

FIRST PRIZE WINNERS in the Halton County Fire Prevention Bureau's 1962 fire poster contest were David Downs of Milton and Martha Morgan of Burlington. Above, Bureau Chairman George Bundy of Milton admires their trophies at the banquet in their honor Monday night at Milton Fire Hall.

Honor Boy, Girl Poster Winners At '62 Fire Prevention Banquet

Martha Morgan of Burlington and David Downs of Milton were guests of honor Monday evening, when the Halton County Fire Prevention Bureau staged its annual poster contest winners' banquet at Milton Fire Hall.

Firefighters from all over Halton, the children's teachers, school principals and parents gathered for a turkey dinner provided by the Milton Fire Department Ladies' Auxiliary.

The children were judged top girl and boy in the Bureau's fifth annual poster competition, over 600 other grade five students from Halton schools. They were presented with individual desk pen sets, donated by the Bureau, and trophies their schools will retain for a year, presented by T. J. Brownridge and Norman Cantelton of Halton Mutual Fire Insurance Co.

Bureau Chairman George Bundy, Deputy-Reeve of the Milton Fire Department, was chairman of the banquet and presentations.

Plan Now

Well before "Do It Now" winter employment campaigns, a "Plan Now" fall drive encourages householders, businessmen and industrialists in Canadian communities to plan for winter employment.

The fall drive is conducted by Local Employment Committees with the aid of the National Employment Service, and community support increases steadily. Householders consider plans to renovate, while employers arrange for winter training of personnel and revise production programs.

CAMPBELLVILLE

Study British Guiana Church At Evening Auxiliary Meet

The Good Thought was given by Mrs. R. Mahon, using scrambled letters. This was quite amusing.

There was a short business session. The birthday song was sung for one of the members, Jesus Calls Us O'er the Tumult of Our Life's Wild Restless Sea was sung. The meeting was closed with prayer after which the 13 ladies present enjoyed the social cup of tea.

THE ROYAL WINTER FAIR'S Shorthorn Lassie and her alternate received travelling bags made possible by the generous donation of Mrs. Henry Hendershot of Milton, in memory of the late Harlan Merry of Milton. Mrs. Hendershot and Mrs. H. Merry are shown with the Shorthorn Lassie, Miss Ann Trimble, left, of Orangeville and her alternate Miss Beth Stephens of Chatham.

Members, Adherents and all Friends are cordially invited to join with us on these most joyous occasions.

Must Sell to U.S.A.

Trade Crusade Flag Waved in New York

Economics and Development Minister Robert Macaulay has returned from New York after successfully launching Ontario's trade problems with government leaders and U.S. businessmen.

He said his week-long visit aroused interest among U.S. manufacturers in regards to investment in Ontario, possible licensing agreements between U.S. and Canadian companies and establishment of branch plants in Ontario.

Pro-Canadian

At a luncheon to launch the trade crusade, attended by some 100 businessmen and the press, Mr. Macaulay said Canadians are not anti-American but rather pro-Canadian and "we are sensitive to our relative sizes and influences."

He warned that Canada could no longer continue to carry a \$700,000,000 annual deficit on merchandise trade with the U.S. This imbalance of trade, he said, could be corrected by slashing purchases of one billion dollars a year from the U.S. or by improving the economic lines of communication between the centres of commerce in the U.S. and Canada. He said the Ontario trade crusade relates to both approaches.

Mr. Macaulay listed these proposals: Ontario, which produces half of all the goods manufactured in Canada, must sell more to the U.S. market.

Invest More

U.S. businessmen should invest more capital in branch plants in Canada and effect more licensing arrangements with existing Canadian firms, which will help reduce Canada's serious trade imbalance.

U.S. head offices should free their Canadian subsidiaries to the necessity of buying U.S. component parts even though there are Canadian parts comparable in price and quality already available.

U.S. head offices should allow their Canadian subsidiaries to compete in the export market.

Mr. Macaulay said Canada welcomes U.S. residents and investment capital.

"But we want our own dignity... our own sovereignty... our own self-respect — we want to be able to balance our books, pay our bills, stabilize our currency and offer security to those whose causes we espouse."

U.S. head offices should allow their Canadian subsidiaries to compete in the export market.

Mr. Macaulay said Canada welcomes U.S. residents and investment capital.

At present there are four gyroplanes in operation. The craft is bomb shaped and wingless, with all its parts except the wheels, engine and instruments being made in Canada.

The company is planning to go into full scale production of the plane, as soon as their working model is certified by the Department of Transport.

The Avian Gyroplane is the result of the failure of the Avro Arrow. The engineers with the gyroplane idea found themselves unemployed when the Arrow defence contract was scrapped, so they took their own ideas with them and founded an airplane company.

The company, located in Georgetown, has been supported

Work on Avian Gyroplane

A Gyroplane that is said to be able to undersell helicopters, out-perform light executive aircraft and operate almost as cheaply as a car, is being built in Georgetown by the Avian Manufacturing Co.

At present there are four gyroplanes in operation. The craft is bomb shaped and wingless, with all its parts except the wheels, engine and instruments being made in Canada.

The company is planning to go into full scale production of the plane, as soon as their working model is certified by the Department of Transport.

The Avian Gyroplane is the result of the failure of the Avro Arrow. The engineers with the gyroplane idea found themselves unemployed when the Arrow defence contract was scrapped, so they took their own ideas with them and founded an airplane company.

by local businessmen and the Thermal Electric Corporation of Chicago. Don Hayward of Milton, a director of the company remarked "We've got a tiger by the tail but we need \$2,000,000 to swing it. Actually, \$1,500,000 would be enough to set up full production facilities but \$2,000,000 would be better."

