Dundas and Acton. At an early age he achieved a pitcher's ambition of a no hit no run game at Bronte for Milton. During his illness he always maintained a great interest in his home town activities. His many operations and illnesses were born with great Christian fortitude. He was a member of Knox Presbyterian Church, Milton.

Tommy moved to Burlington nine years ago and was employed at the C.I.L. before his last illness. He is survived by his wife Myrtle Alexander and three children, Ronald, Kenneth and Marylyn, his mother, Mrs. Mary J. Telfer and sister, Mrs. Jos. E. Crowe.

The funeral took place on Thursday afternoon, February 20th from Smith's Funeral Home, Burlington, with interment in Evergreen Cemetery, Milton. The flowers were numerous and very beautiful. The service was in charge of Rev. J. N. McFaul, Oakville and Rev. R. O'Brien, Burlington. The pall bearers were: Messrs. W. Alexander and W. Stanton of Hamilton and C. G. Riddell, C. G. Hill, J. Ford from Milton and Lorne Chisholm of Toronto.

Among the many friends who attended the service were Lorne Chisholm and Geo. (Bunny) Kenney of Toronto who along with Tommy composed Milton's battery for a number of years.

CHURCH SERVICES HEARD BY PHONE BEHOLD BY RADIO AGE

Remember when church services were first broadcast by radio, the fears expressed that people would sit at home and listen rather than attend? Much the same sentiments appear in news clippings of 1879, nearly half a century before radio became common in most homes.

"The only trouble to be anticipated now," said the Ottawa Citizen of Nov. 24th, 1879, "is that people who are not invalids may desire telephonic connection with their churches, and eventually it will result in clergymen ascending their pulpits on the Sabbath day to preach at a wooden box, while their congregations comfortably toast their feet at their respective firesides, and receive the usual Sunday instruction without experiencing the fatigue of walking to church and bowing to the contribution plate."

The Citizen's alarm was inspired by the announcement that the service from Dominion Methodist Church, Metcalfe Street, Ottawa, had been transmitted by telephone to the bedside of an invalid.

"The telephone," says the report, "which in outward appearance is but a small box four by six inches, was placed upon the pulpit to the right of the pastor." The services, sermons, hymns and anthems, the report explains, were heard clearly at the invalid's bedside. This was one of the first recorded instances of the transmission of a complete religious service.

In 1879 it was necessary, for the newspaper to describe the appearance of a telephone, because the instrument had had its first public demonstration only three years before, when Alexander Graham Bell, the 100th anniversary of whose birth falls on March 3rd this year, showed it at the Philadelphia Centennial. At the time of the first "broadcast" church service, the telephone was still a novelty in most Canadian communities.

LIVERPOOL TO BE AN "ALL RADAR" PORT

The port of Liverpool, England, will be one of the first in the world to utilize radar on a full scale basis. The equipment used, which will be the first of its kind in the world, will enable the port to remain open in all types of weather. It will include an aerial scanner weighing two tons rotating on top of an 80 ft. steel tower erected at the seaward end of the North Docks system. In the control room a number of different displays will show large scale pictures of the approach channels. These pictures will show accurately the positions of all ships in the Liverpool Bay and will enable the position of all ships to be plotted from moment to moment within a distance of 20 miles. Installation of the equipment is expected to be completed by the spring of next year.

41st ROBBERY

GLACE BAY, N. S. (CP) — Some kind of a record must have been made at the nearby community of Table Head, when, for the 41st time in 14 years, Evan's market was broken into. This time, the intruder was not content with robbery but set the place on fire.

CLEARING AUCTION SALE

FARM STOCK, IMPLEMENTS, FEED AND FURNITURE

The undersigned has been instructed by

C. & J. BLACKALL to sell by auction at Lot 2, 11th Con., Esqueness, 3 miles south of Northon

WEDNESDAY, MARCH 12th at 1 o'clock the following:

HORSES—Bay Horse, 8 yrs.; Gray Mare, 11 yrs.; Brown Horse, aged; Bay Mare, aged; Gray Colt, 3 yrs.

CATTLE—Holstein Heifer, calf at foot; Holstein Heifer, calf at foot; Holstein Heifer, calf at foot; Holstein Heifer, due time of sale; 3 Holstein Heifers, bred in August; 6 Holstein Heifers, bred in November; Holstein Bull, 2 yrs.; Grade Shorthorn Cow, 5 yrs., calf at foot; Grade Shorthorn Cow, 3 yrs., due time of sale; 5 Grade Shorthorn Heifers, bred since December; 2 Grade Shorthorn Heifers, 20 mos.; Shorthorn Bull, 2 yrs.; 3 Veal Calves.

POULTRY—200 Leghorn Hens, laying well; about 20 tons of good mixed hay; about 100 bus. of Urban Oats for seed; about 100 bus. of Wheat; 2½ bus. of Alfalfa Seed, No. 1 Purity; 300 lbs. of Chick Oyster Shell.

FURNITURE—Royal Princess Pat Kitchen Range; Quebec Cook Stove; Coal or Wood Heater; Kitchen Table; 6 Kitchen Chairs; Kitchen Cupboard; Child's Cot; Child's Bed; Oak Extension Table with 12 Chairs; 2 Small Tables; Lawn Mower; Buffet with Mirror.

WHERE'S THAT MAP?

Among suitable matters to moan and groan about might be added the passing of the wall map of Canada from Canadian homes. This passing has increased the obstacles to Canadians' thinking of and understanding Canadians.

Canada is an inconvenient piece of geography to set down on a map, no matter what projection is used. The distance around Canada is about as far as around the world at the equator, and the shape of Canada is something like an extended accordion. Getting all this on a globe or an atlas map usually leaves most place names too small to read easily. Some of the folding maps are big enough, but only the very best citizens have the patience to unfold such maps and fold them up again more than once a year or so, and between times they get lost. A sectional map doesn't do the job. A wall map of Canada is the way to see all Canada at a glance and often.

In the days when kitchens were the centre of home life, a map of Canada was a fairly common sight on a kitchen wall. Now few people have homes and those who have homes don't stay in them. Even among those so fortunate as to have homes and so wise as to have home life, there are few with sufficient kitchen space for an adequate wall map of Canada. The map has vanished along with the kitchen rocking chair, wood box or coal scuttle, flour bin, various working clothes on pegs and the "Stag at Bay" with the chipped frame. Kitchens have puckered up so there is scarcely space for the usual half acre calendar.

There is no use trying to hang a wall map up in the living room; the women won't permit it. Much might be said in favor of the bathroom, but here again opposition would be considerable. Bedrooms are less suitable for study and the trend in bedroom interior decorating is not towards wall maps. Anyone with a library probably has wall maps or at least roller maps, but libraries are even scarcer than homes. Possibly the only hope of Canadians' understanding Canadians through the greater use of maps of Canada is to fix maps on doors (there are still a few doors around) or for somebody to bring out good looking roller blinds or curtains with maps of Canada on them.—The Printed Word.

DANGER SIGNALS

Twinges, or just plain tiredness, may be danger signals of illness ahead, say the doctors. "Take care of the little aches and the big pains will look after themselves," they declare. "One of the essentials for complete and speedy relief from illness is early discovery of underlying causes of a complaint. So minor discomforts should not be ignored or allowed to pass unexplained. See a doctor for even the little things and forestall development of more serious trouble."
