SCULPTORS' COMPETITION
 Sixteen Canadian sculptors have entered models in the international competition organized by the British Institute of Contemporary Arts. \$11,500 in prizes have been given by an anonymous donor. Theme of the competition is "The Unknown Political Prisoner." Models submitted will be shown at the Tate Gallery early in 1953.
 Steelworkers are highest paid industrial workers in Ontario, with \$1.61 an hour average at December 1, 1951.

Books IN REVIEW

THE HAYVENS OF DEMARET
 By Katherine Bellmann
 Another novel about the South a little over a century ago—the deep south, with graciousness, lavishness, beauty, lushness—all inevitable—forming the typical plantation setting for—what else?—romance.
 Jeffrey Hayven was the master of Demaret, a cotton plantation on the Mississippi, naturally. And romantic Demaret had a new mistress, Laure. Among her adjectives are lovely, wilful and temperamental.
 Jeffrey's twin brother Noel is the third point of the eternal triangle. The author's own childhood was spent on a plantation like Demaret. The background comes naturally enough; the characters are the stock in trade of this type of novel. And for those who like this type, The Hayvens of Demaret will please.

Ash Pupils Hold Picnic Program

Pupils at the Ash school held their annual picnic at the Ash school house on Wednesday of last week. Results of the sports program were as follows:

Meredith; shoe scramble—Donna Ford, Billie Marshall.
 Mildred Reed helped conduct the races.

Poet's Corner

ROSES
 The roses red upon my neighbour's vine
 Are owned by him, but they are also mine;
 His was the cost, and his the labor, too—
 But mine as well as his the joy,
 their loveliness to view!
 They bloom for me, and for me so fair,
 As for the man who gives them all his care.
 Thus I am rich, because a good man grew
 A rose clad vine for all his neighbours' view.

OUTDOOR COOKERS

A new outside grill has side broilers and consists of a vertical fire box and ash pan of porcelain enamel, reports the Financial Post. This frying pan controls the draft on the charcoal bed. It is claimed to be highly economical in fuel consumption.

OVERCROWDING LAW

"Driving a motor vehicle with persons or property in the front or driver's seat so placed as to interfere with the proper management or control of the vehicle by the driver shall be deemed to be driving without due care and attention."
 This law related to overcrowding the front seat of a vehicle comes from the Highway Traffic Act for Ontario, and is designed to eliminate a serious cause of accidents. This practice denies the driver the freedom of movement he needs to steer, apply the brakes or change gears when driving in heavy traffic or on the open highway.

The Memorial Ideal
 A monument built of enduring granite or marble, symbolic in design and reverent in purpose, resting in surroundings of peace and beauty, a tribute of respect and honor to the dead, a constant source of inspiration to the living . . .

A GENERAL MOTORS VALUE

CHEVROLET

first in demand in value in sales

MORE PEOPLE BUY CHEVROLET TRUCKS THAN ANY OTHER MAKE

Stack up what you get for what you pay... and join the nation's largest group of truck buyers by choosing Chevrolet

Maybe you didn't know that by far the biggest number of truck users in Canada today are buying Chevrolet Trucks.

They are . . . and for good hard-headed reasons. Because what they're after in a truck can be set down about like this:

- 1) It's got to be low in cost. No use paying a lot of extra money for a truck that the truck will have to earn back. Chevrolet trucks give you more for your money.
- 2) Upkeep and operating costs must be low. A truck is money-making equipment. It can't be a money-waster. Chevrolet trucks work for rock-bottom "wages" on fuel and maintenance.
- 3) How well the truck does the job is all-important. It's got to have the capacity, power and rugged construction to get work done—efficiently and economically. Chevrolet trucks are engineered and built for your loads.
- 4) The truck must be rugged, long lasting. That's an important part of over-all economy. Chevrolet trucks traditionally bring more at trade-in, for what they cost, than any other truck.

If these considerations make sense to you, take a good long look at facts 1, 2, 3 and 4 below. Then come in and let's see how a Chevrolet truck can save you money in your business.

ON THE ROAD WITH THE GREATEST PAYLOAD

Fact No. 1

More truck for your money
 Stack up a Chevrolet truck against any other truck, capable of handling the same payloads, and you'll see that Chevrolet gives you far more for your money. Chevrolet, for all its low price, brings you ruggedness, stamina, and exclusive truck features you won't find in many trucks costing a lot more.

Fact No. 2

Rock-bottom operating costs
 Many thousands of truck users have proved to their own satisfaction that Chevrolet costs the least of all to own and maintain. Valve-in-Head economy, in the four great Chevrolet engines, saves on gas. Chevrolet's special 4-way engine lubrication system reduces friction and wear, keeps oil costs low.

Fact No. 3

Engineered and built for your loads
 Chevrolet trucks are engineered to your payload requirements. You don't waste money by buying "too much truck" — you don't risk work interruption or slow-downs by buying "too little truck." Frame, axles, springs, body, brakes, and power are part of a well-balanced team.

Fact No. 4

Lower, slower depreciation
 Records show that Chevrolet trucks traditionally bring more money at resale or trade-in than any other make. Chevrolet's market value stays up because the value stays in. Here is further evidence that Chevrolet is the best truck buy.
