The Letter Box

Milton, Ont. G. Arlof Dills, Esq., Editor, the Canadian Champion, Milton, Ontario.

Dear Mr. Dills: In Milton, the first house-to-house canvass for the Canadian National Institute for the Blind has been completed with a grand total of nearly \$1,000 which is being forwarded with the other contributions in the county directly to C.N.I.B. headquarters for the assistance of all sightless persons.

When one thinks of the many financial demands being made constantly upon our citizens, one realizes that the canvass could not have succeeded as it did without the co-operation of the members of the I.O.D.E., the local press and the citizens of the Town of Milton.

May we take this opportunity of thanking you and your staff for your co-operation and assistance, the members of the John Milton Chapter of the I.O.D.E. for their untiring work and the citizens of Milton generally for the generous response to our appeal?

Yours sincerely, George E. Elliott, Secretary, Local Committee

Col. Brown Appointed Chairman At Meeting of Area Municipalities and High School to Consider Esqueewingposal of Tax Levy on Educational Basis

Col. Brown, Esqueewing representative on the North Halton School District Board, was appointed chairman for the meeting in Milton High School last day by the board to discuss the levy on the five municipalities in the area. All municipalities represented.

School Board at their last meeting proposed to base the tax for 1950 on the, as yet, uncompleted assessment. An effort was to be made by those municipalities who have not completed the assessment and a high estimate would be adjusted to 1951 tax levy by rebate or interest.

This method had been presented to the board by the Esqueewing representatives because the present percentage of the cost of high, and Esqueewing were complainants in the issue.

Reeve Currie of Esqueewing presented the case of his town, claiming he had felt from that the cost had been from that could see no reason for base tax levy on a 1928 equalized amount as was being done on present supplies 20 per cent pupils and pays 51 per cent cost," he concluded.

Wm. Coon, Acton representative on the Board pointed out to Currie that the equalized method was to be completed throughout the county. "As their completed what is the matter with Esqueewing?" the representative asked.

The assessor of Esqueewing, out to Mr. Coon that it took longer to assess farm property because of the increased value of buildings as compared with property.

In checking up with the municipalities Chairman found that all but Georgetown would be able to give an amount on the completed assessment for purposes of
