As many departure times have also been changed, you are advised to obtain a copy of the new timetable from your local agent.

County Council Gives Approval of Wage Increases

Plan to Have Simcoe County Council Visit in Halton and Peel

Written Exclusively for the Canadian Champion and the Acton Free Press.

Employees of the County roads department received an increase in their wages, Halton County Council decided at their regular monthly meeting held at the County Buildings, Tuesday afternoon.

Council approved of the recommendation of the Road Committee that all workmen connected with the department should receive a five-cent an hour increase in their wages. Reeve W. H. Biggar, chairman of the committee told members, it would bring their wages up in line with others. They were receiving seventy-two cents an hour be advised. Members also approved of a second recommendation that the remuneration of Wm. Dean be increased \$150 per annum beginning September 1. They felt the increase was necessary in view of the increased volume of work he has been asked to do.

Several resolutions were discussed and endorsed. Members gave their nod of approval to a request from Kent county who were opposed to having members appointed to the county board of health for two or three years. If regulations were continued it would mean the county council would lose control of this phase of the work.

Reeve Mary Pettit explained that this question has not been finally decided upon, but was convinced it was not the intention of the Department to allow the Health program to get out of the hands of council.

Members recommended a resolution from Wentworth County be filed. They were seeking to have the Ontario and Federal governments assume the liability of displaced persons residing in Canada, when they become indigent persons in respect to hospitalization and Children's Aid care. It also requested the governments to assume this burden until these people become self-sustaining.

"We as a municipality should share our responsibility when we are asking displaced persons to come to our country and become Canadian citizens," declared Reeve Alex McLaren.

He also explained that under existing legislation in respect to indigents, they had to be a resident of a municipality three months before they could seek aid. "Both the Dominion and Provincial governments have already shared that cost, and in some cases looked after these people for as long as two years," he stated.

While members felt there was reason in a resolution from Nassagaweya Township who were seeking to petition the Department of Highways to have a white line painted on Highway 7 from Acton westerly, they considered it did not come within their jurisdiction. Members from the northerly part of the county explained the highway was under repairs, and when this was completed, they felt the Department would no doubt paint white lines as they had done on other highways.

Chiding members who were not present at the session, Deputy-Reeve Elmer Foster asked if these members had been present at the last two meetings.

Reeve Mrs. Pettit advised, "it is a rule in municipal councils that when you don't have leave of absence and miss three meetings, you know what you can do."

"Some of the members absent to-day were present at the last meeting of the Council," Warden George Cleave recalled.

Council approved of a motion sponsored by Deputy Reeve Foster and Armstrong, that a by-law be prepared covering clause 56 of section 87 of the Highway-Improvement Act, dealing with restrictions of buildings erecting fences and planting trees along county roads.

Deputy Reeve Armstrong suggested that as Simcoe County Council played hosts to Halton and Peel Councils earlier in the summer, it would be fitting to invite that council to visit Halton in the near future. Members fell in line with the suggestion, but felt the month of June might be a more opportune time to show off the county.

Mr. Armstrong urged members to invite Simcoe Council at this time as possibly some of the members might not be on the council next year. He added that Halton had a wealth of industry, and it

would be interesting to take the visitors on a tour of Halton County industries.

Members decided the matter should be left in the hands of the Warden who could contact officials of Peel County, to make necessary arrangements for the day's visit.

Council set October 26th as the date for the Conservation meeting, to be held at the Court House at 8 p.m.

Accounts approved and ordered to be paid included:

Agriculture and Reforestation	548.17
County Buildings	185.54
Finance	3258.85
Printing	284.12
County Roads	45,363.32
Hospitalization	1654.17
Total	\$51,294.17

Council adjourned to meet October 19th.

MILTON WOMEN'S CANADIAN CLUB OPENING MEETING

The local Women's Canadian Club held the opening meeting of the season, Tuesday at eight o'clock in the Legion Hall.

Appropriately in line in the aim of this group to engage in a "study of the institutions, history, art, literature and resources of Canada", several films of the Canadian scene were shown by Mr. R. S. Heatherington, representative for this district of the National Film Board.

The Newfoundland film was particularly lovely for sheer beauty of sea and rock. It was most interesting to learn more in this visual way, of the rugged life and activity of these people, soon to be even closer linked with Canada.

"From Kingston to the Sea" stirs one's pride in the majesty and power of the St. Lawrence. Glimpses of research and agricultural work at Dominion Experimental Farm, Ottawa, were also revealing.

Mrs. M. E. Nixon, president, welcomed new members and guests, also expressed appreciation to Mr. Heatherington for the showing of very fine films.

As was set forth by the club's commendable circular letter and reiterated by Mrs. J. McCallum, secretary the patriotic and cultural objective of the club is being fostered by a fine series of lectures for the fall and winter months.

We offer a fine selection of Fall and Winter Coats in all the newest shades, Green, Wine, Blue, Brown, Grey, Black, at money saving prices. Come in now and make your selection and use our Lay Away Plan. A deposit will hold your Coat for you.
