Day of Prayer Unifies Women

The 1959 World Day of Prayer will be observed on Friday, February 13th when women and girls throughout the world meet, seeking the differences of denominations in the great unifying influence of worship and prayer.

The service this year comes from Egypt, where a committee of nine women, representing various churches, worked on it in happy fellowship. For inspiration they turned to "The luminous past", searching the writings of the Fathers of the Early Church in Egypt at the time when Alexandria was the centre of Biblical scholarship and Christian witness for a known world.

The theme this year will be He said, "Lord I Believe," and He worshipped Him.

Last year encouraging reports of meetings were received and in many places CGIT and girls groups increased considerably offerings used for the great objective of providing Christian Literature throughout the world.

Good attendances at these services of prayer this year are hoped for.

"Yes, Doctor...Wednesday will be fine!"

When it's time to have the dentist check daughter's teeth, Mrs. Smith naturally reaches for the telephone, that helpful "member-of-the-family" with the habit of getting things done. When you look back over your day, it's sometimes surprising to realize in just how many little ways the telephone has helped you... how it adds so much convenience and comfort to everyday living.
