The rink saw lots of use during Christmas holidays, and every day at noon hour the school students get a chance to go flashing around on their steel blades. Mr. Wismer is keeping the rink flooded and scraped, while Ted Coote, Al Shaw, John Pegg, Robert McMullen and Bill Allison are supervisors.

RIGHT AROUND HOME

By SHIRLEY

Now an integral part of our culture, the coffee break has its beginnings about three hundred years ago when the Turkish invaders took coffee to Vienna with them. The first coffee house was opened there and soon establishments appeared all over Europe and England where men met to sip coffee and engage in stimulating discussions about politics and literature for hours on end. Contemporary life seldom allows us the luxury of hours to spare to spend in idle conversation, but the relaxation of a coffee break is enjoyed daily, in home and office. A sweet con-

fection is welcome with the fragrant beverage and Coffee Crumb Cake will fill the bill perfectly the next time you're hostess for the neighborhood "kaffe klatch." This moist, close-textured cake has a nutted crumb topping. It's rich in color and flavor, thanks to the tasty blending of instant coffee, cinnamon and nutmeg. Unlike some coffee cakes, this one cuts beautifully when it's still hot from the oven and tastes delicious even when cold. Made by the quickbread method, it is mixed in "jig time," so it's a recipe that will be handy for family brunches on weekends, as well as for coffee breaks during the week.

COFFEE CRUMB CAKE
(1, 9-inch square)

2/3 cups once-sifted all-purpose flour
or
3/4 cups once-sifted pastry flour
1 1/2 cups granulated sugar
4 teaspoons baking powder
2 teaspoons salt
1 teaspoon nutmeg
2 teaspoons cinnamon
2/3 cup chilled shortening
2 eggs, well-beaten
1/4 cups cold water
2 teaspoons instant coffee
1 teaspoon vanilla
1/4 cup finely chopped nuts

Preheat oven to 350 deg. F. (moderate). Grease a 9-inch square cake pan. If glass ovenware is to be used, reduce oven temperature to 325 deg. F. (moderately slow.)

Sift together the flour, baking powder, salt and spices into a large mixing bowl. With a pastry blender, cut in shortening until mixture resembles corn meal. Reserve 2/3 cup of this crumb mixture for top of cake. To remaining mixture in bowl add combined beaten eggs, the instant coffee dissolved in the water and the vanilla. Mix lightly until combined.

Pour into prepared pan. Add chopped nuts to reserved crumb

topping: sprinkle evenly on top of cake. Bake in preheated oven for 45 to 55 minutes or until cake tests done in center. Serve warm or cold, cut into squares or fingers.

Apple Date Betty is a delightful cold weather dessert. Sweet and tangy flavors set off each other, with delicate spicing as an accent. For about six servings, combine 3 cups soft day-old bread crumbs, 1/4 cup coarsely chopped pitted dates, 4 cups pared, cored and sliced apples (about 5 or 6 medium apples). Blend together 2 tablespoons brown sugar, 1/3 cup melted butter

Christmas is Over

Town Collects Trees

The Christmas season officially ended for town workmen this week, with the collection of 30 truckloads of Christmas trees on Monday and Tuesday. The trees are burned each year at the town Disposal Plant and the task keeps four town workmen busy for two days.

Town foreman Bruce McKerr noted, "they make quite a fire, you have to take it easy when you're burning them." It was estimated by the foreman that 15 truck loads were picked up each day. "There'll be a few stragglers again this year," he said, "but we can't help it."

Build Your Own House

BUILDING YOUR OWN HOUSE

Can you act as your own contractor in building a house? The answer is yes, but it calls for a lot of hard work, time and a good knowledge of the building industry.

You would have to make your own arrangements for purchase and delivery of materials. You would also have to hire sub-contractors. The responsibility for having sewers, water and hydro connected would be right in your lap. You would have to handle

your own accounting. It can be a complicated business.

Unless you figure you can handle it properly, you might just as well employ a reputable contractor and let him build for you. If your main aim is to cut costs, you can probably work out some arrangement with a contractor to get credit for any work you put into the house yourself. This is a matter to take up with the contractor before you sign the contract.

Why not make this a "LOOK-BEFORE-YOU-LEAP" YEAR?

Just because 1964 has a February 29 in it, there's no reason to go leaping into anything. Certainly not into the financing of important purchases like a car, a major household appliance or a TV. Before buying something you hope to enjoy throughout the whole bright new year, take a good look at the Bank of Montreal Family Finance Plan. You'll find that a low-cost, life-insured loan under this modern plan is just the thing to cover all your family's credit needs.
