

LADY NELSON REHABILITATED

Gleaming in her new white paint and completely rebuilt and refitted after her war service, the "Lady Nelson", flagship of the Canadian National Steamships fleet, has embarked on her first post-war luxury cruise to Boston, Bermuda, the British West Indies and British Guiana. She is shown above heading out to sea from Halifax, escorted by a retinue of busy tugs.

The "Lady Nelson" was Canada's first Hospital Ship, and is shown at right in her wartime dress as a ship of mercy. She also transported thousands of war brides to Canada.

PRICE INCREASES IN MILLFEEDS SINCE REMOVAL OF CEILINGS

The removal of ceilings on mill feeds, soyabean meal, oil cake, gluten fish and meat meals, etc., has resulted in sharp price increases. Needless to add this is causing no little concern to Halton livestock and poultry producers. According to Parrish & Heimbecker Ltd. grain dealers, in a statement on September 15th they interpret the new regulations issued by Ottawa to mean that no changes have been made on feed wheat, barley oats, screenings, whole or processed. Corn on the other hand, has jumped to \$100 a ton.

The Federal Government has, until ceilings on mill feeds were removed, been subsidizing the import price on these commodities. It is also anticipated, that as soon as the Packing strike is settled, will see the removal of ceilings on coarse grains. At the present moment it is practically impossible to buy coarse grain from Western Canada. In short, Western farmers are holding their coarse grains anticipating the removal of ceilings. This makes a very tough situation for Eastern livestock and poultry feeders whose products are either still under ceilings or governed by contracts already made with Great Britain.

It is to be hoped that Halton farmers will not decrease their livestock holdings on the spur of the moment. It would definitely seem as if some price adjustments will have to be made in farmers' prices if they are to be expected to remain in business. Excellent markets for Canadian bacon, eggs, etc. have been built up in Great Britain during the war years and in the interest of Canadian economy these markets must be held. Those responsible for the present situation will have to be careful that they do not "kill the goose that laid the golden egg."

JACKSON DODDS ELECTED TO INTERNATIONAL COMMITTEE

Jackson Dodds, CBE, Montreal, Dominion Commissioner of the Boy Scouts Association of Canada, was elected one of 12 members of the International Scout Committee while representing Canada at the Eleventh Biennial Scout Conference held at the Chateau de Dosny in France in August.

Lord Rowallan, Chief Scout of the British Commonwealth and Empire, was also named a member of the Committee which will act for the Conference between its biennial sessions.

MODERN PETRUCHIO

A young Toronto veteran has turned a loss into a profit. His wife an English girl has developed an unfortunately expensive habit. Every door-to-door canvasser found the lady an eager customer and the little home with the little mortgage was snowed under with de luxe editions of the Britannica and the latest of Mr. Fuller's brushes.

Into this pedlar's paradise came a portrait salesman — "two beautiful photos for only a \$1.98." The pictures were made. The proofs were selected. "There is, of course, an additional charge of \$7.50 for the style finish, Madam." The finished prints were delivered. "In order to prevent these pictures from curling up and cracking up we had to frame them." Another \$14.

Tearfully the young bride appealed to her husband. The contract she had signed was foolproof. He paid.

Armed with a hammer and two nails he made his determined way to the front door, and there to this day, hang the pictures. Every time the wife of his bosom answers the door she sees her \$25. bargain.

"Saved me more than 23 bucks already," he says.

"Sweating" on cold water pipes and plumbing fixtures is caused by condensation of water vapor in the air

TOBACCO AND PRODUCTS NO LONGER REQUIRE PERMIT

Effective August 29, 1947, export permit regulations have been amended, exempting the following commodities from the requirement of an export permit when shipped to any destinations: tobacco, leaf; tobacco, cut; cigars, cigarettes, snuff and manufactured tobacco, n.o.p.

U.K. POULTRY CONTRACT

Total purchases of poultry up to April 1st 1947, under the British 1946-47 contracts were 7,932,421 pounds, of which 6,657,302 pounds have been shipped, made up of 37 per cent. fowl and 63 per cent chicken. Purchases will continue under this contract until the quantity stipulated, namely 12,500,000 pounds is filled, says the Current Review of Agricultural Conditions in Canada.
