

Response to Kinettes' Appeal "Wonderful" — Chief Marcher

"I want to say a personal word of thanks to all who have volunteered their services for next Monday night's Mothers' March of Dimes," said Mrs. Mary Pettit in a statement issued here today. "The response of the women of Milton to our appeal for help has been simply wonderful. If the rest of the community shows anything like the same enthusiasm when canvassers visit their homes, our 1959 campaign will be a resounding success."

This is the second year that the Mothers' March has been held in Milton. The drive is sponsored by the town's Kinetite Club and forms a part of a province-wide appeal in support of the Rehabilitation Foundation for Poliomyelitis and the Orthopaedically Disabled.

With head offices in Toronto, this voluntary organization carries out a broad program aimed at bringing rehabilitation services to disabled adults regardless of race, colour, creed or cost.

Acting as Chief Marching Mother for the Milton area, Mrs. Pettit has taken time off from her busy schedule to spearhead personally the local effort. "This is one of the worthiest causes I know of and I'm honored to have been asked to head it up. I only wish I could get across to my fellow citizens what their donations can mean to victims of polio, accidents or congenital defects.

Summing up, Mrs. Pettit said: "Our Marching Mothers are ready to go. Let's see to it that we are also ready to receive them. It's very simple—just three easy steps. Between 7:00 and 8:00 p.m., turn on the porch light, get out the cheque-book, and give as generously as your bank account will allow. You won't regret it, and the disabled will never forget it."

MILTON HIGH SCHOOL NEWS

Rose Anderson Sharon Reichert

Congratulations are to be handed out to all those who helped decorate for the dance January 23. It had a different flair, being done all in pink. Marlene White and Kent MacIntosh won a spot dance during the night. Due to the stormy weather and bad roads, the featured orchestra didn't show up.

Therefore since the orchestra wasn't present, why the stress on sports jackets when it turned out to be an ordinary dance with records?

We had a very interesting assembly for three-quarters of an hour Friday afternoon. Makes upper school chemistry look interesting.

STAMP CHATTERBOX

By H. Marshall

Parents of children attending public schools in Milton may have been surprised to have them come home a few days ago and inform them a stamp club was being formed in their school, and that they would be competing against the other schools for prizes to be awarded once a year for the schools having the best collections.

Stamp collecting is one of the finest hobbies in the world and we do not know of any country where stamp clubs are not in existence, so there must be a good reason for its becoming so popular.

Kings and Queens, members of parliaments, doctors, lawyers, merchants and people in every walk of life are avid stamp collectors and if we had permission to give you the names of business and professional men right here in Milton who had excellent stamp collections you would be surprised.

As an aid in both the study of history and geography we know of no easier way to teach and give children a lasting impression than through explaining to them, the story behind every stamp that is issued.

There are junior stamp clubs in many large places but we having made enquiries as far away as South Africa, have been unable to find any country in which clubs have been formed for each school, and stamp clubs in several countries are anxious to learn what success we are having so they can publish the information in the stamp news.

Herb Marshall at the Arena refreshment stand will be very pleased to talk to any parents who may wish further information.

any teachers as a result of blood vessels bursting!

This is a horrible subject to bring up but in the very near future exams will be looming up again. So a word to the wise is to start quietly studying now.

To remove deposits from gold fish bowls or flower vases, rub with a cloth dipped in vinegar.

LIBRARY NOTES

By T. J. B. ANDERSON

This week's notes are intended for High School students, and are on the subject of home-work.

I wonder if many students have ever considered the advantages of doing their home-work at the library. Those who haven't thought about it, might like to ponder on the following points.

The library is open on Tuesday, Thursday and Friday nights between the hours of 7 and 9 p.m. There is a large table at the back of the room and there is very little noise to disturb anyone who might be working.

In addition to this, the library possesses several reference works which would be of great value to a student. The most important of these works is the Encyclopedia Britannica, which is kept up to date by the Britannica Book of the Year.

