# Three Fire Calls Little Damage

A farm driving shed, a car, and a false alarm constituted three fire calls for Milton Firefighters over the weekend.

Saturday, a car driven by Lloyd Ferrier of Milton caught fire as he drove along the Fourth Line, Esquering. Damage was confined to a few cables.

Sunday afternoon, a driving shed at the R.R. 2, Hornby farm of Mrs. Elmer May caught fire, but a bucket brigade of neighbors and passers-by had the fire nearly out when the brigade arrived. Machinery in the building was rescued and damage was confined to one end of the shed.

# Three Seek Title Dairy Princess

Three Halton girls have entered the annual contest to choose a Halton Dairy Princess who can represent the county in the Canadian National Exhibition's Ontario dairy princess competition. And among them is last year's Halton princess.

Newcomer Adrienne Nurse of the Seventh Line near Ashgrove joins one of last year's contenders, Jeanette Finnie of Hornby, in challenging the 1962 Dairy Princess Margaret Hunter of Burlington for the 1963 title.

Miss Hunter won her title in a stiff competition against four other hopefuls at the Hornby Garden Party last July, but was edged out of the Ontario contest during preliminaries at the CNE. This year's title-holder will be chosen at the Hornby Garden Party on July 20, in Hornby Park.

The girls must wear white slacks and blouses, hold an interview with the judges, and give a talk on the dairy industry. Local farm groups assist the Ontario Department of Agriculture in sponsoring the competition.

# IT'S AN ILL WIND THAT BLOWS NOBODY GOOD

Our country is in prosperous times. It seems we have to live with a significant percentage of unemployment due to the relentless advance of automation. But this is the cost of change. Birth and growth have always caused some penalty, though their end result is universal good.

The car industry is one that economic experts call the bellwether of our whole economy. For the second year running, automobile sales are booming despite many experts who said this was impossible, and they promise to surpass the record year of 1955.

If you are thinking of buying a car this year, here are some facts that may help you make a better decision: New car prices will never be lower for what you get for the money. Dealer volume is high so that unit profit can be lower and dealer concessions on trades (how you measure the actual cost of a new car) are at record levels. Booming new car sales mean bulging used car stocks with more variety and quality to choose from.

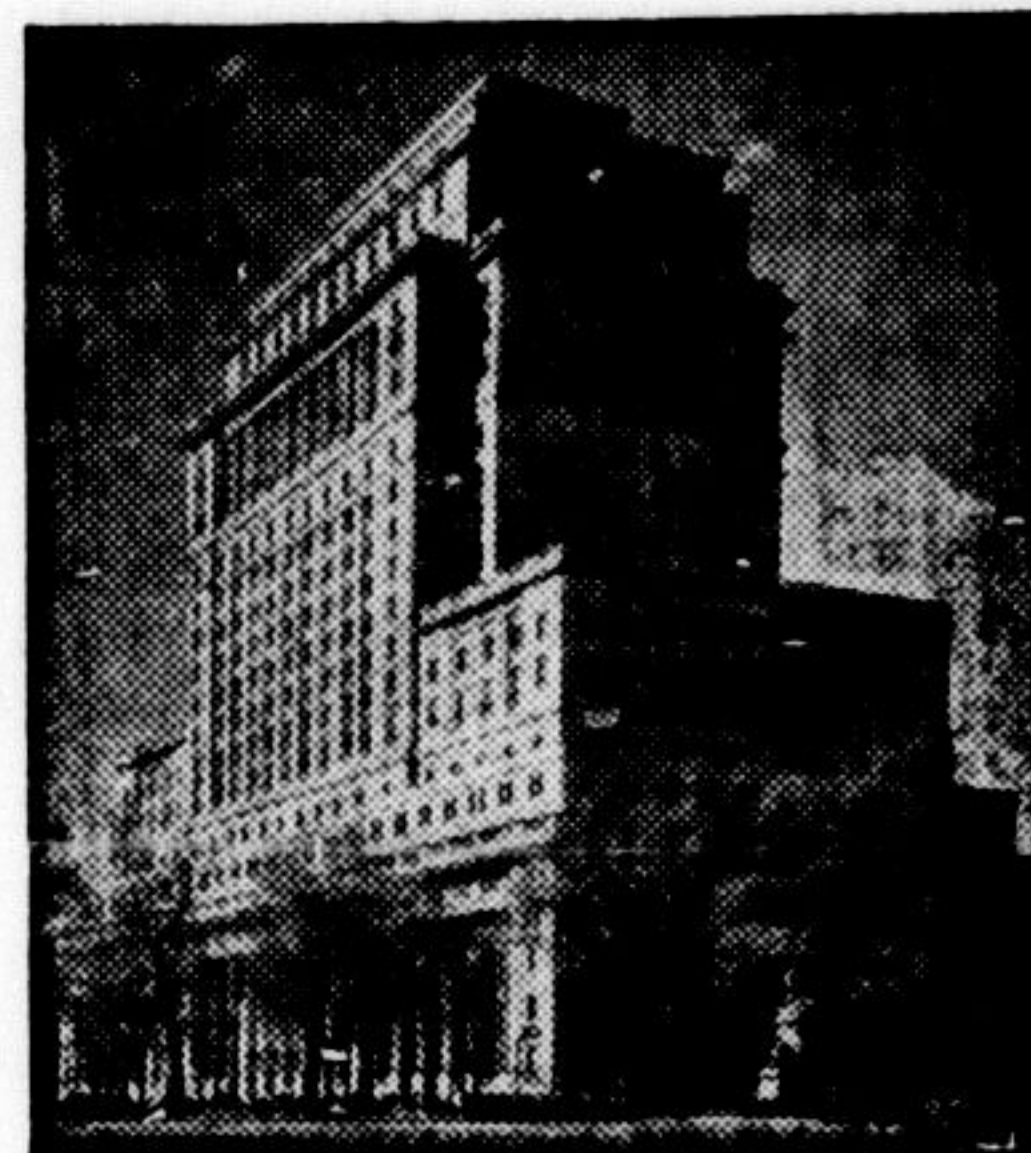

The finance difference between a new and used car is \$28.00 a month based on January-March figures. New car payments are \$86 monthly based on the average 31.8 months contract, and used are \$58 for the same contract time. New or used, now is a wonderful time to purchase.

We sell both kinds and back them up with reliable and economical service, honest guarantees and a never-ending effort to keep you buying from us.
