sympathy of her many friends in

the sad death of her mother, Mrs.

Fanny Rayner, of Clarkson, who

was instantly killed on Wednesday

night last when hit by a car after

she alighted from a bus near her

home on the Queen Elizabeth Way.

The funeral was held on Saturday

The world problem of feeding an

increasing population is not so

much a matter of productive soils

as it is developing methods and or-

ganizations to put the soil into pro-

duction, states G. R. Snyder, agro-

nomist in C-I-L's agricultural

Most people do not realize that

potential new land is definitely av-

ailable and increased production is

possible on the land now being

farmed, Mr. Snyder said. This can

give us food significantly beyond

that needed for an estimated world

The soil expert pointed out that

1.3 billion acres of unused land can

be developed for crop production.

A billion of these acres are in Af-

rica, South America and on the

large tropical islands. The remain-

der lies between the temperate

"It can be surmised from the

foregoing that there is no excuse

for the present food shortage in

various parts of the world," the ag-

ricultural authority asserted. "If

available land is developed to its

maximum capacity and the exist-

ing cultivated land managed pro-

perly, there will be sufficient food

Engagements

Mr. and Mrs. Clarence Hill wish to announce the engagement their second eldest daughter, Gertrude Olive to William Charles Mountain, son of Mr. and Mrs. Sydney Moutain, Milton. Marriage to take place quietly December 18,

CHRISTMAS SEAL SALE PROVIDES AN OPPORTUNITY

Once again you are being asked to buy Christmas Seals. Why should you?

In the last year your contributions have made possible two mass chest x-rays. In those surveys 14,-163 people in Halton County took GRACE ANGLICAN CHURCH advantage of the opportunity offerred to them. By these x-rays 5 active and 25 inactive cases of tuberculosis were found. Your contributions have also made possible an adequate follow-up of cases and contacts of tuberculosis. Regular clinics have been established in Milton and Oakville and the clinics in Toronto, Hamilton and Guelph

were also used. Why should you contribute again? You should contribute because the control of tuberculosis is a continuous process. If it is not carried n ceaselessly, the problem will grow to proportions where it becomes a menace to us all. To achieve adequate control, funds are needed for the operation of the clinics where all people may have Wednesday, December 15 at 2.30 free chest x-rays if they are suffering from or have been exposed to

tuberculosis. Thus your contribution is vital. There is no investment you can make where your money will bring greater returns, not only in protection for yourself and your family but also in protection of community health.

The Blue Six are trying hard to keep that banner, for again this week they were chosen as the best Six of the Pack, totalling 26 points throughout the evening. The Gray Six came a close second with 24 points. Some of the boys seem to be forgetting that it is not just the way they are turned out for inspection that counts but their behaviour during the whole evening, and several Sixes lost points in this way.

The carol singing is coming along splendidly. The boys really go to town along with Santa Claus on their favorite number.

It's not only during the singing that the Cubs have a chance to exercise their lungs, as anyone would discover who happened to pass the Town Hall on a Monday night. Every game is played with as much enthusiasm as though it were a major league hockey final and cheers for the winning side are enough to raise the morale of any team. A bit hard on the ear drums, we admit, but lots of fun just the same.

ISN'T IT THE TRUTH?

Growing old is no more than a bad habit which a busy man has no

time to form. Education is not a destinationit is a journey-always we are en-

route. Great minds discuss ideas. Average minds discuss events.

Small minds discuss people. Synonyms must be used with care. For instance you may call your wife a vision but never a sight.

Quite recently, Ulster has given Alexander, Auchinleck, Dill and Montgomery to the British Army.

SEED TREATMENT HAS MANY BENEFITS

Four important benefits derived from treating seed with fungicides are outlined by C-I-L's agricultural chemicals division. They are:

(1) Destroys seed-born fungi which would otherwise reduce yield and quality of crop.

(2) Combats soil inhabiting fun-The annual nominations and in- gi which rot seed and destroy the

(3) Helps combat weeds by making possible good stands of vigorous crop plants.

(4) In many cases it increases market value of crops, particularly grain, by making possible a greater During the brief business period germination. Tiny Hopkins inquired if the Leg-