For purely Canadian topics, the new Canadiana is recommended. This set has just been completed by the purchase of volume 10. Two excellent dictionaries are also available: The American College Dictionary and Webster's New 29th Century Dictionary.

The library is open at other times, but the evening hours generally prove to be the quietest. Why not come along one evening and find out how much work you can do when there is no TV to disturb you.

Consultant Stresses Need For Future Town Planning

ACTON—P. A. Deacon, planning consultant for the town, advised the 1959 planning board that consideration should be given for future planning in the town of Acton, during the inaugural meeting last week.

The consultant informed the board they should consider the following:

- (1) Close examination of the central commercial area in order to provide a stimulation of trade with off-street parking.
- (2) A park plan for the entire town.
- (3) A preliminary street plan to cope with future highway extensions and expansions in and around the Acton area.

Mr. Deacon pointed out that the opening of Highway 401 to No. 25 Highway would cause an increase in traffic through Acton until such time as 401 was completed farther west.

It was stressed that traffic would have to by-pass the unfinished area of Highway 401 and the logical thing to do would be to follow Highway 25 through Acton to No. 7 and rejoin No. 401 at a more westerly point.

Carry the Burden

Mr. Deacon noted that for approximately one full year No. 25 Highway would have to carry the burden of truck traffic while No. 401 was being processed and built to Highway No. 6.

NEW ROYAL YORK salutes Canada: A distinguished group of Canadian designers, artists and artisans blended their ideas and skills to achieve a distinctive Canadian theme in the public rooms named and decorated for the provinces of Canada in the new 400-room air-conditioned addition to Toronto's Royal York Hotel. The new addition, boosting the hotel's capacity to 1600 rooms, makes it the largest in the British Commonwealth. Above centre: the Royal York as it appears with new addition (right); Top left: Montreal artist Charles Greenwood puts finishing touches to his 19 by 9-foot reproduction of J. D. Kelly's original canvas, depicting purchase of the site of Toronto from

the Mississauga Indians in 1788. Top right: Polish-born Canadian Zygmund Mazur, of Laval des Rapides, Quebec, works on distinctive aluminum relief panels showing Fort Anne, Annapolis Royal, Nova Scotia, and Toronto's Fort York which adorn the elevator lobby. Lower left: an artisan of Atelier-Ecole d'Artisanat in Pointe-au-Pic, Quebec, works on a magnificent hooked tapestry which will decorate the Quebec Room. Lower right: Mrs. Bessie Schween, of Calgary, makes a neat job of the Duke of Windsor's E.P. ranch brand, one of 342 authentic Alberta cattle brands set into 91 leather panels adorning walls in The Alberta Room.

for the premises will be \$135 a month.

"Haven't we a spare room at the old Nelson township offices?" Councillor Lorin Laing asked Councillor Pennington, chairman of the finance committee.

"We feel Mr. Blair should have headquarters downtown," was Councillor Pennington's reply.

—Mrs. R. W. Ford of Omagh reports seeing a bluejay on several occasions near the house.

—An unidentified person notified the district O.P.P. office that a dead fox was lying on the old unused section of Highway 25 six miles south of Milton. Police searched the area but could not find it.

Burlington Approves Numbering North of C.N.R. at Cost of \$4,200

Burlington council at its meeting Monday authorized Municipal Services Company to complete street numbering in those areas of the town north of the Canadian National Railways right-of-way in former East Flamboro township and north of the Upper Middle Road in former Nelson township. Cost of the job will be \$4,200.