The Gyroplane has drawn world wide attention with 2,500 dealers from Western Europe, South America, United States, Nordic countries and Canada applying to buy the plane when full scale production begins.

Wanted by All
Inquiries have been received

from missionaries, coffee planters, veterinarians, ranchers and highway patrols who have shown interest in the craft that can land in a small area with almost vertical descent. It can clear a 50 foot obstacle within 100 feet after takeoff, and is priced at between 15 and 20 thousand dollars, depending on extras.

Chief asset of the "Gyroplane" is its manoeuvrability. It is said that Alberta ranchers are considering retiring the horse in favor of such a maneuverable craft. However the company needs support in the form of \$2,000,000 and as yet, no such angel has been found.

To The Electors of Milton

Upon reading the challenge put forth in the Canadian Champion by Jim Dills in his Jottings quote:

"If you're upset about your taxes, concerned because your ditch isn't the way it should be, anxious that the town attract more industry, upset that your elected representatives don't do what you think they should, now is the time to complain long and loud. It's the season for complaining and it's the season for doing something about it. This month you can take a stab at running for the various elected positions and remedying all your complaints. But don't wait too long. There are only nine seats on council, three on public school board, and one on hydro commission. That's not very many to go around among the 2,300 voters, so you'd better line up your platform and support right now."

I decided to let my name stand in nomination for Councilman of the Town of Milton. I have never run for a public office before. I have been a resident of Milton for the past six years and feel that my years of experience in the business world qualifies me for the position.

If elected I would endeavour to assist in making Milton a Progressive town in which to live. A town where the taxpayers' money from the budget (be it a large or small amount) is spent not just on one section but distributed equally to all sections of town to help at least partially alleviate the pressing problems affecting each.

I would welcome the honour of working for the best interest of the citizens of Milton during the forthcoming term. Your vote in my behalf would be sincerely appreciated.

DAVID CHAS. SMITH

Bill C-77 Farm Credit legislation passed in the House last week. It is a landmark bill that the request for high. As the Liberal government comes part of the bill. The bill received so much support that it was passed on December 13th.

What are THE FACTS BEHIND THE FIGURES

at 'MY BANK'

TO 3 MILLION CANADIANS
B of M

Here is a concise summary in layman's language of how the B of M stood at the year-end on October 31st, 1962

WHAT WE HAVE:

CASH: The B of M has cash in its vaults and money on deposit with the Bank of Canada and other banks amounting to . . .	\$ 520,065,342
CHEQUES and other items in transit—representing the net amount of the moneys moving between branches of the Bank and into the B of M from other banks on account of customers' transactions . . .	112,094,335
INVESTMENTS: The B of M maintains a strong liquid position through investments in high-grade government bonds which have a ready market. Listed on the Bank's books at amortized value, they amount to . . .	742,197,080
The B of M has other investments—including a diversified list of high-quality short-term issues. These investments are carried at . . .	226,832,563
CALL LOANS: The B of M has call loans which are fully protected by quickly saleable securities. These loans amount to . . .	218,548,259
QUICKLY AVAILABLE RESOURCES: The resources listed above cover 47.8% of all that the Bank owes to the public. These "quick assets" amount to . . .	\$1,819,737,579
LOANS: During the year, many millions of dollars have been lent to business and industrial enterprises for production of every kind—to farmers, fishermen, oilmen, miners, lumbermen and ranchers—to citizens in all walks of life, and to community organizations and provincial and municipal governments. These loans amount to . . .	\$1,825,682,590
MORTGAGES and hypothecs insured under the National Housing Act, 1954—representing advances to homebuilders . . .	224,644,086
BANK BUILDINGS: In hamlets, villages, towns and large cities from coast to coast the B of M serves its customers at 900 offices. The value of the buildings owned by the Bank, together with furniture and equipment, is shown on its books at . . .	65,878,133
OTHER ASSETS: These chiefly represent liabilities of customers for commitments made by the Bank on their behalf, covering foreign and domestic trade transactions . . .	79,222,188
TOTAL RESOURCES WHICH THE B OF M HAS TO MEET ITS OBLIGATIONS . . .	\$4,015,164,576

WHAT WE OWE:

DEPOSITS: While many business firms, manufacturers, merchants, farmers and people in every type of business have substantial deposits with the B of M, about half of the money on deposit with the Bank is the savings of private citizens. The total of all deposits is . . .	\$3,712,565,329
OTHER LIABILITIES: Miscellaneous items, representing mainly commitments undertaken by the Bank on behalf of customers in their foreign and domestic trade transactions . . .	90,467,309
TOTAL OF WHAT THE B OF M OWES ITS DEPOSITORS AND OTHERS . . .	\$3,803,032,638
TO PAY ALL IT OWES, THE B OF M HAS TOTAL RESOURCES, AS SHOWN ON THE LEFT SIDE OF THIS STATEMENT, AMOUNTING TO . . .	\$4,015,164,576
WHICH MEANS THAT THE B OF M HAS RESOURCES, OVER AND ABOVE WHAT IT OWES, AMOUNTING TO . . .	\$ 212,131,938

This figure of \$212,131,938 is made up of money subscribed by the shareholders and, to some extent, of earnings which have from time to time been ploughed back into the business to broaden the Bank's services and to give added protection for the depositors.
