THE MAN WHO OWNED MOBY DICK

It was actually a too-big car. At gas pumps, it drank like a fish. So he called it "Moby Dick."

It even had fins like a fish. Parking it was like trying to squeeze a whale into a goldfish bowl.

He thought about trading "Moby" for an economical little foreign car. It was too little for 5 kids.

So he bought Rambler, only car with room for six 6-footers, plus European car economy, handling ease.

32 MILES PER GALLON

It was a Rambler "6" that set the NASCAR cross country record of 32 miles per gallon with overdrive.

Rambler's 1st in trade-in value among all low-priced cars, because it's the smartest buy, new or used.
