It is sometimes misnamed "poison oak". Fortunately, there is no

broken or burning plants may

poison oak in Ontario. Here are a few precautions to ensure safe and happy vacations, free from distressing irritations of ivy poisoning:

(1) Every child should learn to recognize poison ivy.

(2) Every cottage and resort owner should eradicate poison ivy or post warning signs in areas where it is abundant. Should Report

(3) Every resident of Halton county who finds patches either on public or private property should report them to the weed inspector.

For identification of the plant, circular 243 will be found useful. It also includes hints on the
