LOCAL CLUB WALLOPS COMBINES
12-4 IN HOT TWILIGHT SESSION

Milton Intermediates wrapped up their sixth win on Wednesday night when they walloped the Georgetown-Acton Combines 12-4 in a seven-inning twilight session that seemed to lack much spunk on the part of the Combines.

The Combines scored two runs in the second and two more in the seventh but failed to cope with the lead the locals piled up in the third frame when they counted six runs.

Scoring for the local club started in the first inning when Rusk and Gervais brought in two on a two bag hit by Fay. The third inning saw the walk-away as Douglas, the visitors' pitcher, visibly weakened and six runs were tallied. Jordan took over the mound duties and Grenke counted a solitary marker

in the fourth with Gervais, Fay and South wrapping three up in the last of the sixth.

On the mound for the locals, Marshall allowed six hits compared with the 15 that Douglas and Jordan, the two Combines' moundsmen were nailed for.

Toletzka wrapped one out in the sixth that looked like a sure-fire homer as it headed for the other side of the snow fence that surrounds the outfield. Dillon in left field reached for it on the run back, nailed it and somersaulted over the fence still hanging onto the ball.

Big hit of the game went to Mills on the Milton crew, a pinch hitter in the sixth when he banged out a three bagger and went on to count the final run for Milton.

Gori Outdoes Iron
Man In Wrestling

On Thursday evening, June 19th, the second pro-wrestling show was held at the Milton Arena.

In the main event, Gori Mangotich threw Iron Man Jordan two falls to one. This bout was indeed the most exciting event of the evening. Both contestants were evenly matched and displayed some excellent wrestling. Gori Mangotich, who is the number one contender for the championship, dropped Jordan for the first fall and then Jordan evened the score, taking the second fall. Mangotich came back, cleverly dropping Jordan again for the third fall.

The semi-final between Tommy Sullivan and Baron Von Seiber was awarded to Sullivan on default. The falls were evened off at one each when Sullivan received the decision. The contestants started fast and furious and kept it up to the end, giving the crowd a great deal of excitement.

The opener displayed great strength and ability between Jack Paris and Jumping Joe Greenfield. Greenfield won the bout using some clever aerobic tricks.—Bill Elliott.

Hits, Runs Scarce
As Milton Downed

Waterdown dropped the Milton Intermediate club 2-1 in a Friday twilight session in Waterdown. Hits were as much at a premium as runs since Milton chalked up two hits and Waterdown managed three.

Melanson started things off fine. The first batter, he slugged out a home run for the only Milton count. J. Thompson counted for the home club on a walk in the second and Finamore added Waterdown's final tally in the fifth when he drove a three base hit.

Tasker handled the mound duties for the local club with the well-known Fawcette on the mound for the Waterdown club. Fawcette claimed 10 strike-outs with Tasker nabbing two.

BELFOUNTAIN
HOME OF COUPLE
MARRIED RECENTLY IN ORTON

St. John's United Church, Orton, was lovely with colorful arrangements of mauve and white lilies, tulips and spirea for the wedding Saturday afternoon of Florence Jeanne McEachern, daughter of the late Mr. and Mrs. John McEachern, Orton and George Alexander Wilson, son of Mr. and Mrs. Fred Wilson, Erin. Rev. Eria Currie solemnized the four o'clock ceremony assisted by O.A.C. Padre W. A. Young.

Given in marriage by Mr. Elias Cheyne, the bride wore a white lace over slipper satin gown which extended into a short train. A feather headress held her veil of tulle illusion trimmed with satin bows.

The maid of honor, Miss Doris Bruce, and the bridesmaids, Miss Mary Wilson, sister of the groom, and Mrs. Harry McMillan were in identical gowns of white lace over mauve taffeta. They wore matching bouquets and carried cascades of orchid carnations.

As flower girl, little Olive Plummer wore a white lace over mauve taffeta frock, a miniature of the other attendants' gowns. She carried a basket of mauve sweet peas. Fred Wilson performed the duties of best man for his brother and the ushers were the bride's brother, Jack McEachern of Orton and Harry McMillan of Belfountain. Miss Marguerite Thompson played the wedding music and William Courtney was soloist.

A reception for 125 guests followed in Atson Hall, decorated for the occasion with mauve and white streamers, lilies and white bells. Mrs. Elias Cheyne received wearing a rose crepe trimmed with lace gown and corsage of white gardenias. The groom's mother assisted in a blue sheer gown with a corsage of yellow roses.

Eight friends of the bride, Misses Helen and Jean Collier, Dianne and Marilyn Churcher, Ruth and Beth Marshall, Shirley Barrett and Marion Oakes, served the dinner.

Before leaving on a wedding trip north, the bride donned a navy blue ensemble trimmed with white and white gardenia corsage. On their return, Mr. and Mrs. Wilson will live on the groom's farm at Belfountain.

Hunt More Cash
For Hunt Permit

Intended to bring hunting licence fees more in line with the present day dollar values, a recent amendment to the Game and Fisheries Act passed at the last session of the Ontario Legislature, lists the following changes, which are now in effect:

Farmer's deer licence raised to \$2 from \$1. This licence is available only to a farmer actually living upon and tilling his land and is valid only in the county or district in which he resides. Resident deer licences are raised to \$5 from \$4; resident moose licences to \$10 from \$6; camp deer licences (one for each four holders of individual deer licences) raised to \$5, formerly \$4.

