## Leak in Dam Rumor False

Sixteen Mile Creek Conservation Authority officials have branded as "untrue" the recent rumors that the cement in the new Kelso Dam had cracked.

Field Officer David Murray said when the water reached a 20 foot level, some seepage was found, but when it was checked it was found through a series of filters, a normal occurrence at a new dam. There was no sign of inferior workmanship or poor concrete, he said.

This week the lake reached the 20 foot level. Maximum depth is 30 feet.

### SPRING FEVER

Each year at this time most of us fall victim to a strange malady known as spring fever. The symptoms are easy to detect. Members of the fair sex usually develop a keen interest in colorful new clothing and can generally be seen sporting lovely new creations called Easter bonnets. The menfolk, on the other hand, just sit around and dream of distant trout streams. Another strange effect of this disease might be a desire to clean up the garden—paint the house—improve and beautify the home inside and out. And that's exactly what a lot of people in Milton are concerned with these days. How do we know? Well, we've noticed a greater interest in our colored extension phones. As a matter of fact, there's a decided increase in the number of orders we've received in recent weeks. So, if you're suffering from spring fever, just relax and enjoy it. Remember, you're in good company.

What happens when it rains, well normally we just let it rain but sometimes we have to do something about it, especially when manholes get flooded by rain or fast melting snow. Should our cables get wet they have to be dried out whether it be day or night so service may be restored as soon as possible.

On the left below we see cable splicer Bob Greene at work and on the right looking down into a manhole is another of our splicers.

### BELL CHIME

Here's a new sound for your home — BELL CHIME. It's a delightful musical chime to announce your telephone calls... and it's available for individual and two-party line customers in Milton. Installed in the hallway, living room or anywhere else you like, it summons you gently to the nearest phone. Bell Chime comes in two beautiful colors — velvety gold or soft ivory. There's no doubt about it, this handsome little item will compliment any decor. A handy switch lets you set it for a loud bell to reach you at a distance. Or you can set it for the familiar, regular telephone ring. For more information, give us a call. We'll be glad to talk it over with you.
