

— Staff Photo

HORNBY COMMUNITY park is shaping up gradually as volunteer workers toil in their spare time getting the land ready for a beautiful tree-lined community centre. The top photo shows a bulldozer pulling down one of the trees which had to be moved. In the lower photo, young men are shown cutting through a felled tree with a power saw. Manipulating the machine are Bill Thompson and Arnold Howden. The park will be 12 acres in size.

In the 1947-54 period farm living costs in Canada increased by 47.8 per cent. prices of equipment and materials used by farmers increased by 45.7 per cent.

The difference in elevation between Lakes Superior and Erie is only 30 feet, while the difference between Lakes Erie and Ontario is 327 feet.

55 Compete in Amature Night Crowd Near 400 Sees Program

A splendid program, a crowd of nearly 400, and 55 contestants made the amateur night, sponsored by Nelson Federation of Agriculture, a ion of Agriculture, a grand success in the eyes of officials concerned. Held Friday night in Fairview school, Lowville, the evening provided those watching with a wonderful variety of program by amateur talent from ages six to 60.

The program was divided into four groups: piano, dancing and instrumental, elocution and singing, and a special class for groups of five or more. Entries were received in every class open for competition, with 55 entries in all.

Jack Taylor, president of the Nelson Federation, and Bert Davidson, county president, each said a few words during the program. Clifford Waite of Lowville acted as Master of Ceremonies. The judges were Mrs. Lloyd Crawford of Campbellville and Mrs. R. M. Clements of Milton.

In the junior class, for ages nine years and under, the following were winners: piano, Beverly Dalles, Marlene McCartney; dance and instrumental, Cindy Parker, Bonnie Powell; singing and elocution, Brenda Colling, Susan Davis, Rosemary Colling (trio) and Shirley Mullen.

In the intermediate class, for ages 10 to 13 years, winners were: piano, Agnes Rose, Charles Alton; dance and instrumental, Diane Dawes and Stephen Kuzoff, Ruth Umetsu; singing and elocution, Karen Tierney and Jane Weir, John Martin.

In the senior class, for ages 14 years and over, the winners were: piano, Arlene McArthur, Susan Foster and Avaline Ballin; dance and instrumental, Frank Bozel, Gordon Nixon; singing and elocution, Margaret Wallace, the Apple-Quarter Notes.

There was also a special class for groups of five or more in drama and dancing. The junior prizes, for under 11 years, were won by the Coulson family and the Johnston circus. The Fairview Rhythmettes won the senior group prize with the Campbellville W.I. taking second prize.

Season Starts Saturday Angling Interest Grows

As impatient anglers await the opening of the speckled trout season in Ontario Saturday, April 28, the Hon. Clare E. Mapledoram, Minister of Lands and Forests, estimates that sport fishing this year will attract about three times as many fishermen as it did ten years ago.

Steady growth of interest in angling in this province is seen in the increase in non-resident licences sold. For example, 126,367 non-residents bought fishing licences here in 1945, 365,000 in 1954 and probably more than 375,000 last year, though final figures for 1955 are not yet available.

"This certainly is an indication not only of the growing interest in this fine sport but also of the favorable angling conditions to be

found in the lakes and streams of Ontario," the Minister said.

Legally "vulnerable" to the angler's wiles on April 28, along with speckled trout as the main objective, will be brown trout, Aurora trout and Kamloops trout, rainbow trout, Ouananiche or Atlantic salmon. There's a lake trout season in the County of Haliburton from April 28 to October 5.

Limits of catch are: Speckled trout—one and an additional 14 in one day, provided the additional 14 in the aggregate weigh not more than 10 pounds (except in Elgin, Middlesex and Norfolk counties); one and an additional nine in one day, provided the additional nine in the aggregate weigh not more than five pounds. Not less than seven inches.

Brown trout, Aurora trout, rainbow or Kamloops trout—five in one day, not less than seven inches in length.

Ouananiche or Atlantic salmon—one in one day (first fish taken).

Lake trout—five in one day.

Possession limit shall not exceed one day's catch. Length is measured from tip of head (jaw closed) to tip of tail (lobes compressed).

Angling license fees are: non-resident, for entire season, \$6.50; resident (Provincial Parks only), \$3.25; resident of Manitoba, \$3.25.

It is contrary to regulations:

1. To angle, if you are a non-resident, except under a licence.

(i) a non-resident under the age of 17 may angle without a licence when accompanied by a member of his family who holds a licence; and

(ii) the catch of such non-resident is included in the catch of the licensee.

2. To hold more than one angler's licence in any year.

The world's record speckled trout taken in the Nipigon River, weighed 14½ pounds. The average, however, is less than one pound, particularly in southern areas, though two and three-pounders are not uncommon in northern parts of the Province.

Experienced anglers say that in Algonquin Park, 160 miles north of Toronto, one of Ontario's favorite fishing spots, the opening week-end probably would see quite a number of trout taken weighing more than a pound and, a few weeks later, almost double that weight.

13 Grass Fires

While last week was a busy one for Milton firemen when it comes to looking after grass fires that get out of hand, it seems the week was a busy one for firemen throughout the whole of the county.

Milton firemen reported three fires, as did Georgetown, and Burlington had two, Oakville two and Trafalgar two. Acton had one.

PROUD LION made some 60 years ago is one of Campbellville's landmarks. Straddling the lion is Zeniphie Goion, 14. The picture was used in a Saturday feature in the Telegram, along with a short story about the village.

Children at Play Vulnerable to Street Accidents, Cites Safety

Children at play are particularly vulnerable to street accidents, according to many of the 15 pedestrian deaths each week in Canada, according to the All Canada Insurance Federation.

Officials of the Federation said children should be taught the rules of safety from the earliest possible age—both at home and at school.

According to safety experts, the best training method is through good examples set by parents. They recommend the following precautions:

1. Cross streets only at intersections, and only when signal is green.
2. Always look to right and left before crossing street, or leaving bus or streetcar.
3. Never jump on or off moving vehicles.
4. Never play behind parked cars or trucks.
5. Watch carefully for cars turning corners or coming out of lanes and driveways.
6. Never chase a ball or other toy into the street.
7. Be most careful crossing streets in wet or slippery weather; cars require greater stopping distance when roads are slippery.
8. Where there are no sidewalks, walk facing oncoming traffic; at night carry a flashlight or some readily-visible white object.
9. Walk to and from school by the safest route, even if it is the longest.
10. Obey the policeman; he is on duty to guard your life.

POET'S CORNER

THE POWER OF PRAYER
That "something" which keeps you from speeding away
From all problems which enter your life
Is the Faith which still is a guide for each day
To replace at once all inward strife.

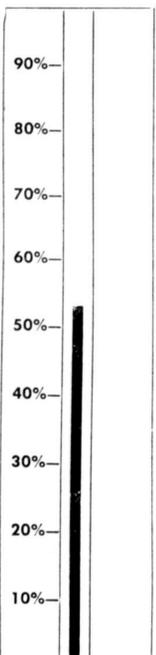

Thus if stormy days seem to lessen your joy,
Just recall that prayer taught in your youth,
To never let trials your great Faith destroy
But forever live close to God's truth.
—Thalia Rochlitz

COMBINED SET-UP

LA TUQUE, Que. (CP)—A new two-storey building is under construction here to house all district offices of federal government departments.

Cost of administration and operation of the federal Department of National Revenue, the tax collecting department, is estimated at \$50,206,000 in the coming year. In 1959 the total cost of this department was \$10,166,000.
