

CAPTAIN R. D. GOWLAND of Milton was one of 79 instructors and students of the Canadian Army Staff College, Kingston, to tour military installations in United States recently. U.S. Army Sergeant Jack Vickers explains the operation of a "Hawk" missile tracking system to Captains W. E. Ward of Toronto, F. W. Chapman of Calgary, R. D. Gowland, and Flight Lieut. L. M. Pederson of Edmonton, at the Fort Bliss, Texas, base.

Stamp Chatterbox

BY J. H. MARSHALL

On February 27, 1857, a tiny baby was born in London, England, who became one of seven children in the family, but unfortunately by the time this boy baby was about three years of age, tragedy struck them a very heavy blow as their Father passed away, leaving this large family alone to fight life's hard battles without a bread winner.

But the mutual love of the Mother for her children and the adoring love of the children for their Mother always seemed to lessen the heavy burden and carry them through. At the youthful age of 19 years, after he had finished his schooling, he immediately accepted a commission to go to India as a sub-lieutenant, where he fought with the cavalry in the famous charge of the light brigade which won many laurels in the Crimean War.

In the year 1887, he was sent to Africa, where he took part in campaigns against the Zulus, and later against other savage natives, and his advancement was so fast that by the year 1899, he has risen to the rank of Colonel. It was there in Africa that he and the very small force which he commanded were able to hold Mafeking in the siege against overwhelming numbers of the Boer enemy for 217 days, at which time relief forces arrived after doggedly fighting their way through enemy territory.

Canadian Celebration

On his triumphant return to England after the war was over, he had the honor of being promoted to Major General and also of being proclaimed a hero, but the day that peace was declared, there was also rejoicing in Canada. I remember in a certain town we had a huge parade in which OOM Paul Kruger and his wife were shown fleeing in an old two-wheeled cart drawn by an old shaggy horse with all their belongings tied on behind in huge bundles, and on another dray wagon, a large dressed pig was seen lying with its feet up in the air and guarded by six soldiers with fixed bayonets. This, of course, represented the defeat of the Boers.

No doubt you have already guessed that this young man was none other than he who before very long became known all over the world as Lord Baden Powell, Chief Scout of the world.

Established Scouting

After resigning from the army, he devoted almost all his time to the study of ways and means of helping children to become better equipped for life's journey, after which he published a number of pamphlets and books, out of which there developed the Boy Scout Movement.

During the summer of 1907, he took 20 boys with him to Brownsea on the British Channel, for the first Boy Scout camp the world had ever known, and as a result of that camp and the ever-unfolding efforts of Lord Baden Powell, there are today Boy Scout organizations in almost every free country in the world, with a combined membership of over seven million. This does not include the Girl Guides or Brownies, for which Lady Powell deserves a lot of credit for the assistance she gave in helping to bring into existence.

This wonderful man, who served his country so well on the battlefields, and then organized and devoted the rest of his life to this great youth movement, died January 8, 1941, but as long as there are Scout movements in the world, and Scout commemorative stamps issued all over, his name will never be forgotten by future generations of children.

Boy Scout Stamp

On February 8, the Boy Scouts of America Golden Jubilee commemorative stamp was issued, which featured a head and shoulder view of a Scout with right hand raised in a three finger salute, with the lettering 1910-1960 at the left, U.S. postage at the right, and the large 4c in the field to the right in blue.

The initial printing authorized was 120,000,000, with the designer being the noted artist, Norman Rockwell, who is especially noted as a painter of magazine covers and illustrations principally for the Saturday Evening Post. First day covers of this stamp shattered all records, when the post office in Washington cancelled 1,419,995 covers bearing the Scout stamp.

HORNBY

Personal Items In Week's News

Birthday wishes to Korrie-Sue Learmont, who celebrated her 12th birthday on April 18.

A warm welcome is extended to Mr. and Mrs. Jim Snow and their family Jamie and Julie of Oakville. They moved into their new home last week at Hornby.

Driver Unhurt

The driver of the truck that turned over at the Hornby corner last Tuesday escaped without injury. It is believed that soft shoulders caused the accident.

Congratulations to Mr. and Mrs. Jack Loos (nee Jean Peterson) on their marriage at Bethel United Church Saturday.

Mr. and Mrs. L. Sampson spent the weekend visiting with relatives in Norway.

Visit in Montreal

Mr. and Mrs. Delbert Downs and Shirley spent Easter weekend visiting with Mr. and Mrs. Glenn Gyles and Julie of Montreal.

Mrs. Elizabeth Brain and Gordon, Mr. and Mrs. Bill Brain and Mr. and Mrs. Cliff Hunter motor-

Canadian Girl Guide Stamp

On April 20, a five cent stamp will be issued in Canada in commemoration of the Girl Guide's Golden Anniversary. The design of this 5c stamp which has been announced by the postmaster general, will include a trefoil on a blue background flanked by the words, Girl Guides Association, in both English and French, and the dates 1910-1960 in gold lettering. The trefoil, a three lobed leaf, is the badge of the association. The artist is Helen Fitzgerald of Toronto.

United Nations Stamps

On April 11, the United Nations Economic Commission will issue a four cent and eight cent stamp honoring Asia and the Far East.

