NO BARGAINS YET IN HOUSES

No immediate price drop is in sight for houses, says The Financial Post. In fact the pressure is still the other way. Cement, steel gypsum lath and wallboard, plaster materials, lumber, nails, brick are being subjected to strong price pressure. Some of them have moved up in recent months, could go higher. Few if any key materials will be down.

Pressure is mounting again under building wages. Employers are determined to hold the wage line. All increases by unions have been reected. Plumbers are on strike in Ottawa and threatening strike in Toronto and elsewhere. Other building trade unions seem equally determined.

Employees of the Hallmark greeting card company in Kansas City are given days off with pay on their birthdays.
