Pet Expressions

How Did These Sayings Start?

It is fascinating to trace the derivation of everyday expressions. Phrases that seem as modern as Dixieland jazz may have come down from old Greece or Rome.

Other seemingly modern expressions started with men who manned our early sailing vessels, with cowboys in the old West or natives of the Ozark country.

Pass It On
"Pass the buck" offers a good example of the way unusual words and phrases became part of our language. In old-time poker games, the buck was an object placed in front of the dealer, usually a knife. The name, buck, probably derived from knives with buck-horn handles. When a player didn't want the deal, he would ante, then pass the buck, giving the job to someone else.

"Deadhead" started as a railroad term referring to a passenger riding free on a pass, or an empty car in the moving train. It progressed logically from this to its present use, to describe someone who doesn't pay his way.

Earn Your Salt
Among the old Romans, salt was considered essential and salt allowances were given regularly to soldiers. This explains how our word "salary" is derived from the Latin word for salt — salarium — and why the phrase "to earn your salt" has its present meaning.

"Kentucky positions" means fourth place in a race. Legend has it that this expression started with Kentucky trainers who kept absent owners happy by reporting that their horses finished fourth when in reality the nags finished sixth, seventh or eighth.

When baling wire is removed from hay, it is usually twisted into an unsightly mass before being thrown away. That is why we mean a person is twisted or crazy when we say he "has gone haywire".

"Put your shoulder to the wheel" has been handed down from stage-coach days when male passengers were expected to get out and push whenever the stage got stuck.

Going Back
"Back water", in the sense of taking back an opinion or backing out of an agreement, comes from a nautical term meaning to row backwards.

"Let's push off", meaning let's get going, is derived from the order given in pushing a boat away from a wharf.

That tasty melted cheese on toast dish—is it Welsh Rabbit or Welsh Rarebit? The former is correct. The name originated in Wales and the Welsh called the dish "rabbit" facetiously during a meat shortage.

"Armed to the teeth" traces back to the pirates of Captain Kidd's day. A pirate might literally carry a knife between his teeth as well as a weapon in each hand when fighting.

Already Before
Everyone knows that wood, after being cut, must dry adequately before it is ready for use. This is the origin of the expression "cut and dried", meaning something arranged completely beforehand.

"The bitter end" is a sea term. The cable holding a ship's anchor is fastened on deck to fixtures called bitts. When the cable is played out to its full length, the ship is said to be at the "bitter end".

"High and dry" is another nautical expression. Ashore, it means deserted or abandoned. To sailors, it means a ship so far upon the beach that the tide won't carry it off.

All Quiet
"Pipe down" means shut up on shore just as it does at sea. When the phrase originated, it referred to the boatswain's pipe or whistle, which signalled quiet at night.

The word Levis came into general use as a synonym for overalls simply because Levi Strauss was a U.S. pioneer over-all manufacturer.

Southpaw is supposed to have originated in Chicago when the city's chief ball park faced west. A man who pitched left-handed was pitching with his south paw.

PAIN IS ENDURANCE
Pain makes man think; thinking makes man wise; wisdom makes life enduring.