The Canadian Champion, Thursday, April 21st, 1960

MOOSE HARVEST

The 3,000 people, 300 of them non-residents of Ontario, who hunted moose in the Geraldton district in the 1959 season, took 1,030 animals, 850 going to residents and 180 to non-residents, a survey shows. Hunter success for residents was 31.1 per cent, and for non-residents 60 per cent. With a slightly greater number of hunters in the field, the moose harvest was about the same as in 1958.

Mr. and Mrs. John Bradley visited with Mrs. Bradley's mother, Mrs. Leonard of Welland over the Easter weekend.

The St. Stephen's Anglican Church Choir of Hornby went to St. John's Anglican Church, Stewarston on Sunday evening. They presented a program of Easter music.

Halton Dairy Princess to Vie For Dairy Queen Title at C.N.E.

The search is on for a Dairy Princess to represent Halton in the Dairy Queen Competition for Ontario.

Mac Sprowl, chairman of the Halton Dairy Queen Competition, has announced that the final closing date for entries in the Halton competition is May 6. Young ladies in Halton from dairy farms are eligible to enter in the competition.

This event has always been keenly contested in the county. During the four years the competition has been held, Halton entries have been selected as Ontario Dairy Queen on two occasions, and runner-up once. Last year's entry, Mary Lou Taylor of Burlington, was a semi-finalist in the provincial competition.

Chosen at Meeting

This year's Halton Dairy Princess will be selected at the annual Halton Holstein Twilight Meeting to be held on Friday, May 20, at Hays' Sales Arena at Trafalgar.

The dairy princess will represent Halton at the Canadian National Exhibition in the Dairy Queen Competition for Ontario.

The decision to hold Halton's selection at the Holstein Twilight Meeting was made at a directors' meeting of the Halton Holstein Club held in Milton on Tuesday, April 12, after reviewing a request made from the Halton Dairy Queen Committee. This decision should be a popular one, since the annual Halton Holstein Twilight Meeting is always well attended by dairy enthusiasts in the county.

This year's Twilight Meeting will follow the format of other years, with demonstrations in judging, grading, plenty of prizes and lunch for all. Included in this year's program will be a panel discussion on dairy cattle management.

Entry forms and information for the Halton Dairy Princess

Competition may be obtained from any member of the Halton Dairy Queen Committee, or from the Ontario Department of Agriculture, Milton.

The BIBLE Today

The revival of the Korean Bible Society, since the Korean war when the Bible House in Seoul was destroyed by fire, has moved forward another step. The Bible House was rebuilt and reopened three years ago. A new warehouse for scriptures has been built on the outskirts of Seoul and was opened last August.

Out of 23 applicants for colporteur work in Korea, 11 passed the necessary tests and started work on probation last October. Two of the colporteurs are women and all are graduates of senior high schools. Two are university graduates.

Thus the distribution of the scriptures will be increased among the teeming population of Korea.

Suggested Readings

Sunday, Luke 19: 28-48; Monday, Psalms 41: 1-13; Tuesday, Psalms 22: 1-31; Wednesday, Psalms 69: 1-21; Thursday, Psalms 34: 1-11; Friday, John 19: 17-30; Saturday, Colossians 3: 1-15.

Warn Farmers Against Feeding Treated Seed

Every spring this question comes up among farmers and seed processors: can a small amount of mercury be safely fed? The answer, according to O.A.C. botanist C. B. Kelly: "no". "Even if the treated seed is diluted to less than one per cent of the feed, it's poisonous. Mercury does not pass out through the body but is stored in the organs of the animal," says Professor Kelly.

Asked if there was any practical way to remove the poisonous mercury seed dressing, the Ontario Department of Agriculture scientist said: "No, only expensive laboratory methods will remove the chemical."

He suggests saving leftover seed until next year. "Label the bags to show variety name and what chemical was used for treating, then set the bags aside in the granary for next year. There might be a lower germination but not enough to cause concern as long as the seed is kept dry. Check the germination next spring."

If you don't plan to use the seed next year because of variety changes or for other reasons, Kelly suggests you burn or bury the leftover seed. "Don't throw it on the manure pile or leave it where animals might accidentally get at it."

Picture of a shopping centre:

Indeed - the handiest of them all... not just department store or cleaners, florist or plumber. You've probably also shopped for an apartment, "Articles for Sale" in the paper, phoned for a taxi or an electrician. The list is endless... but the point is clear: your telephone is always there, ready to save you money, time and effort. It's always there to serve you in emergencies or for a friendly chat. And nothing beats it as a shopping centre - right in your own home, convenient and inexpensive.

PROCLAMATION
DAYLIGHT SAVING TIME
IN MILTON

Whereas a number of municipalities in the district about Milton are adopting a uniform time for the adoption of Daylight Saving Time, and in order to avoid confusion in travel and business, the Council of the Corporation of Milton has passed a by-law establishing the period for the observance of Daylight Saving Time in Milton, from

SUNDAY, APRIL 24th, 1960
AT 2.00 A.M. TO
SUNDAY, OCTOBER 30th, 1960
AT 2.00 A.M.

Citizens are requested to comply with this by-law and adopt the time from the dates specified.

SYDNEY CHILDS, Mayor

Dated at Milton, April 11, 1960.
