Knowledge And Understanding

Last week the Liberal Party chose a new leader to replace Hon. W. L. Mackenzie King who has so successfully led that great party for thirty years. His successor Hon. Louis St. Laurent cannot hope to come near his record of public service since he is a much older man at the time he assumes office.

Mr. King had a splendid background and academic preparation for the position that no doubt contributed largely to his success. His ability to select able men to assist him and his sharing of the responsibilities with these able men has without a doubt also been a contributthrough many of its most difficult years.

the young Liberals, as reported at the Conven- pose." tion. Youth is always impatient at the slow scholars of the road of life as well as Rhodes in the affairs of Germany. scholars if we are to progress safely and avoid may run into. Scholars of all kinds are needed but mixed with experience to give Canada the best guidance.

Canada and Canadians well. His successor has a difficult task. Only time will tell hod he measures up in his work.

Drinking More and More

It may have been hot weather, but is more probable the result of the promotion of sales effort and the opening of more outlets. Whatever the reason, the Bureau of Statistics reported that production of beer in Canada jumped during last June.

The monthly output was 17,510,000 gallons, compared with 15,280,000 in May and 15,270,-000 gallons in June, 1947.

For the first half of the year output totalled 85,080,000 gallons, 6,440,000 gallons-higher than the output for the first six months of last year—78,640,000.

The "Control" part is not used any more when speaking of Ontario's policy of sale of beer. The results are partly shown in the newspaper headlines of murders after drunken brawls, accidents and broken homes. The cost is high for the revenue secured.

A Great Canadian Event

That great annual event that makes Toronto the mecca for thousands of visitors who are never disappointed, the Canadian National Exhibition is booked to run this year from August 27 to September 11. We've been attending for more years than we can enumer ate and yet we admit to a thrill and keen anticpation the event this year in the more than forty others we have seen.

Lord and Lady Mountbatten will be here to officiate at the opening. The Welsh Guards Band, direct from Britain, will thrill the throng throughout. The huge new grandstand will seat thousands daily to witness continuous platform performances including nightly fireworks. Olsen and Johnson, stage be successful in life has been given by Marshall and radio funmakers, headline the platform | Field. They are as follows: "The value of time. attractions. The great annual marathon swim | The success of perseverance. The pleasure of will again grip spectators along the water working. The dignity of simplicity. The worth

front. vide the lasting impressions of the whole show. patience."

Agriculture, Industry, Science, Art, Travel, Education, all the things that make up Canadian progress will be portrayed as never before.

We don't cover as much territory at the ex in a day as we used to but we always find it interesting and educational.

Getting Eyes Opened

Eight times in the past four years, according to the Financial Post, Canadians have been asked how they feel about private vs. government ownership of basic industries. In 1944, opinion was pretty evenly divided-43% favored private ownership, 39% said half and sor.ville, Fla. formerly of Milton, half, 8% didn't know.

These were the first results of the continuing study of public attitudes toward Canadian | Champion Office after the fire business and industry conducted by Elliott-Haynes. Their survey is based on 7,000 personal interviews with a representative crosssection of the adult population.

With the war over, people wanted to get back to running their own affairs. Opinion polls showed that out of every 100 Canadians, 60 believe in complete private ownership of A. D. Langmore. Mr. Dewar first business and industry, 25 come out for govern- Band. ment control, 6 say "part and part" and 11 haven't made up their minds.

Given another year of continued high taxes, thoughout the country and will increased costs of products and shortages of material and we predict 90 per cent of the Canadian will want to manage their own af- 20c. to \$5.00. fairs in preference to having the Government and its consequent retinue of inspectors and officials make wage deductions and dole part of the take back again. A little experience will show most Canadians that they do best when they handle their own wages and buy their own needs.

Fifty-Three Nations—One Voice

With all eyes on Berlin, it is heartening ing factor in his long and successful career in to read of the gigantic relief operation carpublic life and his leadership of Canada ried out by Great Britain and the United States. As one of our Canadian dailies puts it, We noted with interest the enthusiasm of "It is a display of solidarity, strength and pur-

But everybody knows that such an airlift 'progress that appears to be made. They want cannot be mantained indefinitely and the a shorter cut. They have read much and may question still remains, "What can we do about lington or Milton. be inclined to theorize that time is wasted by Berlin?" The obvious answer is, "Plenty." older and more experienced leaders. We note What we can do about Berlin outside Berlin that it was a 22-year-old Rhodes Scholar from may prove to be the answer to Berlin itself. McGill who led the young group to demands This is the answer to defeatism on the home for more definte action. We need the spirit front. Industrial teamwork and national unity and vision of young men and women if we are within the democracies and among the deto advance, but we need too the experience of mocracies could prove a most persuasive voice

If fifty-three nations spoke as one voice berry, Milton Marsh and Fetter the pitfalls and setbacks that inexperience instead of fifty-three different voices, would Umpire Horning of Hamilton. Russia listen? This is the signifigance of the World Assembly for Moral Re-Armament now NEWELL-Suddenly in Milton convening at Caux, Switzerland, attended by on Wednesday, August 8, 1928, Hon. W. L. Mackenzie King has served fifty-three nations. If the free democracies learns there to speak with one inspired voice, would that voice be heard? If they find an ideologly that unites them, will they be better able to meet a united ideology that aims to divide and conquer them?

A Community Co-Worker

The function and role of the weekly news- pelin. paper, in addition to presenting news and editorial guidance, says the Swift Current Sun, sion bridge. "is always to give strong support to campaigns and projects which will benefit the community; to those things which have national significance and imply responsibilities involving the citizens of the state as a whole. With all this is coupled an obligation to maintain its own level of respectability so that its influence may in do is of no value, think of these some measure activate the forces which catter to the moral and religious needs of the members of the community, of all races and creeds, and of all social standings."

EDITORIAL NOTES

Just three weeks until Exhibition time and the local fairs follow immediately.

Cars, radios and jewellery went down, and soaps, oils and some metals went up. The balance is always hard to determine these days.

According to an eminent United States medico, wearing a belt causes a man to have one of those bulges known as a "corporation", and also can bring on dyspepsia. The medico recommends suspenders, or braces as they are often labelled. Maybe less in the trousers pockets would help prevent the centre bulge or the shoulder drag.

A list of ten things to remember if we would of a character. The power of kindness. The But the exhibits spreading over acres of influence of example. The obligation of duty. floor space, under sheltering roofs, will pro- The wisdom of economy. And the virtue of
