BADLY ERODED BANKS of the Sixteen Mile Creek on the Chisholm project in Trafalgar Township, will be saved from future erosion by these "gabions" - wire boxes hand filled with large rocks and backed up with dirt. The Conservation Authority spent \$60 a basket and installed 22 large and six small baskets on the creek, which crosses the Lower Base Line near the Fifth Line. The installation is primarily for demonstration purposes, but also provides access to 30 acres of the Chisholm property which was inaccessible.
