

Squirts Slam 11 Homers As Lowville Wins 48-25

Lowville Squirts, led by a three run home run performance by Denny Smith, trounced Mountain Gardens 2, 48-25, in their only game this week, Tuesday night. The squirts, coached by Ken Coulson and George Lynch, slammed 11 home runs in chalking up the victory. Ron Campbell, Dave Yemm and Murray Coverdale each had two round trippers and Gary Coulson and Len Coulson contributed single circuit clouts. Roger Coulson had a triple. Ron Campbell pitched the route for the winners.

Steady Pitching

Steady pitching from Murray Wells and Wayne Watson gave the Lowville Bantams a 26-6 victory over North Burlington in a game at Lowville on Friday night. Larry Campbell, Wayne Watson and Bob Everett each had a double and a home run for

the winners. Doug Powell had a double and a three bagger. The Bantams are coached by Gordon Harris.

Saturday the Lowville Girls' Senior team bowed to Elizabeth Gardens 16-11, in a game played in Lowville park. Saturday Gloria Warner and Bonnie Coulson pitched for the losers.

Lowville Midgets dropped their first league game of the year, when Hamilton edged them 12-10 in ten innings on Saturday night. Lee Coulson started on the mound for the losers and was relieved by Frank Bertasson in the fourth inning. Murray Dawson paced the Lowville attack with a home run and a single. Doug Coverdale had three singles and Bill Gudgeon had a pair of one baggers. The loss gave the Midgets a record of two wins and one defeat. They have no league games scheduled this week.

BOB HETHERINGTON of the Milton Bantam all-star team swings and misses, in a bantam game against Brampton on Saturday at the Fairground. Hetherington is one of the key players on a strong bantam entry. Plate umpire for the game was Cliff Houston of Milton and Brian Mulligan of Brampton is the catcher.

Hornby Edges "Glen" 8-7 Gain Tie for Top Spot

A three run ninth inning rally climaxed by a two run triple by Blake Ingles, allowed the Hornby Intermediates to defeat Glen Williams 8-7 and move into a tie for the Halton County Rural Softball league leadership.

In the Friday night game at Hornby, the visitors led 7-5 going into the bottom of the ninth inning before Graham Gillies and Jamie Cunningham singled. Ingles tripled and Don Learmont's sacrifice fly brought in the winning run. The win gave Hornby a share of first place with Glen Williams. It was the second meeting of the league powerhouses. Glen Williams won the first game.

Leslie Triples

Hornby scored their first run in the second inning when Dave Leslie tripled and Charles Gillies doubled him home. In the fourth, two Glen Williams' errors and

a home run by Charles Gillies netted Hornby three runs and in the eighth inning consecutive doubles by John Elliott and Ross Cunningham gave them another tally. John Willmott started for Hornby and was relieved by Jamie Cunningham in the second inning. Cunningham received credit for the win.

In a game played last Wednesday in Lowville, Hornby won 11-8. Gary Cox started on the Hornby mound and was relieved by John Willmott in the sixth inning.

Dave Leslie had a home run and a single. Graham Gillies three singles, and Blake Ingles, Don Chisholm, Gary Hamilton, Charlie Gillies and John Willmott a single each.

Hornby hosts Omagh Juniors Friday night. Game time is 8:15 p.m.

Establish Chamber Committee On Annexation, Industry Sites

A committee to investigate annexation and availability of industrial land in Milton, has been established by the Milton Chamber of Commerce.

President Brian Best reviewed the town's plan to annex 888 acres from Esquering and Oakville, at a Chamber executive meeting last Thursday, and pointed out the difficulties of enticing new industry into the town. He noted two enquiries had been received recently, but the prospects wanted building space within a two month period, and none was available in Milton.

Form Company

It was suggested business people could form a public company to raise capital, build a pilot building and lease it to new industries, a project that has been successful in other communities. The president, executive secretary Earl G. Black, and industrial committee chairman Ian Scovell were named to the committee.

Mr. Scovell reported the industrial committee was planning a brochure on Milton, and that Canadian Meter Company had offered the use of its equipment for printing and binding the 100 copies of the brochure. The Chamber executive also discussed the current parking problems of the town, and it was suggested councillors were "passing the buck" by indicating a public plebiscite would be needed on a plan to assess \$67,500 worth of off-street parking against the ratepayers. A letter was directed to council, suggesting the council deal directly with

the parking problem without holding a plebiscite.

Beautification Work

Reporting for his beautification committee, chairman John W. Ostler explained awards had been distributed for school children following the beautification month poster competition, tiles were in place on Main St. awaiting the planting of flowers, and hanging flower baskets had been hung from downtown lighting standards.

A collection from merchants had brought in over \$400 for the beautification fund, and a few more donations were expected. The Horticultural Society has planted the triangle garden at the Main-Ontario St. intersection.