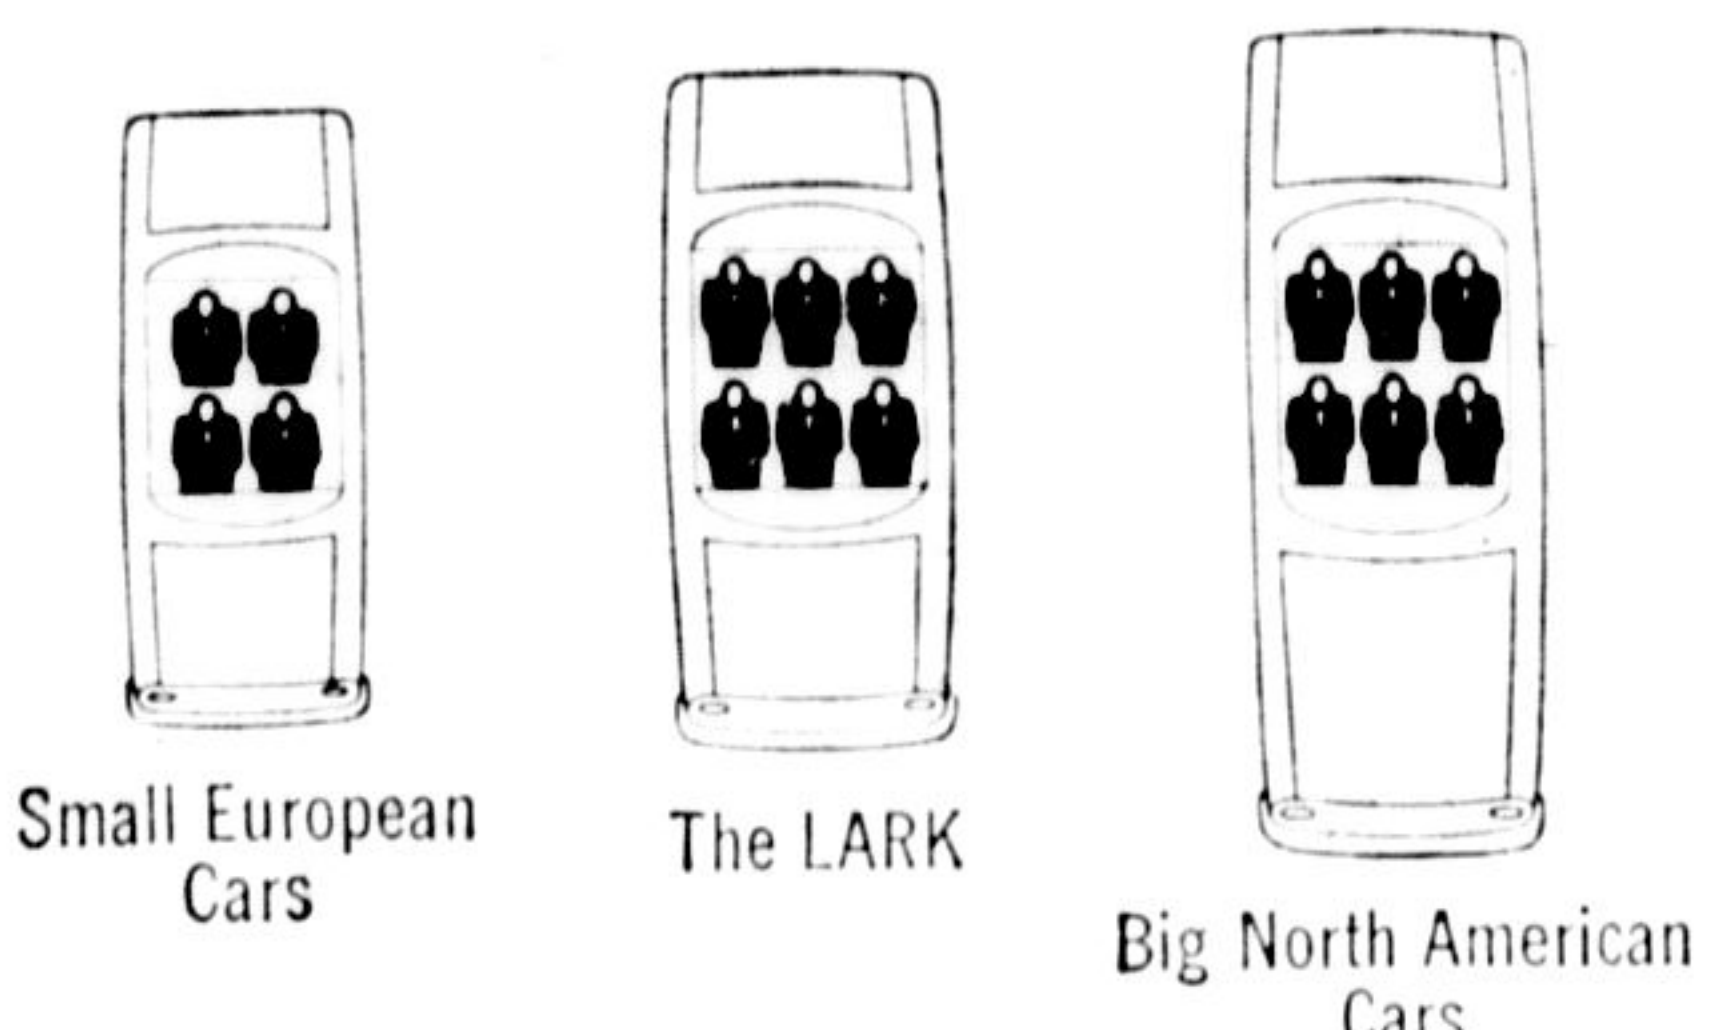

"This will complete street numbering in town," Councillor Pennington said. "Numbering in the area mentioned above will greatly assist the police, fire department and public utilities commission."

The mayor and clerk were authorized by the council to sign an agreement whereby the town will sublet the office until June. Rent

TOWN OF BURLINGTON TAX PREPAYMENTS

TAX PREPAYMENTS WILL BE ACCEPTED AT THE TREASURER'S OFFICE, 426 Brant Street, Burlington, on account of 1959 taxes. Any ratepayer wishing to do so may pay any amount up to 90% of the 1958 taxes. Interest at the rate of 4 1/2% per annum will be allowed on this payment from the date of receipt until the due date of the first instalment of taxes.

PROCLAMATION

CORPORATION OF THE TOWN OF MILTON

MINOR HOCKEY WEEK IN MILTON

WHEREAS, the week of February 1st is being observed throughout Milton as a period to focus public attention on the physical, character-building and other benefits of hockey for our youth, and

WHEREAS the game of hockey is recognized as our truly Canadian sport which teaches our youth to develop a competitive spirit, co-operation with others, body-building, and respect for authority, and

