THEY FIND IT FUN to learn from television. Weekly 15 minute CBC broadcasts are being seen by students in grades two to six in Milton's public schools these days. It is an experiment by CBC and the Department of Education is going along with the shows, to see how they work. Grades two and three see music and movement lessons, while grades four, five and six see social studies classes on the screen. Shown is Mrs. Snow's grade three class paying attention to their "TV teacher".
