FASHION HINT

From the best dressed in the province to the worst, surely every woman has in the last week or so had the idea to have something — anything! — done to her hair to make it cooler. When it catches the breezes, it blows itself all over into tangles, and when it misses the cool air it droops and tickles and just gets hotter and hotter.

Mission Deaconess Is Speaker At Tea
Despite the extreme heat there was a fair attendance at the afternoon tea held in the Hornby United Church on Thursday, June 26th, under the auspices of the Women's Association.

BUOYS FOR SUBMARINES
Within the next two years all British submarines will be fitted with a new type of marker buoy which can be sent to the surface. The buoy has a radar reflector, a small visual reflector, a radio transmitter for sending distress signals

and a telescopic mast, which extends automatically on surfacing. Experiments with this buoy were begun shortly after the January 1950 sinking of the Truculent. Socialists and communists want to share everything equally — except the power to rule.

The latest trend is to brush back very short, loose curls around the ears; the back is cut so very short it is not curled at all.

ONE OF CANADIAN radio's youngest and busiest arranger-conductors is Howard Cable, whose newest broadcast series is Cable's Concert Band, heard Sunday evenings. Born in Toronto, he gave up an athletic career to join a high school orchestra as clarinetist. Then he organized his own aggregation, which had that "certain something" that attracted attention and got him his first break in radio. Since 1943 nearly every major radio musical show has featured arrangements by Cable. He has arranged and conducted for the Leslie Bell Singers since 1948, and during the winter he also waves the baton for the Musical Kitchen radio series.

Number of juvenile delinquents appearing in Canadian courts in 1950 was second lowest in 25 years and about half the 1942 record high.

The president, Mrs. J. Dingwall, was chairlady and welcomed the ladies. Miss Margaret Galbraith favoured with a violin solo accompanied by Mrs. C. Peacock. Mrs. Cromar of Norval, entertained the ladies with her stories of "Going Skating with Minnie," also "A Wish." Two duets were rendered by Mrs. Galloway and Mrs. Harold Learmont, accompanied by Mrs. Elliott of Milton.

Day Sun Glasses Reduce Accidents

Reduction of night vision as a result of exposure to sun glare during the day may be the cause of many night accidents. The Health League of Canada magazine quotes Dr. Robert H. Peckham of Temple University School of Medicine as saying that after a day's drive in the sun, 50 per cent. of all motorists may require nearly twice as much light as usual to see normally with their headlights.

Dr. Peckham's statement is based on wartime experience and postwar research. He quotes exhaustive tests made on a group of 24 drivers near Phoenix, Arizona, last summer. After a day's drive in moderate sunlight, without using sunglasses evening light was only 60 per cent. effective for half the drivers; and for a quarter of them, evening light was only 40 per cent. as effective as usual. Over half of the available light was useless to them because of loss of retinal sensitivity.

The Arizona research also indicated that the wearing of ordinary sun glasses during the day would protect the eyes from glare, and therefore from adverse effect upon night vision.

AUCTION SALE

Of Implements, Tools, Bee Equipment and Furniture
The undersigned have received instructions from
C. E. FEATHERSTONE

You, Too, Can Have Modern, FIRE-SAFE FARM BUILDINGS Like These . . .

CONCRETE MASONRY IS THE ANSWER!

If any of your farm structures need rebuilding . . . or if you plan to add new buildings . . . play safe and build with Vibrapac Concrete Masonry. Then you will not only be protected against fire and storm damage, but your buildings will always look neat, fresh and new. Repairs and upkeep will be low and daily chores easier. Concrete Masonry is the ideal material for building barns, cattle sheds, hog houses, poultry houses, granaries, silos, tool sheds, milk houses or any other farm structures that call for low cost modernization.

FREE! Write or call for your copy of this complete story of Concrete Masonry construction.
