BACK TO SCHOOL go three sets of twins. Somewhat of a record that three sets of twins should be included in the 25 pupils attending Limestone School this year. On their way up the walk of No. 2 Nelson go Jamie and Janet Coulson on their way for the first time, Stuart and Steven Hayward the identical eight-year-olds, on their way to grade three and Dawn and Eugene Coulter, 10 year-olds, going to grade five.

ed having received a old "Godey's Ladies' P year 1863. This book Grandmother when sh in the city of Chicago, 1 father, who was an Eng maker, was doing fine altars of Chicago chur the homes of the Chic class".

I was wondering the just how Americans Years back in 1863. A column headed, "Receip quite a discourse rela only New Year's, but day of the year. You the spelling of "receipt of "recipes". I know n many of the older pe family have always proword as if they were that scrap of paper you to after you pay a bill. Says this column: "7

of human felicity may n higher now than it has world will most likely title of a 'vale of tears' of time; but one consc that by no means a sma become stronger and of eral circulation in the -there is the possibility good dinners oftener. ners, excellent dinners, s lent dinners, have been eaten in all ages." The on to say that still bet are now possible due t

ceipts" found in this us "Set dinner parties thought of than the com family. The idea has forth and cherished that band and the children a to as much consideration ional guests, and that ought to be set out car neatly every day as on casions. There is a selfsuch a fact that goes de the clean tablecloths an napkins." This is just goo sense, Mr. Godey, but may needed to be reminded back in 1863 when enterta much less free and easy

The good advice of "Cookery is not merely 't providing dainty bits to f the ribs,' as the scornful erb has it; it is the art o every morsel to the best the exercise of skill, tho genuity, to make every r food yield the utmost nou and pleasure of which it is To do this, or to legislate doing of it does not depen amount of money spent; qualities of character are d whether the house-keeping large or a small scale. A who is not essentially kind cannot be a comfortable ho er; a woman who has not ji firmness, fore-thought, and good sense cannot manage h prudently or comfortably, ter what amount of money have at her command; a who has not an eye for and remedying disorderlin carelessness cannot keep h fresh and pleasant, no mat much money she may spend niture and upholstery.

It is not money, but man that is the great requisite curing comfort in housel rangements. The woman w ited means may make her t perfect after their kind as man with ample means; o will be required to put i HERSELF into the mana and that element of persona a charm which no appoi made through the best staff vants can possess—it is a that money cannot buy, and ally hinders. The luxury pleteness must always dep the individual care and ; the mistress.

That a thing should be after its kind is all that can quired. Bacon and venison opposite ends of the economi but if the woman whose ma low her to procure bacon careful to have it so dress served that it is as good as ought to be she has attain only perfection required hands; and it is the higher ies brought to bear on a c action which give to the re beauty and value not its ov

I think you're wrong then Godey- I think the beaut value is "its own," but it tal discerning mind and heart to it to life. But Mr. Godey's is still sound.

And now - a very happy Year to each and everyone,