Non-resident hunting licences to hunting licences for deer, bear, fox, raccoon, squirrel and wolf, formerly \$15.50 are now \$21. Non-resident hunting licences for deer, bear, fox, game birds, rabbits, raccoon, squirrel and wolf, which were \$25.75, are now \$36. Non-resident hunting licences to hunt moose, deer, bear, fox, game birds, rabbits, raccoon, squirrel and wolf are raised from \$75 to \$101.

4,907,471 Canadians, 35% of the total population, are under 15 or over 70 and eligible for monthly family allowance or old age pension cheques from Ottawa.

Hello Homemakers! All the old favorites and possibly a few fruits you've never canned, may find their way into sealers this year. It is with pride and satisfaction that our perishables can be processed at home for epicurean desserts. For surer success, prepare only fresh clean fruit and use sterilized jars with new rubber rings or new metal lids with a sealing compound.

TAKE A TIP
1. Only sealers FREE from cracks, nicks and uneven edges should be used.

2. Scrub sealers and glass lids thoroughly in hot, soapy water and rinse in clear, hot water. Place sealers (topped with glass lids on a cookie sheet and sterilize in preheated oven (250 degs.) for 20 minutes. Dip rubber rings and metal lids into boiling water for about 1 minute before using.

3. Sort fruit for size and maturity. Wash small quantities at a time. Peel, store or blanch if necessary.

4. For most small fruit (raspberries, strawberries, gooseberries, cherries and diced rhubarb) prepare hot syrup and pour over cold fruit. Boil 1 cup sugar in 1 1/2 cups water for each "small" quart of fruit.

5. Pack sealers carefully with fruit. (To prevent glass cracking, place hot, empty sealers on a dry folded paper.) Then add syrup; slide the blade of a knife down the sides of each sealer to remove any air bubbles.

6. Process in the oven if you use pints or the "small" quarts. Heat oven to 275 degrees using bake or lower oven element only. Be sure that screw-top and spring top sealers are only partially sealed. Place oven shelf on the second slide from bottom. Insert cookie sheet on shelf and place filled jars 2 inches apart. Work quickly so that there is not too much heat loss. Wait until temperature dial indicates the first return of 275 degrees, then start to count processing time.

THIS IS the special four-cent stamp to be issued in July to commemorate the XVIII International Red Cross Conference to be held in Toronto, July 23 to August 9. The stamp is to be printed in blue and red—the third time that two-colored stamps have been issued in Canada. In 1898, the Imperial penny postage "map stamp" was printed in red and blue, and in 1939 another two-color stamp commemorated the visit of the King and Queen. This is the first time that Canada has been selected for an International Red Cross Conference, and only the second time it has been held in the Western Hemisphere.

Freight rates in Canada, despite the long hauls through unsettled country, are among the lowest in the world.

New Barn Designed
For Cattle Loafers

Agricultural engineers in Canada are working out plans for new warm buildings to save steps and labor around the farm.

Agriculturalists say these new buildings can make an important contribution to more economical and more efficient farm production. One of the new designs is for a dairy barn to eliminate much of the labor involved in milk production. In the new type "Loafing Barn", dairy cattle are allowed to run loose, feed at a common manger, and are milked in a special "milking parlor."

Canada's climate demands the stabling of dairy herds for about seven months of the year. In the traditional Canadian barn, cattle are tied in stalls which must be cleaned daily. Feed must be carried to the stalls and the milk carried from the stalls to the milk house after milking.

The new loafing barn has six separate areas: (1) a milking parlor, where cattle are brought for milking; (2) a milk house for storing milk; (3) a loafing area for cattle, with no stalls; (4) a feeding area, where cattle can go and get their own feed; (5) space for freshening cows and young calves, and (6) an area for young stock.

In addition, loafing barns do not require heating so construction can be cheaper. New methods of handling crops have made big barns unnecessary. With combine harvesters, for example, grain does not have to be stored in a barn before threshing. Now, hay and straw can be baled and piled in small sheds, or under tarpaulins in the open, eliminating the need for big barn storage space.

TENDERS
Painting of S.S. No. 7, 8 and 9

NASSAGAWEYA TOWNSHIP

Tenders will be received up to 5 o'clock July 2nd for painting schools No. 7, 8, and 9, Nassagaweya Township.

Good quality oil paint, mostly hand painting, two coats inside and out.

Tenders to be sent to

New ONE COAT

EXTERIOR WHITE

- NO PRIMER NEEDED OVER OLD PAINT
- REMARKABLE HIDING
- SELF CLEANSING
- IDEAL FOR THE ALL WHITE HOUSE — WINDOW SASH AND DOORWAYS

\$2.30 QUART \$7.95 GALLON

Moore's New One Coat Exterior White has been scientifically developed to permit satisfactory repainting over old painted surfaces without using a Primer. This product is recommended for use in one coat on repaint work where the old paint presents a continuous film. New wood or old surfaces where the paint is worn away or flaked off however, should be primed with Moorwhite Primer and finished with Moore's One Coat Exterior White.