WHEREAS Minor Hockey is the foundation from which accomplished hockey players develop,

NOW THEREFORE, I, as Mayor of the Town of Milton do hereby declare the week commencing February 1st be observed as

"MINOR HOCKEY WEEK IN MILTON"

and request that all parents and others encourage children to participate in this great Canadian game.

NOW --- A FUEL OIL ADDITIVE THAT GIVES 100% COMBUSTION SAVES UP TO 1/3 ON FUEL BILLS

YEARS AHEAD OF ITS TIME

profit
AN OXYGEN SUPPLEMENT
OIL BURNER FURNACE BURNER
SPACE HEATERS

Attention owners of industrial and home Oil Burners and Space Heaters.

HERE'S HOW PROFIT WORKS

Fuel oil needs oxygen to burn — Ordinary air supplies 80% nitrogen and only 20% oxygen — giving approximately 60% combustion. Profit, when added, increases oxygen content to give 100% combustion eliminating soot, smoke, carbon and fumes.

— PROFIT DIVIDENDS —

1. Saves an average 1/3 on fuel oil bills
2. Gives a richer heat — more B.T.U.'s per gallon
3. Saves cleaning costs
4. Prevents tank rusting
5. Provides safe and fumeless heat
6. Gives clean heat
7. Gives faster heat