Steering Committee

At the suggestion of secretary Earl Black, a central and experienced steering committee of past presidents and the secretary is to be formed, to aid in continuity of projects from year to year. Executive member Borden Wheeler reported the C.N.R. had turned down his request to have an antique steam engine excursion train to Milton during the Steam Association reunion Labor Day weekend. Members decided to write to C.N.R. president Donald Gordon to see if old colonial coaches could be used, that would not interfere with the regular railway equipment that would be busy on that holiday weekend.

Steam is invisible. It is water vapor which has cooled and condensed that is seen.

Deny Water Request Give "Consideration"

Milton Councillors Monday decided they would not consider any further applications for water service to those outside the town until after the August 1 annexation hearing.

Deputy Reeve J. Bell, chairman of the water committee, reported a request for service from a Given Road resident bordering the town's supply line. The applicant had lived in the house since its construction in 1957 but increasing iron in the well water made it unsuitable.

The deputy reeve referred to a council motion of April 1962 stating that consideration for water services would be given residences occupied or constructed prior to January 1962.

Councillor C. Johnson opposed granting the applicant water. "We have been repeatedly advised

not to do this", he suggested noting annexation proceedings were scheduled for August 1. He pointed out the April 1962 motion only called for consideration.

"If this is consideration I'll let it drop but I don't think it's consideration at all", Deputy Reeve Bell charged.

Councillor N. Pearce recalled the original action in discontinuing granting water was to discourage the ribbon type of development. "It hasn't done this and I would be in favor of granting permission", he suggested.

Reeve Martin pointed out the town presently has an adequate water supply but it may be expensive to expand it. He was considering the new wells discovered at Kelso and the cost of piping that supply to the town.

Members agreed to defer consideration of applications until after annexation. "But that should not be construed as assurance of the supply after that", Councillor Purdy emphasized.

WRONG NAME

In the council briefs appearing in last week's Champion, it was reported that a letter was directed by council to Ted Forbes, thanking him for replacing sidewalk cracked during the raising of his house. It should have read, Ted Timbers.

Briefs

—Don't forget to circle June 27 on your calendar. That's the date for the next Red Cross blood donor clinic, sponsored by the Hospital W.A.

—Pupils of Sunshine School have been busy this week, making articles that will be on sale at the school's annual bazaar and tea Friday afternoon.

LESS CALORIES

Skimmed milk or dry skim milk contains just as much protein as whole milk, but a glass of skim has only 90 calories compared with 165 for whole milk.

Won't Attend Closed Meeting

Esquering Councillors stuck to an old ruling against closed council meetings on Monday, when they turned down a Georgetown planning committee suggestion to hold a "committee of the whole" meeting to discuss the Smith and Stone property annexation.

"We have always held meetings out in the open," vouches Reeve George Leslie as council decided not to attend the meeting.

Council received a health unit inspector's report on an Eighth

Line property desired for a residence, and decided to forward the report to the present owner of the property and the prospective house builder. The report noted water and sewer problems in the swampy land.

A grant of \$50 was authorized for the Norval hockey club, winners of the Georgetown industrial league. Ads are to be placed for a caretaker for the new township hall, and prices are to be obtained on straightening a curve in the Fifth Line near the new Limehouse School.

Sputniks Win Twice In Girls' Softball

Four games were played in the "A" league of the Milton Girls' Softball league this week, two on Thursday and two on Monday evening.

Thursday the Thunderbirds edged the Flyswatters and the Sputniks eaked out a 19-18 decision over Satan's Angels.

Monday evening the Sputniks remained undefeated as they downed the Thunderbirds 14-9. The Flyswatters won their first game of the season, trouncing Satan's Angels 16-3.

NEED NO METERS

To the Editor:
I have just been informed that the Provincial Government has now amended the Municipal Act, as suggested in my letter to The Champion some six weeks ago. The Section requiring towns to charge a fee for the use of publically owned parking facilities has now been removed.

This now gives our Council the freedom to finance the cost of parking lots in any way they, or the citizens, choose, without being obliged to install parking meters.

M. S. Kernighan, P. Eng.

"RED-LETTER DAY"

Dear Sirs,
Enclosed find a post office order for \$3 to pay for a year's subscription to The Canadian Champion.

It is always a red-letter day when The Champion arrives, and I really could not be happy without news from my home town. I find Jim's Jottings, Down's in This Corner and Bill Smiley's Sugar and Spice especially enjoyable.

My thanks and appreciation to all whose combined talents make The Champion a really excellent newspaper.

Very truly yours,
Ada M. Turner,
Richmond, B.C.

Develop Park?

All parents interested in the development of the Falling-brooke area park are urged to attend a meeting to be held at the park site on Sunday evening, beginning at 7:30 p.m.

The park is located in the Maplewood Crescent, Heslop Road and Bell district.

I shall never permit myself to stoop so low as to hate any man. —Booker T. Washington.
