Secretary Mrs. Stuart McFadden reported that money for the special appeal had been forwarded to Toronto. The treasurer, Mrs. R. Marshall, gave a report on the pot luck luncheon and quilting. Members were requested to bring a shower of articles for the sale to the next meeting.

Each year expenses are paid for a girl to go to camp at Beaverton, by the W.M.S. branches in this division. This year it is Omagh's turn to select a girl or if two girls are able to attend, they divide the costs. It is hoped that some will feel able to go.

**Tips on Touring**

By Carol Lane  
Women's Travel Authority

If you used the family car to-day, the chances are excellent that it could have been stolen by a car thief a number of times—and with ridiculous ease, too.

Car thieves are a clever lot and, according to police warnings, they often specialize to a fine degree. Some go to work, for example, only when they spot a car with the engine idling at the curb; others prefer unlocked cars parked in crowded business districts; still others check the driving and parking habits of owners for a day or two before making the theft with comparative safety.

You can do much to foil a would-be thief with these suggestions:

- (1) Vary your parking place downtown, and always put the car away at home.
- (2) Always close all windows tightly—and lock the car door religiously.
- (3) Never leave the engine running, even in front of your home.
- (4) In strange cities, park in a garage or ask a policeman to suggest a good parking lot.

Family allowances, which take about 13 cents of every non-defence dollar spent by Ottawa, is the largest single item in the federal government's non-defence expenditures.

**Consult Parents  
On Report Cards**

OTTAWA (CP)—Parents and teachers at suburban Cardinal Heights public school plan to revolutionize the old-style report card. A committee was set up for the purpose and a questionnaire was sent to parents asking what they wanted to know about their children's school achievement.

Principal K. D. Johnson says the traditional report card, with its stress on academic things, leaves much to be desired.

"We want to discourage marks from becoming an end in themselves," he said.

He questioned the wisdom of comparing one pupil's achievements with those of another. This, in effect, is what the conventional report card does.

Mr. Johnson favored a report card that rated each pupil according to his efforts, recognizing that pupils have widely different capacities.
