i mmmmmm

Each of the eight teams in the Max Bradbury, PLR dart loop took six points on the night's play last Wednesday night so all move ahead an equal amount in the standings. The Bill Prescott, CTC final night of league play was last Dave Murray, DHO night in the loop with the playoffs slated to start next week.

Firemen and O.S.P., the two Terry Fetter, QM last place clubs in the loop fail- Jim Tarvis, CTC ed to make the playoffs and will now meet in a consolation round. Murray Smith, QM The standing as of last Wednes- Wayne Hilson, PLR day night's play was Wildcats Pat Dufour, QM ..... 8 10 18 100; Mountaineers and Mis Fits with 84 each; Romeos with 80; Beaver Baxter, GRY ... Legionnaires 78; Big Boppers 76; Hap Emms, GRY ..... with O.S.P. at 62 and Firemen at 60 bringing up the rear.

# Euchre

A lopsided night all the way, in memory of a son. the euchre league did not change its position much with Sputnicks still on top of the heap with 128 points. Big gain of the evening was made by the Old Pros squad which managed 11 for 120. Toppers took only three for 105 while Tigers made a jump also with 10. Royals and Blue Sunoco are having their own little battle farther down the line with 77 and 73 consecutively. Toppers' Max Black and Ken

they won only three points . . . Harold Agnew and Frank Kaszycki of Toppers were overrun by Old Pros' W. S. Wilson and Roy McDowell for a 6-1 count . . . Tigers' Ace Babcock and Len Pope pawed over Gord Milne and A. Martin of Blue Sunoco also 6-1 . . . The final standing in the dart loop is printed in this week's paper also.

tire when it comes o fixing flats? If tire-changing test from becoming

(1) Make sure, before you leave home, that all your tirechanging equipment, such as jack and lug wrench, are safely in your car and located so you can get at them quickly. Check Spare First

(2) Check your tires and especially your spare before you start on your trip.

(3) If you have a flat, try to get your car to a firm level surface to change your tire. (4) Carefully block both wheels on the opposite end of the car

from the flat. (5) Remove the spare tire from the trunk before jacking up

your car. (6) Place your jack at a slight angle opposite to the direction the car tends to slip as it is be- bill? ing raised.

(7) Loosen the nuts while the wheel is only partially jacked and still resting on the ground. Then jack the car completely to remove the nuts and replace tire. Remember these hints and you won't fall flat next time you have to change a tire.

#### SAVE \$3

U.S. parents spent \$190 million in extra insurance premiums in 1958 because drivers under 26 were operating the family car. This is three times the amount needed to teach every U.S. boy and girl how to drive in a high school driver education course. Numerous surveys have indicated that every dollar spent on high school driver education results in a direct saving of at least \$3 through reduced accidents and lower insurance rates — to say nothing of the incalculable saving represented by the reduction in injuries and deaths.

Insurance means

For the Homeowner: Today, insurance is making it possible for more Canadian families than ever before to enjoy the security of home ownership.

Without the protection of insurance against fire and other disasters, probably few of today's new homes could ever have been started. Knowledge that a home and its

contents are adequately insured against sudden loss replaces worry with Peace of Mind.

Last year, the companies writing fire, automobile and casualty insurance paid out more than 500 Million Dollars in claims across Canada - real evidence that insurance indeed means Peace of Mind.
